Governor's Monthly Letter

**ROTARY ORGANISES MEGA HEALTH CAMP IN ASSOCIATION
WITH SUPREME COURT BAR ASSOCIATION**

**"Health is the greatest gift, contentment the
greatest wealth, faithfulness the best
relationship."**

MESSAGE

Rtn. JENNIFER JONES

President 2022-23
Rotary International

In August, I was proud to visit Pakistan and highlight Rotary's top goal, eradicating polio. It was also a tremendous opportunity to spotlight female health workers who are playing a critical role in protecting children from this vaccine-preventable disease.

This month, as we celebrate World Polio Day, we are shining a spotlight on our more than 30-year effort to lead the first global polio eradication campaign and our success in forming partnerships capable of completing this massive goal. We all know that this is one of the most ambitious global health initiatives in history and that we've reduced polio cases by more than 99.9 percent worldwide.

Pakistan is one of only two countries in the world where wild poliovirus remains endemic. (The other is neighboring Afghanistan.) I was able to witness and take part in vaccination campaigns in Pakistan, and soon after I left, a monumental nationwide immunization campaign took place, focused on 43 million children under the age of 5. I saw the incredible work of Rotary members on the ground. More than 60 percent of vaccinators in Pakistan are women, and they are doing a remarkable job building trust and convincing mothers to vaccinate their children.

Seeing it all firsthand, I know that the will exists across the Rotary world to end polio, and I'm confident that we have the strategy. The Pakistani media has been very supportive of our efforts as well, and this is making a difference. This month, a new global pledging moment at the World Health Summit in Berlin promises to pull together more resources to fund these time-sensitive eradication efforts. Now it is up to us to do our part and raise \$50 million this year to earn the full 2-to-1 match from the Bill & Melinda Gates Foundation.

There's great cause for optimism on the polio front — but also some staggering new events that have further raised the stakes. Over the past few months, new polio outbreaks have occurred in Israel, the United Kingdom and, most recently, in the New York City area. These stories are frightening, but in every case, the response is clear — vaccines work, and if polio is spreading, we need to make sure the most at-risk people have kept their vaccinations up to date.

Most importantly, we need to eradicate this virus now. If polio exists anywhere, it can spread everywhere. What I saw in Pakistan convinced me that we can and must finish the job, but it will only happen if we remain committed to a strategy that's working and back it with all necessary resources.

Through our commitment, generosity, and sheer determination, we will #EndPolio.

MESSAGE

Rtn. ASHOK KANTOOR

District Governor 2022-23

RI District 3011

Dear Presidents and Team,

What a month this has been !! So vibrant and full of meaningful activity that reiterates our commitment to do good in the world. Our District Interact Leadership Assembly set the ball rolling and it was definitely a huge success judging by the shower of positive comments and messages we received post the very vibrant event. We had motivational Speakers from all walks of life and the greatest minds to inspire our students to achieve the highest pinnacles of leadership and success. It is important to inculcate ambition, desire to do good and a passion for achievement in young minds ; to encourage them to use their imagination and create limitless possibilities. Our aim was to foster this feeling in our very charged and dynamic young students who will shape the future and give us a better tomorrow. We hope that DILA or DISHA as it was appropriately named has shown the way to our young and innovative leaders.

Both Alka and I feel rejuvenated because we spent our time in the midst of school students and that too at a very energetic sport event. The District organised an Inter School Volleyball Tournament for the young students of 16 schools. Andre Agassi once very rightly said "What makes something special is not just what you have to gain but what you feel there is to lose". Sport of any kind prepares you for the world, motivates you to work hard, to never give up, to be competitive and still be able to work as a productive team member. The tournament was conducted seamlessly and was one of the first we have held at the District Level. We hope to see it growing bigger with more participation over each passing year.

As Rotarians we give a lot of importance to Disease Prevention and Treatment and in our endeavour to support this area of service we have set ourselves goals and a mission to protect and save people from diseases like Leprosy and to eradicate TB in the same way as we ended Polio in our country. India is the Leprosy Capital of the world and accounts for 63% of the cases world wide. A joint review meeting was held at PHD House LEPRO UK and Rotary to control this dreaded disease. Likewise, the District also supports the Honourable Prime Minister Shri Narendra Modi's initiative 'NI-KSHAY MITRA' to adopt TB patients and to look after their medication and nutrition which is an important part in the process of curing the disease.

Many of us have been victims of Cyber Crime directly or indirectly and it often leads to financial ruin and even reputation loss. I myself was a victim three times in recent months and my social account was hacked. A scary situation indeed because it results in loss of intellectual property and very important and sensitive data. We organised a special talk on the subject to protect us from Cyber Crime and the serious impact it has on our personal and professional lives.

It was indeed an action orientated month and the weather made it possible for all of us to be even more productive and enjoy every moment of the planned activities. A lot of hard work goes into organising these events and I would like to thank everyone who has made a significant contribution to the planning and implementation of all the events in November.

We look forward to more meaningful work and more constructive projects in December and the months to follow.

With Best Wishes

Yours Sincerely

Rtn Ashok Kantoor

District Governor R.I. District 3011

From the First Lady....

