## Presidential Message

Dear Rotarians, Rotaractors and friends,

The year 2020 has brought monumental changes that have already included a global pandemic and a renewed call for social justice. We are reminded that we live in a constantly changing world, and Rotary is a reflection of that world.

We must be ready to listen and adapt, always drawing upon our core values of service, fellowship, diversity, integrity, and leadership. If we live these values and apply The Four-Way Test to all aspects of our lives, we will be prepared to lead at all times.

I am proud of how we have proven our ability to adapt. Faced with a pandemic, Rotary has not stopped. We moved meetings online and found new ways to serve. We turned the cancelled 2020 Rotary International Convention in Honolulu into our first virtual convention. Each week, we are proving that Rotary is a flexible gathering that happens anywhere - in traditional meetings, on cell phones, and on computers. Rotary offers a way to connect for everyone who wants to, at any time, and will continue to do so.

Some have even told me that they enjoy Rotary's mix of online and in-person meetings more now than before! How can we build on this momentum and seize the opportunity to embrace change so that Rotary keeps thriving?

For me, supporting new types of clubs is key. They are no longer just experiments but a real part of Rotary today. In addition to traditional clubs, we have e-clubs, Rotaract clubs, cause-based clubs, and passport clubs. These help make Rotary more inclusive, more flexible, and more attractive to new members. Visit these clubs, exchange ideas and partner with them, and promote them to one another and to our communities.

We all agree that we need to grow Rotary, but sometimes we can get caught up in the numbers game and lose sight of the bigger picture. After all, an increase in membership is meaningless if next year, those new members leave our clubs. Let's grow Rotary sustainably. Rotary's flexible options for participation will engage members and show the community how we're different from any other club. Let's celebrate that Rotary is now less about rules and more about joining together in a variety of ways besides traditional meetings.

I recommend that each club hold an annual strategy meeting to ask — and honestly answer — if we are doing all we can for our members and if our club reflects the community we serve. We are taking this approach at the international level, too. I am proud that six women are serving with me on the RI Board of Directors this year, the most we have ever had. Let's keep Rotary moving in this direction at every level. We need more perspectives, more diversity, for Rotary to thrive.

It's fascinating to imagine how we will find new ways to adapt and stay nimble this year and beyond. But I am also inspired about what hasn't changed and never will in Rotary: the friendships, the networking, the ethics, and the service. Indeed, these are the values that make Rotary attractive to all.

As Rotary's founder, Paul Harris, said, we have to be revolutionary from time to time. Now is such a time. Rotary Opens Opportunities — countless ones — for us to embrace change that will strengthen us even as we remain true to our core values.

## District Governor's Message

Dear Rotary Leader,

The month of July saw installations of the new teams in all the clubs. In keeping with the need of the hour, they were all done on-line. It was a new experience and each club made innovations which showed the creativity of our Rotarians.

August is the month of Membership. The international friendship day is celebrated during this month and we customarily have the Membership seminar during this month. Membership is very crucial to the Rotary movement.

**There are three aspects to Membership growth :**

1. **Membership growth** : Every Rotarian should strive to bring new members from among friends, relatives , acquaintances and colleagues. Each Rotarian is an ambassador for his club, district and Rotary as a whole.
2. **Retention** : This is an oft-neglected area. We end up in a situation where you keep running to stay in the same place. Every year new members get added but the membership remains the same due to attrition. I would like to exhort Club Boards to brainstorm about the reasons behind this phenomenon. Is it that the new member feels neglected? Is the mentoring system for new members properly in place in our club. Do we need to actively involve the new members in Club activities. Once a new member attends some good projects, they get hooked to Rotary. Senior Rotarians need to take new Rotarians under their wings and mentor them.
3. **New Clubs** : Many clubs feel comfortable and snug with the numbers they have and the friendship that has grown over years of association. Such clubs would do well to explore the possibility of forming new clubs. Getting together persons to form a new club and then mentoring the new club should be a matter of pride for any club. This also provides a much needed boost to the senior Rotarians of the parent club.

All the club leaders have set targets for themselves during the SETS and PETS. Now, they have to work towards achieving these goals.

With meetings presently taking place on-line, the issue of commuting to the meeting (in cities) is avoided and new prospective members will not hesitate to participate, if invited. Once they see the work being done, they would become willing to join the club.

## Rotary Connects the World & Opens Opportunities for Rural Youth

These are abnormal times. An unseen enemy has made mankind go into a cocoon. However, you can trust Rotarians to not let any calamity stop them from serving humanity. In the spirit of this last year theme "Rotary connects the World" and this year theme "Rotary Opens Opportunities", Rotary Club of Secunderabad West along with Rotaract Club of BITS Pilani, Hyderabad Campus used this opportunity to take up their signature project of Career Guidance virtually.

