“Give to change lives”

By Shweta Harigani

Dear friends,
 “Deeds of giving are the very foundations of the World”. We often think of charity as an action but in reality, it's a state of Heart...November being the Foundation month, going back to the Foundation history, At the 1917 convention, outgoing Rotary President Arch Klumph proposed setting up an endowment “for the purpose of doing good in the World.” That one idea, and an initial contribution of \$26.50, set in motion a powerful force that has transformed millions of lives around the globe and continuing to do so with the total outright contributions reaching \$5.4 billion in the year 2020, making the Rotary

Foundation receive a 4-star rating- highest level from Charity Navigator an independent evaluator of charities for the 13th year in a row demonstrating commitment to accountability and transparency. The Rotary foundation transforms your gifts into service projects that change lives both close to home and around the World which has been beautifully depicted in the cover page of this edition. Availability of decent healthcare and prevention of disease is a fundamental need of every human and we as Rotarians play a vital role as ambassadors of providing the same, the magnanimous role of Rotary towards Polio eradication to very recent Covid-19 Pandemic is clearly evident. And this wouldn't have been possible without the existence of the foundation. I clearly equate the foundation to Karma.... what you give comes back to you. So dear friends lets give and Serve to Change Lives...

- Rtn Dr. Vikram Premkumar

Shekhar Mehta
 President 2021-22

Public health is on everyone's mind due to the global pandemic that still threatens the safety of ourselves and our loved ones. In a sense, COVID-19 has made all of us much more aware of the roles and responsibilities of medical professionals than we were before we had to wear masks and maintain social distance. In addition, while moving through this pandemic, we have also learned about the role we can play in keeping others safe.

December is Disease Prevention and Treatment Month in Rotary. The pandemic unfortunately has schooled most people on the toll that disease takes on our communities. But fighting disease is something that Rotarians around the world have been doing for decades. In fact, it is one of Rotary's seven areas of focus.

As Rotarians, we believe that good health and well-being is a human right — even though 400 million people across the globe do not have access to essential health services. The work we do in establishing clinics, eye hospitals, and blood banks, as well as in building infrastructure for medical facilities in underserved communities, all returns to a central belief that access, prevention, and education are the keys to stopping deadly outbreaks that harm the most vulnerable.

My exposure to health work began with my Rotary club, Calcutta-Mahanagar. There, among other things, I helped pioneer a program called Saving Little Hearts

that over the years has provided more than 2,500 free heart surgeries for children from India, Pakistan, Bangladesh, Nepal, and Africa. Before the program went international, it started locally with the goal of performing just six surgeries within our community. Today, our goal is to complete another 20,000 surgeries over the next five years.

The world relies on Rotary to tackle challenges like these and to set an example for others. Over the past decade, medical professionals and government workers have provided free health services to 2.5 million people in 10 countries during Family Health Days, which are organized by Rotarians around the world. Similar health camps in India also provide thousands of surgeries to those in need. Medical missions from India to Africa each year are an excellent example of hands-on service in disease prevention and treatment. Rotary members can also get involved at a local level; clubs in the United States and Mexico, for example, fund a free health clinic in Guerrero, a small town in Mexico.

And of course, our effort to eradicate polio is by far the best story in civil-society health care.

This month, think about how your club can focus on preventing and fighting disease. This is the time to take a bigger, better, bolder approach through both club and district projects that can impact more people. Re-evaluate where you are with your goals. Create strategies that can sustain change over years, not months.

Everyone deserves a long, healthy life. When you Serve to Change Lives, your actions today can help extend the lives of others.

2nd Nov. - ARPAN – Clothes Distribution Drive : ARPAN - True joy of giving, Spreading some Joy and Happiness this DIWALI , RC Bharuch donated clothes to the needy people of Son Talavdi Slum area. The joy seen on their faces was truly priceless.

27th Nov. - Extempore Competition : EXTEPORE COMPETITION was organized by RC Bharuch at RK Habitat, Bharuch. Students between 13-18 years participated in the competition.