Dear Presidents and Partners,

As the months go by I feel more energised and more enthusiastic because of the inspirational projects undertaken by clubs and through the vibrant events that are organised by the District Team. There is a lot of learning that one imbibes from these projects and my knowledge of Rotary and the incredible passion with which Rotarians undertake and implement any event increases my respect many times over for the organisation.

While DILA was a motivating event and I was happy to interact with young students to gain insight into their ambitions and their achievements it was the Volleyball match in which I had a lot of fun. Sport events are always so full of positive energy and the atmosphere is charged with excitement and vitality which is so important for the growth and development of the human mind. It is the teamwork and the ability and will to achieve that will shape the young minds and make the responsible leaders in the future. It was wonderful to hear the students root for their own teams and to support them with their stimulating cheering. The event definitely revived my memories and jogged through the days when I was a young student. I felt youthful and raring to go on all fronts; that is the sort of profound impact that students in school and in college have on your health and wellbeing.

The weather is getting better and there will be many more activities in the future months which are fun-filled and full of fellowship and will lead to more bonding and teamwork so that we are able to achieve our goals and targets together.

I would also like to reach out to Partners today and request them to be actively involved in the club projects and District events. We get one year in which we can also recognise our own abilities and organise creative events for Partners. It is the time to allow your inherent skills to come to the fore and to make a useful contribution to the club's goals and targets. So feel free to reach out to me should you need any advice on how to make Rotary an enjoyable experience for you at a Rotarian Partner.

With warm wishes
Yours Sincerely

Alka Kantoor

First Lady R.I. District 3011

DISTRICT EVENT — DILA 2022 ---

"DISHA" -- A Path towards Better Tomorrow.

DILA or District Interact Leadership Assembly, aptly christened "DISHA" -- A Path towards Better Tomorrow, was held on Friday 11th November, 2022 at Apeejay School, Sheikh Sarai, New Delhi with participation of over 700 Interactors from 70 Interact Club Schools.

DG Rtn Ashok Kantoor called the DILA meeting, "DISHA" to order after going round the Exhibition of projects done by various Interact Clubs of different schools. The event started with an Invocation song -- Ganesh Vandana by Interactors of M L Khanna DAV School.

MoC Rtn Sarika Yadav, DILA Chair extended a very warm and cordial welcome to all present. Rtn Prateek Jain, District Chair, New Generations in his opening remarks said we are celebrating 60 years of Interact this year. Rotary is made of people. Interact is International Action. Interact is leadership in action. He said a leader never waits for action -- he creates an opportunity to take action. Mahatma Gandhi was a man of action. He organised a movement and people followed him to make it a mass movement. As Interactors never wait and fail to take an action --- just do it.

DG Rtn Ashok Kantoor honoured and felicitated Mr M Nayar from Apeejay School Management and Mr. Singh, School Principal as also Chief Guest Swami Peepal Baba and Guest of Honour Dr D K Pandey. Rtn Rakesh Kumar, District Advisor Interact introduced the District Interact Council 2022-23 with DIR Intr Mansha Rapria, ADIRs Intr Kavya Behl, Intr Manya and Vidhi Bhartia and all the other ZIRs.

Intr Mansha Rapria, DIR, addressing the gathering welcomed everyone present and assured that Interactors would strive hard to serve the society selflessly to the best of their capabilities. She said they have already done numerous service projects during the past four months since 1st July which have been showcased in the Exhibition just witnessed by the DG and other Distinguished guests. Rtn Arun Gupta, President of DILA organising club, Rotary Club of Delhi South East welcomed everyone present and especially the Chief Guest and other eminent dignitaries and thanked the Apeejay School Management for providing the facility for organising DILA at their school and assured the Interactors a very fruitful and informative programme at DISHA.

DG Rtn Ashok Kantoor congratulated all the Interactors for all the excellent good projects that they have been doing and for what was displayed and showcased in the Exhibition. He encouraged the students to believe in themselves. He said that they are the future leaders and they have to show the way and walk that way. They must be courageous and be a good listener to take decisions. He said they could be leaders in their class, at school, in their local area and in the outside world. One of the main attributes is to be

able to communicate thoughts to the people and have confidence in their own abilities. Interactors must plan and lead by example and be patient listeners. Position of leadership is a position of responsibility and to bring about changes they must look at a change within themselves. Every Interactor of each club must become a strong leader because the final goal is make every Interactor a leader.

SWAMI PEEPAL BABA, Chief Guest of the morning talking on 'Better Environment for Better Tomorrow', said, he has been associated with Rotary since 1984 for almost 4 decades. He asked everyone to contact him for any problems on environmental issues. His NGO has converted 56 acres of barren land into green forests by planting trees. He said he received encouragement to plant trees from his teacher and grandmother. He and like-minded students formed an Eco Club in their school. They were encouraged to plant trees to improve the environment. They went out and learnt from Farmers, from Gardeners and other people about tree plantation and how to nurture them to grow into a fully grown tree. A tree pulls water towards itself and conserves it. Today, glaciers are melting and rivers are likely to dry after a few decades. Young students should focus on positivity and avoid negativity and do as much good to the environment as they possibly can. The leadership should be for community service projects for the welfare of humanity.

There were three performances by students of Apeejay Global School, Indraprastha International School and Adarsh Public School.

