Rise Up

The country has slipped into "the survival of the fittest mode." Chaos has broken out, an acute shortage of Vaccines and Medication, a race for hospital Beds, scarcity of Food and the Air we breathe... mankind is suffering.

Are we in the real world?

The track "**Imagine**" by John Lennon gives me hope, faith and courage to face the grim scenario and rise up, awaken humanity in our circle of influence, and make a difference to rebuild the pieces for tomorrow.

SOBO has collectively risen to engage with pathbreaking community initiatives to meet the burning needs, test our limits and stretch our horizons with zeal, time and effort to grip a hand that may be on the edge of slipping away.

The crowdfunding campaigns for Prosthetics and life-saving critical Medical equipment gave us a huge impetus with massive fundraises. All acknowledgment for the selfless service to make this happen.

This is the real world we would like to live in.

"Imagine all the people,

Living life in peace."

In gratitude,

Rajiv

3H Project at King George V Memorial

by Niharika Malik

The club embarked on tackling the Hunger project as part of the 3H project with gusto. Following a series of food distribution drives, a long term meal arrangement was planned for the destitute at King George V Memorial, with Rtn. Shantanu Sahai's assistance.

The project has continued without disruption through the lockdown. The requisite permissions facilitated by Rtn. Vaishali through the month of April despite the lockdown measures, as members noted such times tend to leave the vulnerable acutely worse off.

Meals have been sourced from Mrs. Shirodkar, a lovely lady cooking out of her home kitchen, warming bellies and hearts with her nutritious and delicious fare. With Rtn. Rajiv's support, we are glad to have not only managed to source wholesome food, but also assist Mrs. Shirodkars family who were adversely impacted this past year due to the pandemic.

The Project has been tinged with kindness from many quarters, be it the driver who did not take a Sunday off in the month and also delivered food on Gudi Padwa because, "God's work is far and beyond festive celebrations", or Shirodkar aunty's daughter who has volunteered to bake and send brownies on the last day of the meals as her personal contribution.

A ray of hope in these grim times, "When fate hands us money, let's help hungry people."

Let's not anyone go hungry!

Conscious Celebrations

by Sheetal, Els & Heather

The Vatsalaya Foundation is a non-profit organization that helps children in need of care and protection, aged between 7 to 18 years, who are fleeing from environments of conflict, ill-treatment and despair. The Foundation intervenes and works with these children by admitting them into its two shelter homes in Lower Parel (Boys) and Murbad (Girls), where it takes care of their nutrition and education, seeking to empower them through a planned rehabilitation process with the objective of mainstreaming children back into society.

The Rotary Club of Mumbai SOBO has engaged with the Vatsalaya Foundation and initiated its first sustainable project, through a proposal mooted by Rtn. Shantanu Sahai, to supplement the nutritional needs of the young boys of the Boys Orphanage at King George Vth Memorial Trust, Senapati Bapat Marg, Lower Parel.

Starting April 2021, we have been providing weekly distribution of seasonal and nutritious fruit to the children at the orphanage, with an initial commitment period of one year. Individual members were requested to come forward and sponsor any week(s) of their choice – perhaps coinciding with specific months that are of personal significance to them leading to conscious celebration. Thanks to the overwhelming response of our members, the projected funds needed for this year-long project have exceeded expectations. This gives us the confidence that, with your support, we would be able to sustain this project for many more years to come and possibly expand it to other orphanages in our neighbourhood as well.

"Celebrations infuse life with passion and purpose. They summon the human spirit."

SOBO celebrates “The Joy of Giving” Birthdays-With-New-Friends

by Rittesh Seth

Three leaves from the notebooks of the lesser fortunate children at The King George V shelter home *and that was it for the Rotary SOBO !!*

Given the impending lockdown, what started off as a far-fetched idea suddenly assumed the status of a mission.

At one end were **50 + children (including April borns - Vijay and Gaurav)** and on the other was Vynn (Vivekca) - a sulking **7 year old Bombay Scottish lass who was staring at her second consecutive lackluster birthday** on the 15th of April.

A huddle meeting on the 7th of April by Rotarians **Monica, Niharika, Rajiv, Shantanu and Rittesh** is what followed giving birth to the idea of a **hybrid virtual party with a parallel cake cutting at respective venues**.

With bakers declining cake orders amongst other logistical issues, the task force knew that the next seven days wasn't going to be a walk in the park. Luck flipped in the nick of time with Sheetal Vidhani of **Mer Konfekkt** offering to treat the kids with their premium lip-smacking cakes.

Thereon things just started falling into place. Ensuring there was never a dull moment was **magician Zenia's spellbinding (pro bono) performance with magical doves**, ending with her teaching the kids a magic trick!

Mirth was aplenty - Vynn sang for her new friends who, in turn, danced to some brilliantly choreographed songs until the 3 children cut their birthday cakes before settling down for a sumptuous meal.

