Presidential Message

Dear Rotarians, Rotaractors and friends,

This does not seem like a time for great optimism, but it has to be. Long before Rotary was founded, the world dealt with great crises that tested humankind's ability to progress and endure. In the age of Rotary, the world has faced many more catastrophes; however, we have survived, and every step of the way, Rotary has helped the world heal.

Every great challenge is an opportunity for renewal and growth. I revealed the theme of Rotary Opens Opportunities at the International Assembly in San Diego just as the COVID-19 crisis was beginning, but these are words that I have believed for many years.

Rotary is not just a club that you join; it is an invitation to endless opportunities. We believe in creating opportunities for others and for ourselves. We believe that our acts of service, large and small, generate opportunities for people who need our help, and that Rotary opens opportunities for us to live a richer, more meaningful life, with friends around the world, based on our core values.

Governments and institutions are gaining a greater appreciation for the types of public health partnerships that are critical to our work. People stuck at home, eager for greater connections and hungry to help their communities, are now embracing the values we have promoted since our beginning.

All of this is positive news, but just because there are greater opportunities than ever for Rotary to thrive does not guarantee that we will succeed. The world is changing rapidly — and was doing so even before this crisis. People were starting to move away from regular lunch meetings and toward online gatherings. Friendships were being cultivated and revived in social media relationships even before most of our meetings moved to Zoom and Skype. Younger generations have a strong desire to serve — but have questioned whether they could play a meaningful role in organizations like Rotary or whether they might make a bigger impact forming different types of connections. Now is the time to put everything on the table, test new approaches, and prepare Rotary for the future.