Journey of The Rotary Foundation Chair

My Journey as club TRF (The Rotary foundation) chair:

In my view, TRF is amongst the finest initiative of Rotary International along with polio plus.

Members and Donors contributing to the TRF has gone a long way in making a difference into the lives of the needy and under privileged somewhere on the face of earth. I also take pride that The Rotary foundation today is rated highest in terms of transparency and accuracy for executing social welfare in the fields of eradicating Polio, education, sanitation, clean drinking water, literacy, conflict resolution and environment protection.

My trust with the foundation started 12 years ago, when I made my first contribution and later on when I realised the

amount of efforts that goes for making things good for someone needy made me a fan of the foundation.

I still recall at our club level that collecting TRF funds, a decade ago was a difficult task and to convince a member to come forward and become a PHF was also tough. Our club in the past one decade has now moved on to become the 100% PHF club. We also have done multiple Endowment funds, proceeds from which keep coming back to the club year after year and for eternity. Not only just a PHF club, but also a sizeable number of Major Donors have been added to the list and now I can say that our club forms part of the top three contributors to TRF in the entire District 3060.

All this has been made possible with the continued patronage and enhanced zeal of the members of the great club of ours i.e. Rotary club of Bharuch. I am very optimistic that the milestones set by each president for the each passing rotary year in terms of TRF contributions will be surpassed.

- Rtn Manish Poddar

Laughter is the Best Medicine

Laughter is the best medicine the concept of laughter being the best medicine was a theory till I joined rotary. In practical, the said idea was experienced when I joined rotary in the year 2012. It has been a wonderful journey since then, giving a new social order in my professional and personal life. The events organized during all these years have brought me out of the cocooned environment and has been an opportune moment to intermingle with the ever vibrant society around me and fortified the

concept of laughter being the best medicine. The gatherings with all my fellow Rotarian friends on various meetings and events, having that delightful chat bypassing the hustle bustle around always brings smile on my face. More particularly the sports events, Garba and treasure events held recently have made me feel exhilarating and the smile of all these years have culminated into laughter and that has not only served as medicine but a natural antibiotic curing the gloominess of recent times caused by the corona virus. Long live the rotary and all rotarians.

- Rtn Ronak Shah

RI President Shekhar Mehta urges countries at COP26 to protect mangroves

- By *Ryan Hyland*

RI NEWS

Rotary International President Shekhar Mehta joined the Rotary delegation to the 26th United Nations climate conference in Glasgow, Scotland, on 10 November to explore ways Rotary can work on environmental challenges, including by restoring mangroves, a crucial ecosystem that can mitigate the effects of climate change in coastal areas.

The climate summit, also known as COP26 (short for Conference of the Parties), brought together nearly 100 heads of state and governments over a two-week period to set new targets for fossil fuel emissions. This was Rotary's first time at the annual conference.

Mehta co-led a roundtable discussion with Patricia Scotland, secretary-general of the Commonwealth, that focused on the critical role mangroves play in mitigating and adapting to climate change. Mangroves sequester large amounts of carbon and also protect against storm surges and coastal erosion, filter pollutants, and provide habitat for aquatic life, among other benefits.

Of the 54 Commonwealth countries, 33 contain mangrove ecosystems that together represent 22% of the world's mangroves. Over the last half century, 50% of the world's mangrove systems have been lost due to climate change and rapid urbanization.

"The sea is washing away coastlines because mangroves have gone," said Mehta. "We are losing our ecosystem. Once mangroves die, our marine system and coastal communities will be lost."

Climate and environmental representatives and experts from more than 20 countries attended the round table and pledged to act alongside Rotary to help save and restore mangroves.

The members of Rotary's delegation to COP26 were Judith Diment, dean of the Rotary Representative Network, which comprises 32 unofficial ambassadors to the UN and other international organizations; Doug Wills, Rotary representative to the Commonwealth; Karen Kendrick-Hands, who attended on behalf of the Environmental Sustainability Rotary Action Group; and John MacPherson and Tariq Durrani, who helped organize a competition for schoolchildren in the UK to create posters for display at the conference.