It was a joyous celebration indeed, with a sparkle in the kid's eyes and peals of laughter ringing through the evening till Ms. Swathi Mukherjee (Trustee of The Vatsalya Foundation) decided to blow the whistle, albeit with a heavy heart. As for Vynn, ushering this **“Birthday-for-a-cause”** endowed upon her a gift money couldn't buy.

This trailblazer event also heralded a new beginning for **Rotary SOBO**.

Kindness, Like A Boomerang, Always Returns

by Mahera Goel

We often look outside for heroes, but we see them right here amongst us! When a group of six 14 and 15 year-olds decide to support a cause, you know the planet is in good hands.

Students of Fazlani L'Academie Globale, in association with the Rotary Club of Mumbai SOBO and the Ratna Nidhi Trust, are all set to transform the lives of amputees by providing them with prosthetics.

Story of Prosthetics:

Over 2 million people in India live without easily walking or doing simple tasks because they are amputees or are born with a congenital disability. Amputees are unaware of solutions and also sometimes cannot afford to access a qualified rehabilitation team. Mobility camps are hosted to provide custom-made mobility aids that cost Rs 4500 per person for limbs/arms.

Students have raised Rs 5,60,000 from 92 well-wishing funders across the globe.

FAZLANI L'ACADEMIE GLOBALE

LET'S HELP PROVIDE PROSTHETICS TO AMPUTEES.

Students of Fazlani L'Academie Globale School in association with the Rotary Club of Mumbai SOBO are transforming the lives of amputees by providing them with prosthetics. This will be life changing for the beneficiaries.

THE SOLUTION

A JOURNEY OF BEING DEPENDENT TO INDEPENDENT.

Jayashree lost her leg in an accident when she was 5 years old. The accident resulted in her being disabled. Her parents were devastated. But Jayashree didn't let her disability break her spirit to go to school. She currently studies in Grade 12. She used to walk 5 km everyday to attend classes with the help of her crutches. With the help of Ratna Nidhi, she was fortunate to get a prosthetic limb which completely transformed her life.

With a shy smile on her face she shares "I can now finally walk without crutches and on my own feet. I want to grow up and be a doctor and am willing to work hard for it. Thank you for coming to my village and providing me with a free Jaipur foot."

RIZWANA - our good samaritan!

by Els Reynaers

This month Rizwana Makani handed over 50 bottles of 1/2 liter hand sanitiser to the Paediatric Department of the Tata Memorial hospital, which was further distributed to the families of the children being treated at the hospital. The Tata Memorial hospital was most grateful for this selfless act, every good deed matters in this time of crisis. It also stands to show that selfless acts at an individual level can go a long way in brightening up the day of the less fortunate. All the children at the Tata Memorial hospital are in our thoughts and we wish them a speedy recovery. As a club, we will continue to seek engagement with the Tata Memorial hospital in the months to come. We are truly grateful for the thoughtfulness and kind-heartedness.

BOLLYWOOD MAZAA - All work and some play to keep you healthy, happy and bright

by Ritika Agarwal

Mumbai, the maximum city that never sleeps with all the hustle bustle in its streets, buzzing nightlife, malls, theatres, financial capital and film industry (Bollywood) hub, is reeling under the pressure of yet another COVID lockdown. Shrouded in silence with deserted streets, as we remain isolated in our homes, come Friday and Rotary Mumbai Sobo, in its online fellowship event, brings in refreshing excitement and fun with some Bollywood tadka. Presenting a specially curated gaming event entitled "Bollywood Mazaa" coupled with some live singing and music by the very talented and multifaceted Ivy Roy along with her son Ronnan Roy playing the guitar. A Houseful event with the members experiencing the joy of creating their own 'housie ticket' selecting the names of 15 Bollywood movies from a list of 60. Witty clues in the form of movie posters, audio clips and live songs kept the members guessing to crack the answers. Indeed a very engaging evening with vibrant participation, scintillating melodies, excellent guitar strumming and some great prizes to be won added the much needed spark and social interaction to brighten up and lift everybody's mood.

Grateful to all members for the success of this very enjoyable evening, a special mention of the fun and peppy compering by Shilpa & Sachin Daga and the skillful organisation of the event together with Jaishri Kimmakar and Swati Jatia. Special thanks to Ivy Roy for gracing the evening with her beautiful voice and congratulations to our lucky winners.

IPL T20 PREDICTOR GAME - Some Hits some Misses with excitement all through....

by Rajeev Goenka

Its IPL season from April 9th to May 30th but without the usual fanfare and surging crowds, it will be played behind closed doors across 6 venues in India. Mumbai Indians, the two times defending champions having won both 2019 & 2020 seasons and Mumbai-ites are fighting another grave battle on the health and epidemic front. In this rather lacklustre and grim state of affairs the Rotary Mumbai SOBO steps in with its own **IPL Predictor Game** to infuse some cheer and enthusiasm.

Before the start of each game, the participating members use their cricket acumen, intuitive nerve and their bookie "contacts" to predict the Winning team, the Man of the Match, the Batsmen with most Sixes and the Bowler with most Wickets. Amidst great excitement as the match progresses, the whatsapp group made for this game is abuzz with players' comments, jokes and jibes. At the end of each game, the hits with right guesses are rewarded with points and there are weekly prizes being announced for the player with maximum points. The Jackpot will be the bumper prize for correctly predicting the top 4 teams at the end of the league and guessing the Orange and Purple caps that carry lots of points.

