*Let's Serve Those Today Who Serve Us Everyday*

### Message of Club President Rtn Sunil Kumar Day

This Special Issue is dedicated to the 50 Mammography Camps we held since Chartering of our Club. This Bulletin is recording each camp for future references. We also pay our heartfelt gratitude to all those who helped us at the camps and supported us in holding each camp a successful one.

### A Note by Editor Rtn Vidushi Lal :

Breast cancer is a serious health issue affecting women worldwide, and mammography camps play a critical role in raising awareness and promoting early detection which is what our Club has been successful in doing so 50 times already !

Our club has been providing free mammography services to women who may not have access to regular healthcare facilities. The camps also raise awareness about breast cancer and encourage women to undergo regular screening. By detecting breast cancer at an early stage, we can significantly increase the chances of successful treatment and improve women's overall health outcomes. It is specially commendable that this campaign has benefitted over 100s of ladies-most from unprivileged backgrounds and has covered more than 2900 Kms in awareness.

### A Note by Rtn Niti Day, Chair Mission Mammography

This short note on the completion of 50 Mammography Camps is to emphasize on the relevance of our Mission Mammography.

The Breast Cancer burden is rising at a rate much faster than it was a decade ago. Acknowledging that the Breast Cancer is now one of the foremost cancers in India is very important. It is a public health crises. A robust awareness campaign and effective cancer screening program is of immediate importance. Better preparedness is essential.

WHO, taking due note of the problem has introduced a Global Breast Cancer Initiative to reduce global breast mortality by 2.5% by 2040. At home front, Pradhan Mantri Jan Arogya Yojna, under Ayushman Bharat has been launched in India – it is the largest health assurance scheme in the world. Linking cancer registry data with Ayushman Bharat and other systems could improve follow-up and outcome data.

A Mammography is a low-dose X-ray that allows doctors / radiologists to monitor change in breast tissue. Mammograms are done with a machine that take X-ray with lower doses, than X-ray done for lungs or bones and other parts of body. This way the breasts are exposed to small amounts of radiation. But the benefit of mammography outweigh any possible harm from the Radiation Exposure.

In India, nearly 60% of Breast Cancers cases are diagnosed at Stage III & IV of the disease – due to multiple reasons, including lack of awareness, overlooking minor symptoms, lack of knowledge of self- breast check-up, etc. This has to change our camps are meant for that mainly – Awareness and Early Detection. I look forward to see this campaign of our club continuing as 50 Camps is just a number and not an end of our Mission.

***“When you develop an immense sense of love for something, you will naturally stretch beyond your limits”***

***Sadhguru***

### All India Institute of Medical Sciences (AIIMS), Jhajjar

All India Institute of Medical Sciences (AIIMS), Delhi is an autonomous body under the Ministry of Health and Family Welfare as a premier medical institute in India in the field of medical education, research and patient care. Jhajjar Extension campus of AIIMS New Delhi (AIIMS-II) is thought to be developed as the largest Medical Education center for medical super-specialties in the World. Government has also established National Cancer Institute (NCI) within the campus of AIIMS Jhajjar.

**Research Areas:** Research Areas: Medical Sciences

**Contact Name:** Prof Randeep Guleria, Director, AIIMS, New Delhi

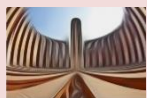

**Contact Address:** All India Institute of Medical Sciences, Jhajjar District, Haryana

**State:** Haryana

**Contact Phone:** 098688 38229

**Email:** director[at]aiims[dot]ac[dot]in

**Institute Rotary Cancer Hospital (DR. B.R.A. Institute Rotary Cancer Hospital)** started functioning in 1983-84 on 35 beds with infrastructure of 2 floors. Recently it has been converted into a 200 bedded, 7<sup>th</sup> floor building. Prime Minister of India Sh. Atal Bihari Vajpayee, inaugurated this centre on October 5, 2003.

Best of radiodiagnostic and radiotherapy machines including state of art linear accelerator, brachytherapy, stereotactic radiotherapy and intensity modulated radiotherapy are available at this centre. Vacuum assisted advanced mammography unit, first of its kind in India, has made stereotactic breast biopsy possible. Prostate cancer can be diagnosed at an early stage with help of tranrectal sextant biopsy. Radio frequency ablation of liver cancer has also been initiated.

**DR. B.R.A. Institute Rotary Cancer Hospital** is one of the few centres in the country to have established hematopoietic stem cell bone marrow transplant programme; more than 250 transplants have been performed. In collaboration with dept. of CTVS, stem cell transplant programme has been extended to treat myocardial ischemia also.

### Delhi Cancer Registry

Cancer Registry is an institution which is responsible for the collection, storage, analysis and interpretation of data on persons with cancer.

The Delhi Cancer Registry is a Population Based Cancer Registry established in January 1986 with the aim of obtaining reliable morbidity and mortality data on cancer occurring among the Delhi Urban residents.

The sources of cancer data are various departments viz. Radiotherapy, Pathology, Hematology, Radiology and Medical records of more than 165 major Government hospital centers, 250 private hospitals and nursing homes and Department of Vital Statistics of New Delhi Municipal Committee and Delhi Municipal Corporation.

***"The first form of happiness is sound health, one should partake nutritious, balanced food to keep the body healthy. So it is essential to maintain the health of the mind and body simultaneously"***
