Rtn. Vittal Kudva

Born: 05.05.1967 Death: 13.09.2021

We regret to inform the sudden demise of our beloved member **Rtn. Vittal Kudva** yesterday. He was an active member of our club having served as past Treasurer, Director and Secretary. He is the President Elect of the club for the year 2021-2022. It is a great loss to our club and it will be very difficult for the club to fill the void created by his absence. He was an excellent gentleman soft spoken and extremely helpful person. He was associated with various social organisations and doing social work relentlessly. He was a true Rotarian following the principle of "Services above self". He is survived by his wife Mrs. Vidya Kudva, son Ananth and daughter Adithi.

We the member of Rotary Club Mangalore North family pray for Sadgathi to Late Rtn. Vittal Kudva. Om Shanthi.

RI President's Message - September 2021

I am sure you are having an enriching experience as you Serve to Change Lives. One of the ways you can make the greatest change in a person's life is to help them learn to read. Literacy opens up the world to us. It makes us better informed about life in our own communities and opens vistas to other cultures. Reading and writing connects people and gives us another way to express our love for one another.

September is Basic Education and Literacy Month in Rotary. Enhancing literacy skills is critical in our pursuit of reducing poverty, improving health, and promoting peace. In fact, if all students in low-income countries left school with basic reading skills, it would result in a significant cut in global poverty rates.

Without education, illiterate children become illiterate adults. Today, 14 percent of the world's adult population-762 million people-lack basic reading and writing skills. Two-thirds of that group are women. Literacy and numeracy skills are essential to obtaining better housing, health care, and jobs over a lifetime.

Especially for girls and women, literacy can be a life-or-death issue. If all girls completed their primary education, there would be far fewer maternal deaths. And a child is more likely to survive past age 5 if he or she is born to a mother who can read. Improving outcomes for more people worldwide is possible only if countries remove barriers to education for girls. The economic argument for doing so is clear: In some countries where schooling is geared toward boys, the cost of missed economic opportunity is more than \$1 billion per year.

Empowering people through education is among the boldest goals we have as Rotarians. We don't have to travel far from our homes to encounter those whose lives are being curtailed because they struggle with reading, rely on others to read for them, or cannot write anything more than their own name.

Starting this month, consider how your club can Serve to Change Lives through literacy: Support local organizations that offer free programs to support adult literacy or local language learning, or that provide teachers with professional development centered around reading and writing. Become literacy mentors, or work with an organization like the Global Partnership for Education to increase learning opportunities for children around the world. Have conversations with local schools and libraries to see how your club can support their existing programs or help create needed ones in your community. In India, the TEACH program, a successful collaboration between the country's Rotary clubs and its government, has demonstrated how to scale up literacy efforts to reach millions of children. And at a time when schools across India were closed due to the COVID-19 pandemic, the program's e-learning component reached more than 100 million children through national television.

Literacy is the first step out of poverty. As Nobel laureate Malala Yousafzai has noted, ***"One child, one teacher, one book, and one pen can change the world."***

Brief report of the meeting held on 07.09.2021. RCMN prestigious Nation Builder

Award was conferred on Dr. Aloysius Sequiera Senior Professor School of Management, NITK by Dr. Devraj Retd. Principal SDM College of Management Mangalore.

Speaking on the occasion Prof. Sequiera said that he is dedicating this award to all his teachers starting from Primary School to PhD level Professors. He said that he has been moulded like this because of their efforts and inspirations. Nation building is a very big task and it should start from very early level and added that Nation Building is a multi dimensional task and should become a great Peoples' Movement. Even very developed countries sometimes fail to develop their younger generations because of low quality of education. Good quality education contribute to a Vibrant Nation. Therefore the contributions of Teachers at the Primary and High School levels is very important towards Nation Building and they should be recognised and awarded he said. The growth and development of a country is directly proportional to the Education available to their children. As India has 50% of its population in the younger age group moulding them into responsible citizens is very important to our country, he said. Corona pandemic has taken a toll on Teacher - Student relationship. Physical classes has given way to Virtual Classes. One good thing is that Technology development has helped to adjust new circumstances through

Digitalisation of Education system. He further called upon younger people to become entrepreneurs and become job givers than job seekers.

Professor Dr. K. Devaraj also awarded Vocational Awards to the following

teachers on the occasion of the Teachers' Day. Smt. Joy Jeevan Rai Principal SDM CBSE School Ashoknagar, Smt. Chandrika K. Head Mistress Besant Kannada Medium Primary School, Smt. Vanitha Suresh Teacher B. E. M. School, and Mr. Dawn Prakash Asst. Professor SDM Post Graduate Centre for Research Management. Speaking on behalf of awardees Mrs. Joy Jeevan Rai said that in teaching job every year of service is unique as new students come, therefore it also become very much challenging. But as the primary duty is to make every student happy the end result is highly satisfactory. She advised that everyone should always tell truth and help each other as pa possible. Dr. Devraj congratulated RCMN for giving such awards which encourage others also to excell in their profession and said he is honored by honoring such excellent teachers. He said that past US President late Roosevelt had said that "if you can not build future for youth, atleast build youth for future". He said that earlier MBA graduates were entering corporate world. Now they are interested in becoming teachers. It is the primary school teachers who build good attributes and attitudes in small children through correct process and peocedures so that they become responsible citizens later. The idea that if you give something to society it will always come back to you is true for happiness also and said that Rotary is doing great service to society.

SEPTEMBER IS BASIC EDUCATION AND LITERACY MONTH

Rotary supports activities and training to improve education for all children and literacy for children and adults.

The Rotary Foundation enables Rotarians to ensure that all people have sustainable access to basic education and literacy by:

- Involving the community to support programs that strengthen the capacity of communities to provide basic education and literacy to all;
- Increasing adult literacy in communities;
- Working to reduce gender disparity in education;
- Supporting studies for career-minded professionals related to basic education and literacy.
