PRESIDENT'S DIARY

When I took up the Presidency of the club in July, I had a dream of setting up a Physiotherapy Unit for the underprivileged. Over the past few months, I spoke to many members and like-minded persons to bring this idea to fruition, and I am indeed so Happy that the Physiotherapy Unit at Deepak Foundation Hospital, Nandesari, has been finally set up wherein, I firmly believe that the purpose of helping the needy will be served.

Being in an Industrial area, manual work-related injuries are bound to be more frequent. The Physiotherapy unit will help the daily wage earners and others to resume work earlier, reducing their absentee time. It will also be helpful in post operative care. There is no physiotherapy unit within 10 km radius of the hospital, which makes this unit a real need of the hour here.

We Thank the Past President of our club Rtn. Pinakin Shah for his involvement and guidance for this project.

We take great pleasure that the DG Santosh Pradhan inaugurated the physiotherapy centre

EDITORS DESK

Dear Rotarians,

Festive Chill sets in with lots of fun kicking off with Christmas, and moving towards the end of another challenging year. And as we gather to celebrate; attending weddings, anniversaries, birthdays and what-nots, let us not let the guard down. We respect the words of the last two years- Sanitizer and Mask. And we take utmost care, this shall also pass. And as we celebrate, we don't forget to thank all the wonderful and kind frontline workers at the medical side and also the civic side. We pray for their wellbeing.

Welcoming the new year

with a fresh mind, gentle heart, elevated spirit infused with tenacity and courage, minimizing weaknesses, maximizing strengths and striving for the best;

Let us turn pain into power, limitations into leadership, scared to sacred and finally defeat to victory..may we all be safe and healthy.... And may we all spread positivity.

ANNET'S ACHIEVEMENTS - Annet Parth Jayesh Shah

I am Parth Shah, son of Rtn. Dr. Jayesh Shah.

I was born and raised in Baroda and did most of my schooling there at Bharatiya Vidya Bhavan's. I moved to Canada in 11th standard to finish the rest of my schooling. I went on to graduate with honors from Bachelor of Sciences program at McMaster University in Hamilton, Canada.

Thereafter, I went to St. George's University in Grenada (West Indies) to complete my MD and ended up in the USA where I currently work as a doctor (hospitalist) in Tulsa, Oklahoma.

My journey this far has taken me to various places around the world and has been filled with exposure to various cultures, and interactions with people from various walks of life. This has helped me grow as an individual and gain a deeper understanding of other people's perspectives.

My interests and hobbies include playing various sports, eating/cooking and hiking. Some of my achievements include winning many tournaments for different sports (cricket, soccer, badminton, table tennis to name a few) and running a half marathon in under 2 hours.

In the end, I would like to say that all these achievements mean nothing and that the ultimate purpose of life is to be happy and do what you want- whatever that means to you!