After the performances of three schools a Panel discussion moderated by Rtn Prateek Jain was held with eminent Faculty members comprising of Ms Sayali Bhagat, Former Miss India & Actor, Dr. D K Pandey, Educationist, DG Rtn Ashok Kantoor and Intr. Hiya Jain.

Ms Sayali Bhagat said Interactors should be confident and have self belief and stay away from comparisons. Today technology takes lots of our time because of social media and social interaction. She asked students to stay away from these distractions and focus on good things. DG Ashok Kantoor said once students start imagining, their thought process goes towards dreaming and thinking about a better tomorrow and that's when we come with many innovative ideas. We need to imagine ideas that will be beneficial for a better tomorrow.

Dr D K Pandey said the New Education Policy 2020 is already focusing on a better tomorrow with emphasis on different skills to make the younger generation employable and self entrepreneurs when they grow up and come out of schools. Everyone needs to imagine if future has to prosper and to be better human beings as part of the

future generation. He asked everyone to focus on skills building as is envisaged in the new NEP 2020 under 5+3+3+4 curriculum. Learning by doing, learning to know, learning to do and learning to be better human beings are the main focus points of the New Education Policy. Intr. Hiya Jain said Interact opened future for her and motivated her to grow as an individual with confidence and learn about various opportunities that Interact provides for leadership qualities.

The Panel discussion was followed by performances from Satyawati Sood Arya Girls Sr. Sec. School and Soami Nagar Model School.

DG Ashok Kantoor launched "MAIN BHI JAL RAKSH HOON" scheme and said Rotary are propagating use of Aerators for saving water. By using Aerators water consumption can be saved upto 50%. He asked everyone to take a pledge to conserve and save water and say -- "Main Bhi Jal Rakshak".

DGE Rtn Jeetender Gupta talking about Role of Youth in Rotary Leadership said every student must plan as big as possible. Rotary has been akin to a net working NGO for past 117 years and there is a need to infuse the energy of the youth in it. He said the actions of the Interactors must inspire others and that will make them true leaders of a better tomorrow. DGN Rtn Mahesh Trikhia talking on inspiring Interactors to become Rotaractors said that every Interactor is a part of the organisation to become a better student in their class and to be a unique student who can improve the world and lead the world the way they want to dream and

imagine. He said the next platform for Interactors in Rotary is Rotaract. He asked everyone to keep on doing good work and try to become Rotaractors after they reach 18 years of age.

ADIR Intr Kavya Behl narrating impressions of "DISHA" said this District Interact Leadership Assembly was very successful and fruitful. The Interactors had an enjoyable and enlightening Panel discussion. Awards for Exhibition display of Best projects and Best performances were given to winners.

In his concluding remarks DG Rtn Ashok Kantoor thanked Appeejay School Management Mr Nayar and School Principal Dr Singh for providing all facilities for holding DILA meeting on their school premises and honoured Mr Nayar with a Shawl as a token of our gratitude.

Rtn Yuvnashav Sood, District Interact Chair proposed vote of thanks and expressed gratitude to everyone for their presence and thanked all the Interactors and their teachers for their presence, for their participation and for coming to DILA.

DG Rtn Ashok Kantoor thanked President Rtn Arun Gupta of RCD South East for organising DILA and in turn Rtn Arun Gupta thanked DG Rtn Ashok Kantoor for giving RCD South East the opportunity to organise DILA. MoC and DILA Chair Rtn Sarika Yadav was also thanked by DG and the meeting was adjourned

DISTRICT EVENT DISTRICT INTERSCHOOL VOLLEYBALL CHAMPIONSHIP

Rotarians recognise that studies are important for a better future of students but so are the sport of all kind. Young students develop skills like teamwork, leadership, patience, discipline, perseverance, learning from failure, Sportsmanship, etc. through Sport activity. Sport prepares students to deal with all kinds of emotional issues and strengthen their endurance. Sport also prepares them to face failures in life and be humble when they achieve greatness or victory. The most important thing they learn is to work as a team and this in turn enhances their social and interpersonal skills.

Rotary Club of Delhi Manthan recognised the importance of playing a sport and of keeping students focused in an area which is good for their physical and mental wellbeing from the time the club was chartered and they have been running the Interschool Volleyball Tournament every year. This year the Tournament caught the attention of the RI District 3011 and DG Rtn Ashok Kantoor encouraged the club to take the tournament to a step higher as the "District 3011 Interschool Volleyball Championship". The response was tremendous and 16 school teams participated in this tournament. As in the past, Soami Nagar Model School Principal, Arti Prasad, was extremely helpful and provided the school grounds for holding the tournament. A senior team of coaches and referees from Delhi Volleyball Association provided their technical and operational support and all the matches were held under their supervision.

In addition to support in planning, organising the tournament from DG Rtn Ashok Kantoor and District Sports Committee Rtn Ranjan

Chopra, Assistant Governor's Rtn Bipin Garg (Zone-2) and Rtn Narinder Kumar Lamba (Zone-6) with their 5 Clubs, Rotary Club of Delhi Manthan as lead organiser, and Rotary Club of Delhi, Rotary Club of Delhi South East, Rotary Club of Delhi Rajdhani and two young Clubs --- Rotary Club of Delhi Central Next and Rotary Club of Delhi Wontouch, joined as sponsors for this mega Interschool Volleyball Championship Tournament.

