The curtains have come down on the 'Mother and Child Care' project of Rotary year 2020-21 where 12 pregnant women from Joynagar were supported with medicines, food supplements and consultation from conception to birth of the baby and beyond till the little ones completed 4 months. Every Monday Medical Chair (2020-21), Dr Joyashree Dhar gave them free consultations over phone and every month medicines and food supplements were sent to them. All of this was spon-

sored by Dr Joyashree Dhar and her family.

Those pregnant women who had another child were given Children's Horlicks regularly, sponsored by Chhanda Banerji. Baby blankets were presented to all the babies that arrived in winter by Sudipta Sen. The other babies were gifted towel sets. On Saturday, 11th September 2021 IPP Gayatree Dhar along with Dr Joyashree Dhar, Seema Danda and Sutapa Das travelled to Joynagar to meet the mothers and their bundle of joy. It was a

delight to see the healthy new born babies and their smiling mothers. They were gifted new dresses sponsored by Seema Danda as well as baby lotions. Two mothers who delivered after April were given Mother's Horlicks. Multivitamin tablets were given to mothers whose babies had not yet reached 6 months of age. All were happy. A vocational training programme in tailoring for 24 young girls/women in RCC Kanthalberia that started in the Rotary Year 2020-21 and is continuing twice a week on a regular basis is doing extremely well. Two young women have purchased sewing machines and are stitching masks, children's dresses, petticoats, men's long underwear and pyjamas as per order of customers. Hopefully before the year is over, many more will start earning.

Why is some one who is feeling great 'on cloud nine'?

Types of clouds are numbered according to the altitudes they attain, with nine being the highest cloud. If some one is said to be on cloud nine, that person is floating well above worldly cares.

Some Thoughts on EDUCATION

DR SARVEPALLI RADHAKRISHNAN

who was a brilliant student with an excellent academic record, counted amongst India's best scholars of comparative religion and philosophy, iconic thinker, author and model teacher, nominated several times for Nobel Prize, penned some thoughts on education which is being shared with readers.

Education according to him is acquiring knowledge beyond what is academic and professional. It should neither be bookish learning nor memorising of facts and figures, stuffing the mind with information unrelated to life. Education is the assimilation of values and ideas for character building

and preparing to face life's challenges.

If education does not build wisdom and humanity in the hearts and minds of man, all its professional, scientific and technological triumphs would be meaningless. Education is enlightenment of soul that dispels ignorance and illuminates the individual. Mutual respect between teacher and student will provide collaborative environment in the classroom. Student's ideas should be valued.

He had said "The true teachers are those who help us think for ourselves". "True religion is a revolutionary force: it is an inveterate enemy of oppression, privilege and injustice".
