 ROTARYNAMA

WHY TO JOIN ROTARY ?

Rtn. Mugdha Lele
Past President
Assistant Governor

1988 : Stage I : Skepticism

As a budding software engineer, I developed a software for a local Rotary Club in Mumbai and happened to attend one of the Rotary Conferences. I honestly did not carry a very good impression about Rotary or Rotarians for that matter, and I believed it was quite an “elitist” idea, one for the highly moneyed sections of society. This had no real basis except a superficial impression in 2 days where I was more concerned about the sales pitch for my own software, so on hindsight, it was not a very correct impression.

1990 : Stage II : Maybe I am wrong

My paternal uncle became a District Governor in Pune and while accompanying him, I met a few Rotarians who impressed me. They seemed very down to earth and ran successful businesses . They were very good listeners and solution oriented people, as I observed the proceedings of a discussion on a Rotary project. One of them even offered me a job, and I was impressed by the trust Rotarians placed in each other and their families.. It also helped me realise that as an organisation , it is perhaps more socially oriented than I thought.

2013 : Stage III : Professional Association , and a kind of forced membership!

Years later when I was a corporate trainer, my good friends PPUdayraj Patwardhan and PP Vivek Jaykhedkar requested me to conduct the Rotary Youth Leadership Awards. As I trained over 50 young children on leadership, I met happy and engaged Rotarians who volunteered and supported me throughout the training session. I felt like I made a difference to the youth, and most importantly, it was a deeply satisfying activity. It also enlarged my circle of social contacts immensely as I met a diverse cross section of people from varying strata of society. I found myself getting persuaded to join the club, or rather I would look on it as an almost forced membership, as I could not refuse a good friend! So I thought, “Let me try this out”.

2014 : Stage IV : Dissociated and non involved membership : I paid the fees and went through the recommended process to become a Rotary Club member, but I never really took the pains to attend a meeting and and out what is happening within a club. Bored , I was on the verge of quitting,

WHY TO JOIN ROTARY ?

2015 onwards : Stage V : Engagement with the Club activities & Committed Rotarian : Luckily, my mentors PP Anil Sukenkar and Rtn. Madhavtai Sukenkar along with PP Vivek Jaykhedkar and PP Udayraj Patwardhan metaphorically held my hand and helped me get involved in the club activities that interested me. As I took the pains to get involved, there was no looking back . I realise now, that it was all up to me. People were around to help and facilitate, but my decision to give it a genuine try was what made my journey the most enjoyable . I can happily say that as a Rotarian, I believe I have been able to make a difference in the lives of thousands of people, including youth. Working my way up the various positions to lead the club as President in 2020-21, has been one of my most satisfying and fulfilling journeys so far. I have witnessed small ideas transform in to big life saving and life altering sustainable projects, experienced wonderful fellowships and have forged deep friendships!

Paying my Rotary dues made me a Rotary Club member, however, getting involved in a club activity was the turning point that contributed to me being a committed Rotarian.

I am sure every story is different. However, the key ingredient is the same : getting involved. It is not a function of time (we always make time for what we enjoy) nor money (service given is considered priceless). It is a matter of truly taking the effort and associating with the worldwide organisation and becoming a part of 1.2 million family of members.

As a Past President of the club, I appeal to all members to reach out to the Club President and anyone in the BOD or any friend in the club to know more about our dynamic, vibrant club and its various activities. To all the proposers , I would request that you work closely to see that the new and existing members truly enjoy their membership in every way. Please do not hesitate to volunteer for any role in any activity : Rotary is nothing if not voluntary service.

The theme for RY 22-23, put forth by the first lady RI President Jenifer Jones is “Imagine Rotary”

Let us all join hands and imagine a better world, and come together to make it happen!

Nasik Rotary Charitable Trust

PP Rtn Anil Sukenkar
Past Trustee of NRCT

Rotary club of Nasik was chartered in year 1945. After some years, members felt the need to have a space of its own to conduct meetings etc. It was felt that a trust needs to be created to collect required funds and also take care of day to day looking after the property that was planned to be constructed on the land allotted by Nasik Municipal Corporation.

This paved the way for formation of Nasik Rotary Charitable Trust on 29 June 81. Funds were raised by organising a charity show of the dance troupe of legendary Hema Malini. Some more fund were donated by the club members. This enabled construction of Rotary Hall.

Formation of NRCT helped members in getting requisite IT exemption for the donations made. Being directed donations, these funds are then used by the club for undertaking projects to serve society.

Every year audited accounts are submitted to Charity Commissioner office. Also every year list of trustees is also submitted to Charity Commissioner.

With changing times, NRCT has complied with all the legal requirements to receive funds by companies under their CSR obligation. With this, RCN is garnering more and more funds every year to be utilised for socially required and relevant projects in line with areas of focus of Rotary. In the Rotary year 21-22, we received almost 1 Crores of funds under CSR.

Board of trustees headed by Chief Trustee oversee the functioning of the trust. Current President and Secretary of the RCN are ex officio members of the trust. Besides past presidents only are eligible to become trustees. There are always odd number of trustees like 7,9,11 etc.

NRCT wishes the new BOD of RCN for a great year ahead.