The Tournament was inaugurated on 16th November 2022 under the leadership of DG Rtn Ashok Kantoor and first Lady Alka Kantoor, President Rtn Arun Bhutani and several Rotarians from Rotary Club of Delhi Manthan.

The winners in Boys category were Team from Meera Model School and runners up from Masonic Public School, Vasant Kunj. In the Girls category the winners were team from Meera Model School and runners up from Soami Nagar Model School.

The closing ceremony was held on 17th November 2022 which was presided over by First Lady Alka Kantoor who motivated the teams and presented trophies to the Winners and Runners-Up. All coaches and referee from Delhi State Volleyball Association were well recognised along with Principal of Soami Nagar Model School and the sponsoring Rotary Clubs. The vibrant tournament finally ended on a positive note and with the commitment to continue to hold this event year after year at much greater levels to empower students with development of their skills and to lead a happy life.

DISTRICT EVENT LEPROSY CONTROL PROJECT

The Joint Review Meeting with LEPRO, UK on LEPROSY CONTROL PROJECT was held on Monday 14th November, 2022 at PHD House, New Delhi.

Rtn Pradeep Bahri, MOC extended a very warm welcome to all present. He also acknowledged the esteemed presence of DG Rtn Rajiv Singhal from R I District 3100 who had especially come from Meerut to attend the Meet. The Presidents of 4 Host Clubs -- RCD South, RC New Delhi, RCD South End and RCD Regency Next had jointly organised the event.

MOC Pradeep Bahri in his Opening Remarks said that till very recently it was believed that leprosy was a disease of the past. Its continued prevalence, spread and the suffering it caused was not known. The truth is, India today is the world's capital for Leprosy. Leprosy is curable but people are not aware about it. On 21st October 2019, an MOU was signed between Lepra UK and Rotary Clubs of Delhi South, New Delhi & Delhi Southend, at the same venue to make Leprosy a disease of no consequence in India. Later, RCD Regency Next also joined in this journey for Leprosy Control.

PDG Rtn Deepak Kapur who heads India's Rotary Leprosy Control Project informed that out of 1,40,000 Leprosy Cases worldwide, 93,000 cases or roughly about 63% of the cases are in India. Free treatment is available for Leprosy in India but people are not aware of it. Multi Drug Therapy (MDT) is also there for free but lot of us are ignorant about it. We have to create awareness in society. We have already sensitised more than 10,000 people. 56 Physiotherapy & Awareness Camps have already been conducted in 30 Leprosy Colonies in Delhi NCR. Workshops have also been conducted to train Medical Professionals so that they can detect leprosy in people. Special Shoes have been developed and distributed free to Leprosy Patients. Besides, 100 Tricycles, many Walking Aids, Self-aid Kits, and Solar Electricity have been provided in Leprosy Colonies. We are planning to start shortly a Lepra OPD Department in a Hospital in Delhi, exclusively for Leprosy patients. They even intend Skilling leprosy cured personnel to make Bandages for use in dressings to help them make a decent living.

Mr Jimmy Innes from Lepra, UK said that in 2019, there were 1,40,000 Leprosy Cases worldwide and 93,000 cases were in India. They, from Lepra are providing all help, assistance and guidance to close this gap. By 2030, they expect to ensure a Leprosy Transmission Free World. The Leprosy Control Project has to be coordinated accordingly to achieve this goal. There is no vaccine to cure Leprosy, as such stress should be on how to Control the spread of Leprosy. Lot of research is going on towards Leprosy treatment. Lepra, UK is too proud of its association and partnership with Rotary towards Leprosy Control and making India and World Leprosy Free following the example of Rotary's Global Polio Eradication Efforts.

Rtn Nayan Patel, a Trustee of Lepra, and Special Representative of Rotary and Rotary Foundation for Polio and Leprosy said, 'it was 3 years ago when an MoU was signed in this very room between Rotary and LEPRO, UK to plan for making India Leprosy free. Hype on this partnership can be translated into responsibilities to solve complex global challenges in controlling spread of Leprosy. Polio Eradication is a very fine example of partnerships of Rotary with UNICEF, CDC, Bill & Melinda Gates Foundation and various governments from different countries of the world. India was declared Polio free 8 years ago in 2014. Together We Will and We Can beat Leprosy'.

DG Rtn Rajiv Singhal from Meerut, R I District 3100 expressed his happiness on being a part of the event. He said that he would discuss with DG Ashok Kantoor and PDG Deepak Kapur and also Clubs in his District as to how they can associate in this programme of Leprosy Control.

President Lalit Sawhney of RCD South said that Leprosy is not different from Polio. They have conducted many camps in Leprosy Colonies in Delhi in the past 3 years to Create Awareness about Leprosy Cure and Treatment. They need to do more and have to reach out to all the Leprosy Colonies in Delhi. He hopes that in a month, the group of four Clubs would grow from 4 to 6 and possibly by end of June 2023 from 6 to 10 Clubs. Many Clubs were interested in joining this programme of Leprosy Control and banishing Leprosy totally from Delhi and NCR.

Rtn Dr Madhumati Singh, President of Rotary Club of New Delhi said that keeping WHO's call for banishing Leprosy by 2030, her suggestion was that each and every Club in District 3011 should form a Leprosy Committee, like the Polio Committee. They should all go to Leprosy Colonies to help Leprosy Patients and aim to achieve Zero Transmission of Leprosy at least in Delhi and NCR region.

