## ROTA VISION Project 2

RCB's RotaVision Project 2 on 1st September, 2022 at Iran Society, 12, Kyd Street, Kolkata - 16 sponsored by Vision RX, supported by Rotary Ballygunge, Rotary District 3291, People's Relief Committee WB & Kolkata Sastha Swankalpa, From our Club President Sanjoy Dey, PP Ashif Shah, Treasurer Aroti Bose were present.

## Joint Regular Meeting

Four clubs of Rotary District 3291 came together for a joint regular meeting on 1st September 2022., Rotary Club of Calcutta Millennium, Rotary Club of Garden Reach, Rotary Club of Calcutta Nabodiganta, joined the regular meeting of Host Club, Rotary Club of Ballygunge, at the Coral Room of Eastern Metropolitan Club, to have a vibrant evening, to share each other's achievements on service projects till now, and have a rocking fellowship. The meeting was enhanced with guest Speaker Dr Rupashree Dasgupta, who spoke on awareness on Ovarian Cancer, and other problems that women may face related to the reproductive organ and how, when and where to be alert and take immediate care.

It was a long time that we had such a wonderful meeting, as all of us passed through the Global pandemic, that restrained people from physical proximity, even a few months back.

Reported by : PP Amitava Chakraborty

## A very good gesture by our club : Guest Speaker Dr. Rupashree Dasgupta

It was a pleasant experience for me to join a meeting of Rotary Ballygunge after a long time. But beyond the feeling of fellowship, it was much more enriching with Dr. Rupashree Dasgupta as a guest speaker. Dr. Dasgupta is a famed medical practitioner who is a gynaecologist obstetrician, and specialises on cancers of the ovary, uterus and the cervix, and is currently practicing at the Apollo Multispecialty Hospital at Kolkata.

She spoke elaborately on the signs that the body gives at the onset of problems, and what to look out for, for prevention and early intervention of problems related to the reproductive organs. Her talk covered topics like menstruation cycles, pause in menstruation, types of ovarian cancer, types of tumours at the uterus, and cervical cancer too. She used graphic representation through power point slide show to make complex understanding easier.

After her talks, she has taken question and answers session and also met with questions on a one to one basis. It was an informative session especially for the men who attended the meeting, as it is more important for the men to become aware of women health issues, as they are usually the deciding force in a family in the social fabric of India.

Dr. Rupashree Dasgupta is due for special thanks as she offered her free services to Rotary Ballygunge organised health camps and awareness programmes, as and when required.