30 cricket enthusiast's are vying for the ultimate Prizes. Till then it's a watch to see who makes it or breaks it as the drama unfolds on the field as our teams sweat it out and in the rapture of the virtual world where our players are competing.

All in all - may the best team and the best players win!

Rajiv and Ranvir Punater, the father-son duo, conceptualised the Predictor Game.

Inception of the Rotary SOBO Wine Appreciation Club

by Shantanu Sahai

The idea of a local wine appreciation club was mooted after the guest lecture on Rotary Fellowships - a few members have come together to jointly do a deeper dive into the fascinating world of wine.

The stated objective of the club is to contribute towards developing a working knowledge of wine and then to put it to good use in the post pandemic world - organise wine tastings, visit wine estates both in India and overseas and have some fun together while doing it!

While Wine is a subject of great snobbery in general and like any other field, is a deep and expansive subject in itself, the plan is to cut through the clutter and focus on developing a working understanding of the subject - that allows one to enjoy it in the fastest, easiest and the most inexpensive way possible.

Our members have varying degrees of understanding of the subject – from some who have dabbled in it for many years to rank novices who are keen to explore. The common thread that binds everyone together is the enthusiasm to know more and get drunk on some of the finer stuff!

Going forward, while we are all homebound in the pandemic, the plan is to exchange practical information resources to get all members up to speed on the theoretical aspects of wine appreciation.

In the post pandemic world, we intend taking this up another notch with outstation visits to wineries both domestically and offshore. Add to that, guest lectures from prominent oenophiles as well as certified sommeliers to enrich and broaden the winery experience.

The building blocks are in place. There is a lot to look forward to.. And the members can't wait to move this along! If this inspires others to consider dipping their feet into this fascinating space, memberships are still open !

Hey! My name is...

by Geetanjali Khadria

I wish it was something as funky as Slim Shady! Pardon the reference as I grew up in the emerging era of E m i n e m . M y nickname was close, though. I was mostly called Khaddy by one and all during my youthful years in school. Boarding school tradition of surname calling still stands. Usually, the story attached to the

derived name is a funny one. Mine emerged as a consequence of everyone inventing their own pronunciation of the rather unusual surname...

Today an Interactor, tomorrow a Leader

by Mahera Goel

Interact clubs allow Rotary's new generations to be involved in community life and develop skills to become responsible and productive members of society.

Rotary Club of Mumbai SOBO has signed up seven new Interact Clubs in April 2021, setting new records during this pandemic within District 3141.

1. Ascend International School
2. Chatrabhuj Narsee Memorial School
3. Fazlani L'Academie Globale
4. Mt. Litera School International
5. Ram Ratna International School
6. RBK International Academy
7. Wockhardt Global School

We are excited to welcome the Schools into the SOBO family and collaborate on projects that create pathways of youth agency, leadership, and service and build a group of leaders that can put the community ahead of self.

We hope to nurture a generation of future Rotarians who can celebrate accomplishments and inspire others.

TALK OF THE TOWN

by Niharika Malik

Vaishali Kale, a life coach by profession and our Director for Community Service - Medical, has been tireless in her efforts for COVID relief.

She is on the district's 'Fight to Win' task force against COVID. With herculean efforts and banking on her personal goodwill, Vaishali has been liaising with governmental and local authorities for streamlining efforts related to critical care medical equipment to COVID centers.

Ever energetic and brimming with optimism, she has also been working around-the-clock to help Rotarians and their

families across the country access ICU beds, oxygen cylinders and concentrators, medicines, plasma and vaccinations.

Lest you thought that was all our superwoman does, think again. She doesn't hang up her cape just yet. **Vaishali** has

also managed to find the time to help with food distribution to the Police force to the needy on the streets of Dadar and Dharavi.

We are honoured to have this compassionate soul with a big heart in our midst. And yes, not to forget, she is very camera-friendly :)

Naveea is a Superstar and that's no secret!

(Rotarian Amit Parikh's daughter)

by Bhawna Goel

Naveea Parikh, all of 10 years, was watching America's Got Talent with her dad Amit when she found her inspiration, Sofie Dossi, a contortionist.

A contortionist is an entertainer who twists and bends their body into strange and unnatural positions.

Naveea is a ballet star, an all-rounder in sports, a gymnast, and now she has added to her bag of passions - Contortion. She is self-taught just by watching videos of Sofie.

At her school's display of Aerial silk at Mount Litera International School, actor Sushmita Sen could not stop applauding Naveea's performance as the show stopper.

What is incredible is that at such a tender age, Naveea wholeheartedly focuses on her fitness routines, backflips, splits and rolls.

As Oprah Winfrey so aptly said, "Passion is energy. Feel the power that comes from focusing on what excites you." And we couldn't agree more!