Rtn Udit Piplani, Secretary of RCD South End said, 'Leprosy is is curable. Good and Early Diagnosis of the disease is very important. The disease does not spread easily and treatment is easy. We should ensure proper rehabilitation to enable the patients lead a dignified life. We must Control Spread of Leprosy.

We must make patients aware about maintaining Better Hygiene. Mother Teresa did a lot towards treating Leprosy Patients.' His Club is doing more than 2 or 3 Camps every month for Creating Awareness about Leprosy Control and Treatment. Every Club is welcomed to contact RCD South for any information or project on Leprosy Control.

DG Rtn Ashok Kantoor said that he had the opportunity to witness the MOU Signing Ceremony three years ago. His District 3011 is committed to Control Leprosy. He inaugurated a Massive Cycle Rally to Spread Awareness about End Polio and End Leprosy on 2nd of October, 2022, Mahatma Gandhi's Birthday. Several media houses covered this Massive Cycle Rally and the message went to the Government. NDMC Vice Chairman and Director of Education, Delhi Govt. approached him to work together to Control Leprosy in Delhi. Doctors from MCD Hospitals in Delhi have also come forward to support the goal of controlling spread of Leprosy in and around Delhi. Leprosy Patients are confined to their places in Leprosy Colonies. The DG in order to enable them to earn their own livelihood, has planned to set up a Skill Development Centre at a big Leprosy Colony in East Delhi. They have even planned to start an OPD Department exclusively for Leprosy Patients in one of the hospitals nearest to a Leprosy Colony. He gave an open offer to all Clubs in District 3011 to join this campaign of Leprosy Control. Whatever support the Clubs need from the District, he assured will be given. He was sure that with joint efforts of everyone, he will be able to Reduce the Number of Leprosy Patients in Delhi.

MOC Pradeep Bahri informed that the Leprosy Control Foundation has been formed and will work towards making Leprosy Zero Transmission.

DGE Rtn Jeetender Gupta proposing Vote of Thanks expressed gratitude to all the eminent Speakers and said Leprosy Control is an Ongoing Project and assured full support to the program during his tenure as DG in 2023-24.

The Meeting was declared adjourned and everyone was invited for Hi Tea.

DISTRICT EVENT LEPROSY CONTROL PROJECT

Congratulations!

PDG Rtn Asoke K Ghosh for being conferred with the IPA Champion Award 2022 at International Publishers Association Conference at Jakarta, Indonesia on 10th November, 2022. This is the highest ever Award for the first time bestowed upon PDG Rtn Asoke Ghosh in the 125 Years history of International Publishers Association (IPA) worldwide.

Asoke Ghosh

IMPORTANT PROJECTS CYBER SECURITY WEBINAR

With the increased improvement in technology we also find an increase in innovative cybercrime. The advancement of technology has made us completely dependent on the internet. Internet has given man access to everything while sitting at one place. Social networking, online shopping, online studying, online jobs, every possible things that one can think of can be done through the medium of internet.

The reason why cyber crime is surfacing more than any other crime is because our lives are connected to the internet with all our accounts, our property information, our business proposals and deals and anything to do with our personal and professional lives is on the internet. While we think it is safer to have it all locked up in our own cyber space what many of us don't realise is that criminals can hack into almost everything we have just as they used to enter our homes and rob us of everything in the old days. Cyber crime knows no geographical boundaries and the cyber criminals are unknown. It is affecting all the stakeholders from government, business to citizens alike. In India cybercrime is increasing with the increased use of information and communication technology (ICT). Many of us have been victims of phishing over the years and in recent times and it is becoming increasingly insecure and unsafe to keep your world locked up in cyber space unless you know everything on how to protect it. R.I.District 3011 invited Dr. Muktesh Chander, IPS Special Commissioner (Retired), Delhi Police, to enlighten us about the different sorts of cybercrime that is happening all across the world and to discuss some steps to overcome cybercrime in India.

The talk was, indeed, very useful and very relevant in the current context. He broadly divided cyber crime into categories where it affects individuals, property and the government. There are hundreds of ways in which cyber criminals can attack all the above through spoofing, defamation, hacking, vandalism, cyber terrorism and several other ways in which they operate. They can completely take over your life and there is a need for greater cyber security & cyber hygiene and strengthening enforcement & investigation. Dr. Muktesh Chander's areas of interest are cybercrime and its detection, cyber terrorism, E-governance, Digital signatures, Cryptography, E-policing, Information security and Cyber laws, Social media monitoring, etc. and his many years of research have given him an insight into carefully monitoring the system at all times to protect our virtual world. He said that companies are storing and exchanging vital information online and cyber breaches are leading to huge losses if they haven't managed their information security in a planned manner. We have to be one step ahead of the hackers and protect our data by developing software that can safeguard your property online. The cases he cited worldwide of how cyber space criminals have attacked the biggest news channels and social media houses, brought down governments, even hacked into nuclear power stations sounded very scary and more dangerous than regular crime.

He said there needs to be a nationwide campaign to create awareness about cyber security. There needs to be strong regulations on responsible internet practices and they need to be followed stringently. India needs to develop cyber security systems according to the constantly changing cyber crime threats. While we are moving towards a Digital India we must also focus on becoming a cyber power.