EmergeX - A Virtual Career Conclave on Future Technologies on 05 July 2020(Sun)

The constraint was that physical contact and assemblage was not possible. This handicap was turned into an opportunity and made out to be a grand seminar. With no geographical limitation for the faculty or the participants, it fell just short of becoming a global affair.

The organizers had the satisfaction of exposing the rural student community to the creme-de-la-creme of Technology giants. If this effort inspires even one student to aspire and strive to follow in the footsteps of these giants of men and women, the organizers would feel fulfilled.

Students from Telangana Tribal Welfare Rural Degree College from the remotest part of the Telangana State had the first of its kind opportunity to listen to 8 leaders from the Top Technology Companies in 3 hours and interact with them through Q & A. Most of the students are first generation school goers hailing from the tribal areas of the state, with a great aim to achieve big in life.

Youth is future of Rotary and public image is the need of the hour. Keeping these two in mind, this event was organized as a major image building program for Rotary inspiring the youth.

The speakers were drawn from the top echelons of companies like Google, TCS, Facebook, Hitachi, Tech Mahindra, IBM etc. while participants were from places as far- flung as Singapore, Mumbai, Delhi including the smaller towns/villages like Medak, Shadnagar, Kodad, Kothagudem (Telangana State) etc.

Technology has become integral part of our life irrespective of our stream of study/Profession. Acquiring the technical skills will give an edge in getting the best jobs. In this competitive environment, youngsters need a lot more than just an Academic Degree for a successful career.

Today Work is changing. The growing adoption of emerging technologies is making a whole host of jobs redundant and reconfiguring the way we work. Therefore, as the world enters the next digital era, it is crucial that the future workforce understands how new technologies will impact their career and takes steps to better prepare themselves for the workplace of the future. Keeping this in mind, the Program was designed to address the following questions:

- What will be the careers of the future look like as we enter Industry 5.0?
- How do youth upskill to thrive in this incredibly competitive and ever-evolving environment?
- How can they leverage the opportunities that emerging technologies provide to gain an edge over others in the job market?
- Recruitment process and what top notch companies look for in a candidate
- What are future trends in job?

The sessions were made very interesting with mixture of Speech, presentation and In-conversation with the faculty. The program received great feedback and accolades especially from the Rural students who were attending such a session for the first time.

Rotary Club of Secunderabad West has made this into a regular program to empower the youth in association with Rotaractors. 05 July being the Guru Poornima day, they launched a program called Gurukul to provide Skill development training, Mentorship and career guidance to the College students on a continuous basis. Rotarians from across the globe can collaborate for contributing to a great future of our youngsters. Those interested to be part of this program can visit the club website [www.rcsw.in](http://www.rcsw.in).

## The 4 Way Test

Of the things we think, say or do

1. Is it the TRUTH?
2. Is it FAIR to all concerned?
3. Will it be GOODWILL and BETTER FRIENDSHIPS?
4. Will it be BENEFICIAL to all concerned?

## NEW RULES FOR Global Grants July 2020

**Elimination of WF minimum for GG:** Global Grants (GG) are now defined as having a minimum budget of US\$30,000 & maximum World Fund (WF) award of US\$4,00,000.

This means that applicant can use a combination of District Designated Fund (DDF), cash, and/or Directed gifts & Endowment earnings to fund a

global grant. The Rotary Foundation will provide a 100% WF match only for DDF contribution.

### For Easy learning:

1. Earlier : WF matched 50% for cash contribution.  
Now : Its ZERO.
2. Earlier : International Partner contribution was 30% minimum.  
Now : Its 15%.
3. Earlier : WF match minimum was to be US\$15,000 for GG project.  
Now : It can be ZERO.

\* The important change is that, now the minimum condition of US\$15,000 WF match is withdrawn.

We hope this new policy will make it easier for applicants to put together financing for a GG since these are not constrained by the necessity of securing at least US\$15,000 in DDF to receive US\$15,000 in WF.

For example, under the NEW POLICY, Grant Financing may be like:

DDF = \$10,000 + WF = \$10,000 +  
Cash contribution = \$10,000  
= Total GG amount for \$30,000.

Or,

DDF = \$5,000 + WF = \$5,000 +  
Cash contribution = \$20,000  
= Total GG amount for \$30,000.

Let us avail this scope of simplicity and Doing Good in the World.