Over the past five years, The Rotary Foundation has committed more than \$18 million toward projects that support sustainable, community-based environmental projects. On 1 July, the Foundation began accepting applications for global grants that support the environment, which was added as an area of focus in 2020. Potential projects include using renewable energy to combat environmental degradation, growing food sustainably, and protecting water sources.

Rotary International President Shekhar Mehta (middle, front row) co-led a roundtable discussion on the importance of restoring and saving mangroves at the 2021 United Nations climate conference on 10 November in Glasgow, Scotland. Representatives from more than 20 countries attended the meeting.

SHRADDHANJALI

We pay our sincere & heartfelt respects to past **RI Director Sushil Gupta** who left for heavenly aboard on

A man known for his humble nature and magnanimous heart will be deeply missed.

The Rotary world has truly lost a tall leader.

Very sad news, **PDG Chandrkant Desai** popularly known as "**Kikubhai**" was a veteran Rotarian, very intelligent and always some better idea would come from his mind, it will be a big loss to the Dist. He was my District Trainer and always a troubleshooter for me.

On behalf of "Brochure" We pray Almighty for eternal peace to the noble soul n give strength to Nilaben, Dharmin, Devang in Desai family to bear the loss.

Proud Moment

We proudly announce that **CDG Rtn Dr Ashok Kapadia**, was awarded with **LLIFE TIME ACHIEVEMENT AWARD** in PURASHKAR, Award ceremony of IPDG Prashant Jani.

RC BHARUCH proudly participated in Rotary India's Defeat Diabetes Campaign under ONE NATION, ONE DAY, ONE MILLION test. It was a huge campaign in which over 2000+ clubs participated with an aim to screen 1 million people in 1 single day. We at *RC BHARUCH* geared up and undertook random Blood glucose testing on WORLD HEART DAY, and was certified for being one of contributing member to set record in ASIA BOOK OF RECORDS, for participation of maximum people in Diabetes screening camp held at multiple centres.

Many congratulations to Dr. Kirtirajsinh Gohil on receiving the prestigious IMA Dr. Ketan Desai Yuva Leader Award by the National President IMA at Delhi.

Congratulations Rtn Ketan Desai, for running 21.9 kms in 2.5 Hrs in "Run for Soldier" Marathon organized by Adani Shantigram.

Congratulations Rtn Gautam Patel, for running 21.9 kms in 2.5 Hrs in "Run for Soldier" Marathon organized by Adani Shantigram.

Diya Ketan Desai, daughter of Proud Parent of Rtn Ketan Desai, runners up position in all India Tennis association tournament, in under 16 category.

Women in Rotary

Hello Friends,
Warm Rotary Greetings!!

I am Rtn Bijal Toprani, inducted as new member of Rotary Club of Bharuch in the year 2020-21.

It is my great honour and privilege to belong to a family of rotarians. I take immense pride in being a third generation Rotarian.

I thank IPP Talkinbhai Zamindar for giving me this opportunity and considering me worthy of service in this prestigious organisation.

Rotary to me means, community service- reaching out to the less privileged and supporting them in a small way. Rotary is the best way to serve the community- It is the joy of giving.

My personal experience of Rotary is , to do community service, enjoy friendship and fellowship and interact with like minded individuals, who are dedicated to Rotary's motto of "Service Above Self" .

Ever since I have been inducted, I have actively participated in projects of health and nutrition and education and literacy.

Other projects I would love to be part of are maternal and child care, Youth Development Programs, water and Sanitation.

As rightly said "Rotary Opens Opportunities " for someone to make a real difference in so many different ways. This is what makes Rotary so special !!

I look forward to service in the world's oldest, largest and finest service organisation.

Yours in Rotary,

- Rtn Bijal Toprani