There was a question and answer round at the end where he answered several questions on reporting cyber crime, identifying areas of threat etc. It was definitely the need of the hour and Dr. Muktesh Chander helped in creating more awareness about the preventive measures one could take while using the internet.

IMPORTANT PROJECTS Ni-Kshay Mitra Seminar-1

Rotary Club of Delhi Central. Zone 10.

AG: Rtn Vinod Sehgal

President: Rtn Sanjay Aggarwal

The club organised a Seminar to promote awareness about Ni-Kshay Mitra and urge members to adopt TB patients at National Institute of Tuberculosis and Respiratory Diseases. The Ni-Kshay Mitra initiative ensures three-pronged support and includes: Nutritional, Additional diagnostic, and Vocational support. This program was brought in the direction of Pradhan Mantri TB Mukht Bharat Abhiyan with the aim of eradicating TB by 2025. The meeting was organised by Club Secretary Rtn Dr. Neelam Sethi, who has been committed to the TB eradication drive for several years and President Rtn Sanjay Aggarwal who has been a champion of health and hygiene projects since times immemorial. The Chief Guest at the event was DG Rtn Ashok Kantoor who made it a point to be at the event although he had to drive down a couple of hundred kilometres from another city, where he was on that day, to arrive directly at the event. The eminent and extremely qualified Speakers made presentations on TB and clarified the myths that have been perpetuated around the disease. Almost 102 people promised to become Ni-Kshay Mitra on that day. Following up on the commitments the Members organised a nutritious food package donation day at the Rotary Divyang Kendra for TB patients.

IMPORTANT PROJECTS

Ni-Kshay Mitra Seminar-2

Rotary Club of Faridabad N.I.T. Zone 23. AG: Rtn Manoj Gupta. President: Rtn Sunil Khanduja

Rotary Club of Faridabad NIT Next. Zone 19. AG: Rtn Priyanka Madaan. President: Rtn Amit Arya

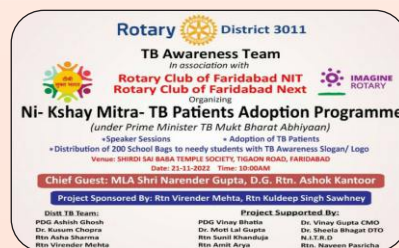

The two clubs led the organisation of TB Mukht Bharat and Ni-Kshay Mitra Seminar.

The main objective of the event was adopting TB patients and giving them nutritional diet, additional diagnostic and vocational support. The Ni-Kshay Mitra adoption seminar was organised by the TB Awareness Team, Rotary Club of Faridabad NIT and Rotary Club of Faridabad NIT Next at Sai Dham in Faridabad and the main objective was to refute the myths surrounding the disease and to adopt TB patients. The Chief Guest at this occasion were MLA Shri Narendra Gupta and DG Rtn Ashok Kantoor. Guests of Honour at the event were PDG Ashish Ghosh, Dr. Kusum Chopra and Dr. Khalid from NITRD. Project Organisers were Rtn Virendra Mehta and Rtn Kuldeep Singh Sahni.

MLA Shri Narendra Gupta, speaking on the occasion said that Rotary is wholeheartedly supporting the Prime Minister's initiative of eradicating TB by the year 2030 through the TB Mukht Bharat Abhiyan. He said that efforts made by the Rotary Clubs of Faridabad and of all others under R.I. District 3011 was, indeed, praiseworthy and they must carry on with their food work relentlessly. DG Rtn

Ashok Kantoor said that after the humongous efforts made by Rotary in eradicating Polio from our country, Rotarians have now taken on TB as a mission and support the Hon'ble PM's vision with the same fervor and dedication. He said many clubs have adopted TB patients and are looking after their diet and nourishment and of support they need in diagnostics and medicines. He urged everyone to adopt TB patients and 25 persons committed themselves to the adoption programme at the event in addition to 20 others who are already in the process of adoption.

Speaking on the occasion Dr Shiela Bhagat and Dr Khalid from NITRD enlightened everyone about the symptoms of TB, of preventive actions and cure. PDG Rtn Ashish Ghosh also addressed the gathering and spoke about the importance of taking TB on as a mission. PDG Rtn Vinay Bhatia addressed the gathering and reiterated the need to support the project with commitment. Sai Sewak Shri Motilal Gupta also proposed setting up a Dot Centre at Sai Dham specifically catering to the needs of TB patients. The vote of thanks was rendered by Rtn Virendra Mehta and Rtn Kuldeep Singh Sahni who said that they were hopeful that all Clubs that come under R.I. District 3011 will ensure that they are able to realise the Hon'ble Prime Minister Shri Narendra Modi's dream of a TB Mukht Bharat. The Clubs also distribute 200 school bags to the children and the Health department distributed diet kits.

IMPORTANT PROJECTS

Bore Charger Project

Rotary Club of Faridabad Elite
Zone 23
AG: Rtn Manoj Gupta
President: Rtn: Nitin Kapoor

The club has taken up a very big initiative of recharging borewells in Faridabad which will address the current problems of a receding water table and depleting water resource. The main aim of the Bore Charger Technique is twofold. On one hand it is implemented to increase the chances of directly recharging the deep aquifers from water that is being stored in the upper unconfined zones which in turn ensures overall yield enhancement and on the other hand it also improves groundwater quality.

