Mr. Minu Jasdawala's Experience with RCRG :

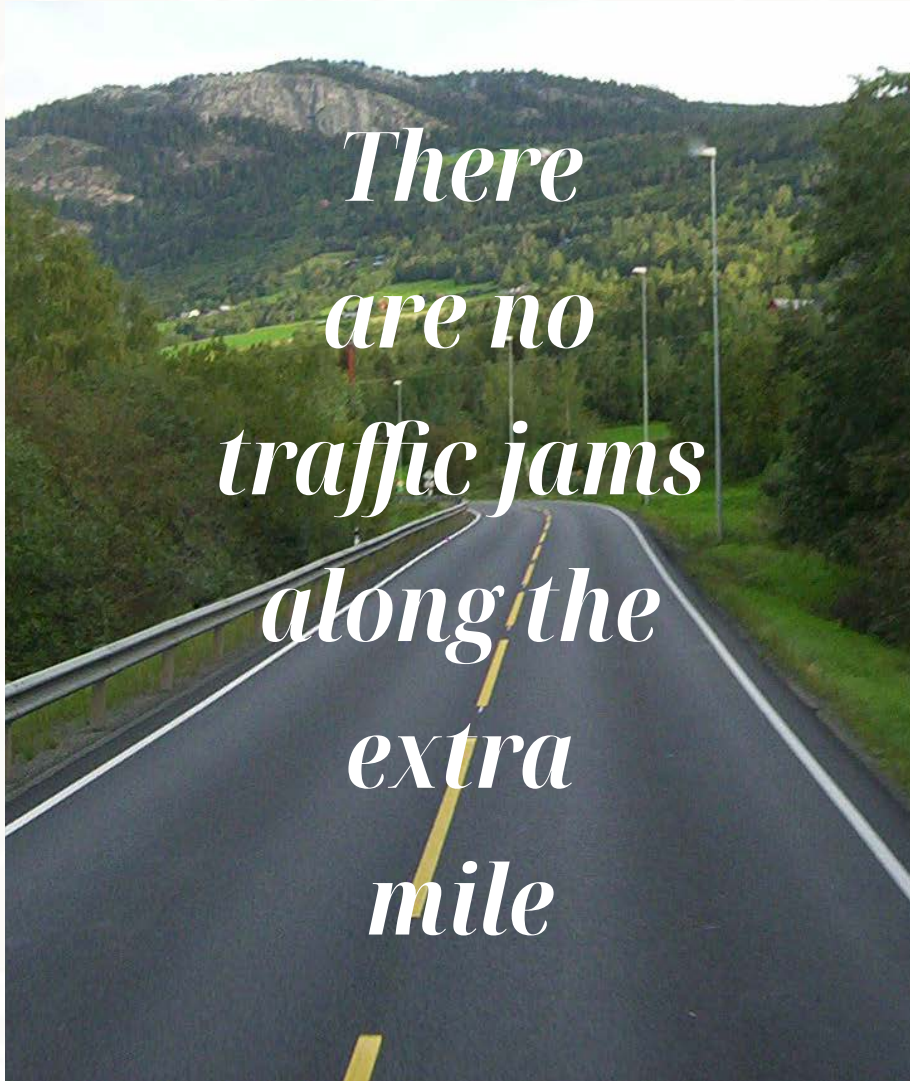

Firstly I am grateful to Ravi Chhotai and Ishita Chhotai for introducing me to RCC. Along with them I have been delighted to work under the galaxy of past Presidents and Secretaries. I have come in close contacts with underprivileged people and known their misery. This could not have been possible with the RCRG funds and the manpower of all RCC members. I wish to continue such deeds for as long as I can. The world needs people with funds and a will to serve those in testing times. RCRG has both types of people.

All RCC projects have a lesson to teach. Team work, planning and service are the focus areas. In RCC we all ensure that young minds are actively involved. They too are made to share their inputs for a cause. In future they can be the leaders to in their professional lives from the experiences they have during RCC projects. I sup-pose more RCC clubs can join hands with mother clubs. This can build a dedicated community of young and spirited minds. They can learn about reality that lie beyond classroom walls and beyond the safety of their houses. May we all work for the happy future.

- Minu Jasdawala