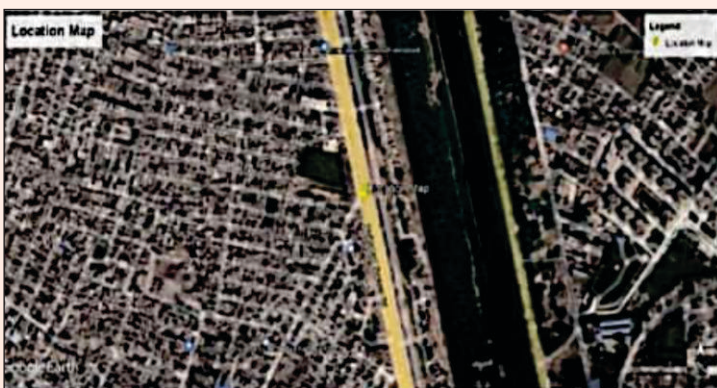

The Impact of the Bore Charger is as follows:

1. Increases water production capacity or yield of an existing borewell with low investment.
2. Unique and patented technology that helps harvesting rainwater in unconfined aquifers and makes the borewell more sustainable by recharging the deeper aquifers.
3. This is made possible by a unique process which 'perforates' existing

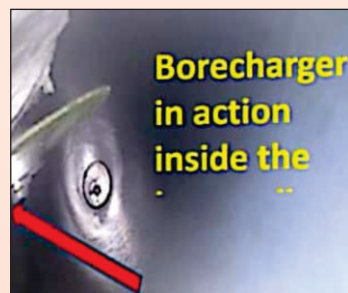

4. The solution, by perforating the existing casing, 'leaks' the unconfined aquifer in the borewell and subsequently in the confined aquifer.
5. No civil construction space and surface water source required.
6. Revives defunct and low yielding borewells.

FUTURE ACTIONS

Awaaz Foundation and R.I District 3011 have joined hands to solve the water scarcity problems in Faridabad, by bringing in bore charger technology which will recharge dried and semi dried borewell/tube wells. Pilot project of technology has been successfully showcased with MCF by recharging 15 abandoned/dried tubewells. Considering the water scarcity issues in the city, projects like these are the need of the hour and bot the organisations ---Awaaz Foundation and R.I. District 3011 intend to recharge at least 100 borewells with this process and take it on further until every borewell of Faridabad is successfully recharged.

IMPORTANT PROJECTS

MOU SIGNED BY R.I. DISTRICT 3011 AND AIIMS

In a historical Event , District Governor Rtn Ashok Kantoor signed an agreement with AIIMS to facilitate a big mission against Cancer. Creating Awareness, Detection & Treatment of Cancer has been one of the focus areas of R.I. District 3011 and reiterating the intent resulted in the signing of this very important MOU. AIIMS have also agreed to support Rotary in the Health Check-Up Camps which is a truly wonderful proposition. All Rotary Clubs across the District are invited to get in contact with the relevant authorities should they want support from AIIMS for their Health Camps.

The event was attended by a large number of Doctors from AIIMS, Rotarians, Cancer Survivors & Media. The participating Clubs were felicitated with Certificates and mementos. To conclude there was a Cycle Rally to show our resolve to combat Cancer with an iron hand. You will recall that our mega cycle rally to create awareness about Cancer Prevention And Treatment followed by a cycle rally to address the importance of eradicating Polio from the world and Leprosy from India were held in the previous two consecutive months. The District followed it up with yet another cycle rally to promote the need to fight Cancer. All the participants were given Pink T shirts and the stakeholders strengthened their resolve to create awareness all across Delhi/NCR.

IMPORTANT PROJECTS

ROTARY CLUBS ORGANIZE MEGA HEALTH CAMP IN ASSOCIATION WITH THE SUPREME COURT BAR ASSOCIATION

Rotary Club of Delhi Midwest
President: Rtn Samrat Yadav
AG: Rtn Aniel Sahni

Rotary Club of Delhi Southwest
President: Rtn Vikas Dhingra
AG: Rtn Arun Roongta

Rotary Club of Delhi Midwest and Rotary Club of Delhi South West in Association with Supreme Court Bar Association organised a Mega Health Camp in the Hon'ble Supreme Court of India.

The camp was inaugurated by the Chief Guest Chief Justice of India, Justice D. Y. Chandrachud and Guest of Honour DG Rtn Ashok Kantoor. They, along with other dignitaries, were honoured by Rotary with the Midwest Eco-kit which comprised of a Metal Sipper, Cloth Bags, Plantable Notepad, Plantable Pencils and a planter in a coconut shell.

Following Hospitals / Clinics were present:

- Fortis Hospital (General Health Checkup)
- Rajiv Gandhi Cancer Institute (Cancer Awareness and Detection)
- RC Gurgaon (Mammography Bus)
- Clove Dental (Dental Checkup)
- Centre for Sight (Eye Checkup)
- Lifeline Laboratory (Pathology Tests)
- Neurology (Dr. Aditya Bhati)
- Diet Consultation (One Health by Dr. Shikha Sharma)
- Active Plus (Physiotherapy)

Registrations for the camp were managed centrally by RCD Midwest. A total of 600 beneficiaries availed the facilities of the camp.

IMPORTANT PROJECTS ROTARY SETS UP A PHYSIOTHERAPY CENTRE AT MATA GUJRI HOSPITAL

Rotary Club of Delhi Janak (Zone-16)

President: Rtn Raju Agarwal

AG: Rtn Dr Harvinder Popli.

Under the initiatives of R.I District 3011 to provide affordable Healthcare to patients, Rotary Club of Delhi Janak has initiated the establishment of a State-of-the-Art Physiotherapy Centre at Mata Gujri Hospital, Tilak Nagar, New Delhi.

In this context, District Governor Rtn Ashok Kantoor, Rtn Mukesh Kohli and Rtn Anil Kakar from District 3011 and a Team from Rotary Club of Delhi Janak - Rtn Vinod Sehgal, President Rtn Raju Agarwal and Club Secretary Rtn Sachin Garg had a meeting with the Senior Management of Mata Gujri Devi Hospital, Tilak Nagar, New Delhi-110018 on 22nd Nov 2022.

The Hospital Authorities handed over the adhoc possession of the room for this purpose to RC of Delhi Janak so that the work can be commenced soon. The Hospital assured all possible support to the club to carry out the work and to help complete it by the 2nd week of January 2023. The Centre should be inaugurated and up and running by 21 January 2023.

“Main Bhi Jal Rakshak” Water And Energy Conservation Campaign (by Water Management & Plumbing Skill Council)

“Main Bhi Jal Rakshak” - Water And Energy Conservation Campaign (by Rotary India, Water Management & Plumbing Skill Council and Shri Shri Rural Development Program Trust, Art of Living)

The event was launched on 17th September 2022 in association with Sri Sri Rural Development Program Trust (SSRDP) Art of Living & Rotary India (RI District 3011) during the auspicious occasion of Kaushal Deekshant Samaroh.

The collaboration has been formed for a common objective in order to promote water conservation, by educating students on water saving methods, by creating programs which directly reduce the wastage of water, by advocating the importance of water conservation to the masses, and creating a feeling of pride in the individual for contributing towards this national service. School students across the country and from various states will be undergoing the training under this project.

School children will be trained on installation of aerators and will be provided with 4 aerators to install in their home as well.

At 'DILA-- DISHA 2022', DG Rtn Ashok Kantoor encouraged the all Interactors to undergo the training on the aerator and spread the message across their areas on the importance of conserving our fast depleting resources - water and energy. The training will be an ongoing process and has already commenced in some schools even as we go to print.

Brief History of Rotary Public School :

The history of 43 glorious years is in fact the history of the Herculean efforts made by the Rotarians of Rotary Club Gurgaon, R.I. Distt 3011. The odyssey began in 1981 when there was no secondary school in the great city of Guru Dronacharya. The need of the hour was felt by the Rotarians of the Rotary Club Gurgaon and with a vision to impart quality education to society and the socially under privileged. The Rotary Service Trust was formed comprising of some elite professionals and entrepreneurs amongst the members of Rotary Club Gurgaon. These men of genius, with confidence in God, joined heads and hands together and wove the threads of their project. Their devoted action plans multiplied million folds and built the fabric of Rotary Public School, the first ever Rotary Project with a vision to provide education to the underprivileged of society on a self-sustaining model.

Pioneering the cause of education Rotary Public School stands as the first venture of Rotary Service Trust Gurgaon whose foundation stone was laid by Dr. S.Y. Qureshi the then Deputy Commissioner of Gurgaon Range. Initially the school made a humble start with only four rooms in sec-17 and a small number of students. The main aim of the school was "For the want of money, no deserving child should be deprived of the right to quality education". With the passage of time, arose the need for a bigger & better building. Once again with the untiring efforts of leading Rotarians, the school was allotted 5 acres of land by HUDA. The task ahead was all the more challenging because sufficient funds were required for the construction of the building. With dreams in their eyes and vision in their minds, they took loan from the bank for its construction of the building .

Hats off to the Trustees of Rotary Service Trust, who took a big risk and mortgaged their personal properties thus was established the First Senior Secondary School in Gurgaon affiliated to CBSE, New Delhi.

Finally the dream came true in the year 2000, when the first rays of sunlight endowed upon superbly designed spacious building incorporating the latest in the school architecture and thus a new school saw the dawn whose foundation stone was laid by Past R.I. President Rtn. Carlo Ravizza & was also inaugurated by him.

Spread over sprawling locale of 5 acres, the present building of Rotary Public School in Sec-22 is agronomically constructed ,Ultra-modern Conference Room with power back facility, high-tech Audio-Visual Hall and to top it all technology enabled classrooms.

The school stands committed and does a Yoeman service to the society by providing 700 children belonging to economically challenged families access to Quality Education in the mainstream.

In this endeavour, the school is providing free Education to 33% students in most conducive environment. Setting higher standards of excellence, the students have won several laurels to school in academics by producing the city topper - Shreya Jain in the year 2018 and national players in Judo like Annu Kumari from this category of children to name a few.

Kudos to the dedication of the Rotarians of Rotary Club Gurgaon, who strive together towards the ultimate goal of serving humanity in the most befitting manner.