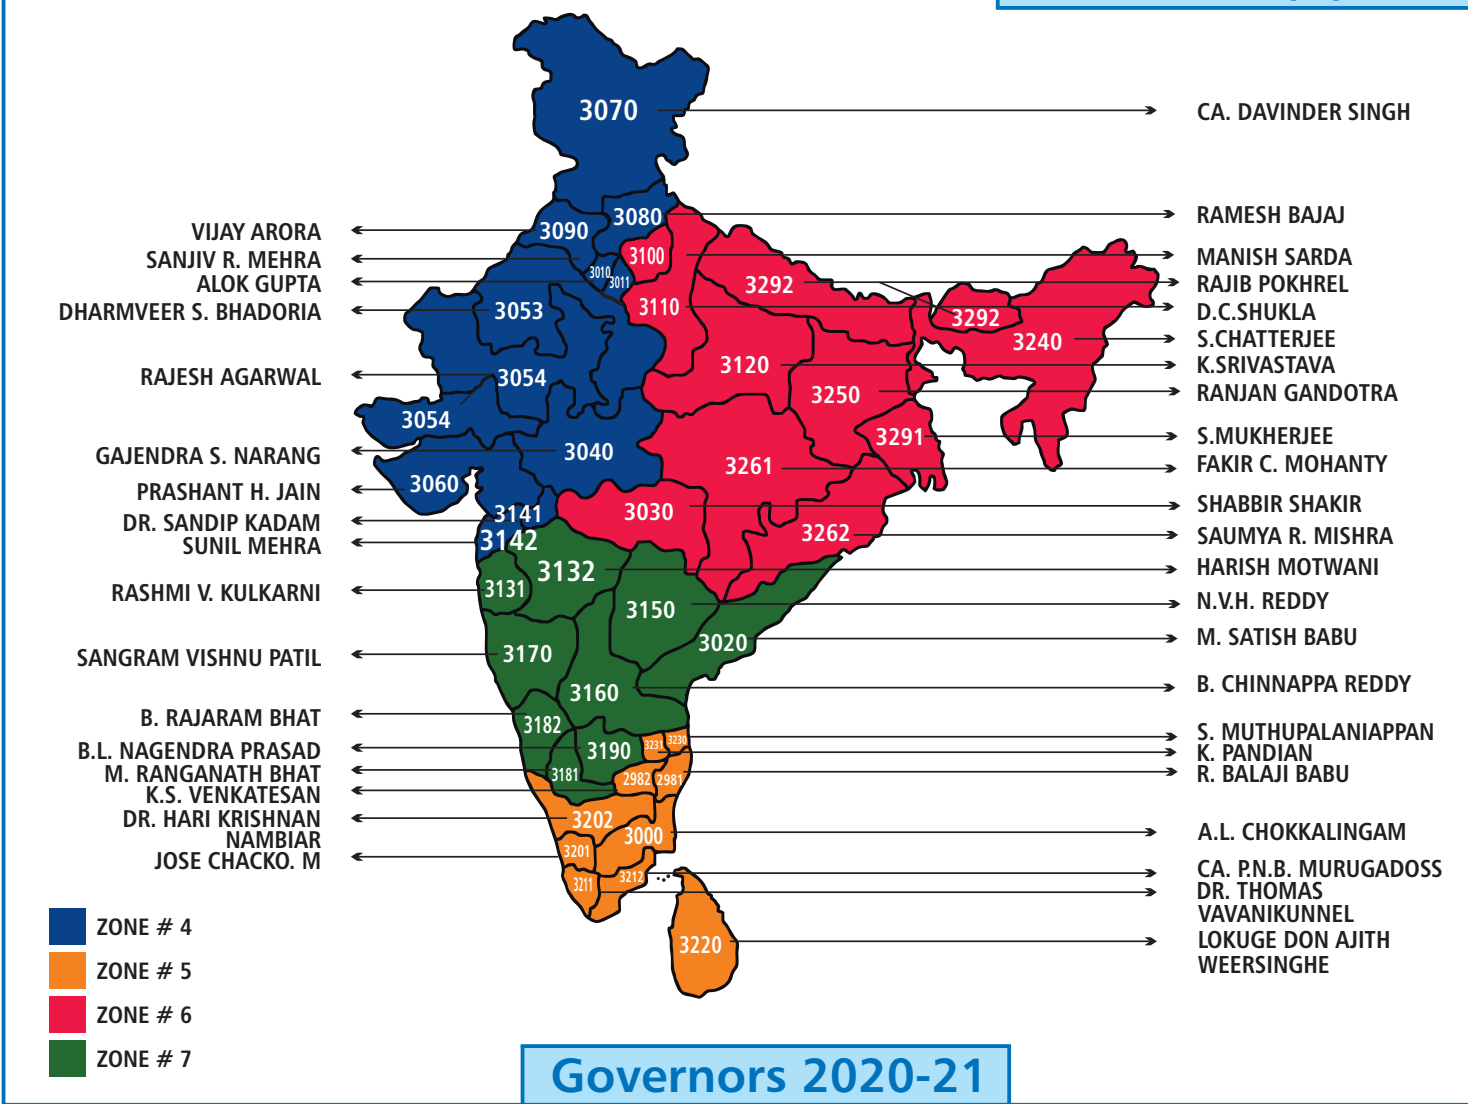

The COVID-19 crisis has forced all of us to adapt. This is good, and our new Action Plan specifically calls on us to improve our ability to adapt. But adaptation is not enough. We need to change, and change dramatically, if we are to face the challenges of this new age and provide the Rotary that the world so desperately needs.

This is our great challenge, not just in the next year but into the future. It is up to us to remake Rotary for these new times — to wholeheartedly embrace the ideas, energy, and commitment of young people eager to find an outlet for idealism. We must become an organization fully enmeshed in the digital age, not one that simply looks for online ways to keep doing what we have always done.

The world needs Rotary now more than ever. It is up to us to make sure that Rotary Opens Opportunities for generations to come.

Holger Knaack
President, Rotary International

District Governor's Message

Dear Rotary Leader,

As the District Governor for this Rotary year 2020-21, I feel most privileged to reach you all the Rotarians through this medium. At first I congratulate all the Club Presidents and their entire Team of office bearers for their successful year of service. This Rotary year is different from the earlier years. It started on a different note. An unseen enemy was on the prowl and everyone was forced into a cocoon. But, Rotarians never lose their confidence to fight. A new normal had come into being. The hands of Rotarians itch to serve in the spirit of "Service above self". The migrant workers and Covid warriors drew their attention. It was not long before one found Rotarians handing out groceries to the underprivileged and PPE kits to the Covid warriors - a laudable job indeed.

All the Club Presidents had made plans for their installations, but the lockdown and social distancing proved to be hurdles. But, in true Rotary spirit, they used technology to overcome them. Virtual meetings were planned for installations and club after club came up with innovative ideas. The flip side was that Rotarians who were out of station and some who were out of the country could also join in. So, the social distancing actually brought us closer!

Some Rotarians, including our senior Rotarian PDG TVR Murti were found Covid-19 positive. The district rose up as one family and plasma was arranged for transfusion with a Rotarian volunteering to donate. This is the magic of Rotary. This brought out the spirit of compassion inherent in every Rotarian. It is this spirit that needs to be nurtured to keep the organisation alive and kicking and relevant to the times. As mentioned by RI President Holger Knaack, we should not only adapt but also change with the times and prepare Rotary for the future. As he says, the world needs Rotary more than ever. Let us rise to the challenges..

Starting this year with a bang, I am sure the Rotarians of the district will define a new dimension to their activities and make the story of this year a memorable one which we shall feel proud to share with our grandchildren.

I wish all the new teams all the best and feel simultaneously honoured and humbled to lead such a dynamic team.

RI Director's Message

One-to-One

A trailblazer is one who is an innovator, a pathfinder, a pioneer, a person who inspires others in working towards a common, valued goal. In 2020-21 we Rotarians must be trailblazers. Change is the principle of life. It gives us the vision to succeed. Being a trailblazer means adapting to the change and implementing the change in our organisation and in ourself. And that is what Rotary leaders have done in our zones and across the world. The last three months have gone by in a flash. Meetings and more meetings. It has been the season of change and challenge - in the way we have our Rotary meetings and challenge to our membership, project implementation, fellowship activities and our health.

But Rotarians have stepped up and confidently adopted the changes with a positive attitude a can do, will do spirit.

Today we are at a pivotal point in Rotary. Rotary has an increasingly important role to play in the times ahead. As we 'Grow Rotary', as we reach out across borders, as we implement meaningful projects we keep discovering a new Rotary that is changing, adapting and becoming more flexible and focuses on inclusiveness and equitable opportunity for all. But our core values-fellowship, diversity, service, leadership and integrity - remain constant. And our values define who we are and what we do as Rotarians. I am confident that Rotary will emerge stronger, vibrant and more relevant from this crisis.

What is the magic formula of Rotary? I believe we need the vision to see, the vigour to act and the heart to care. We have always had people with vision in Rotary - the innovators. Rotarians by their positive, affirmative action bring the projects to fruition. And the heart to care has existed in every Rotarian. The ability to see, vigorous action and caring heart are the three things needed to invoke the magic that is Rotary. And Covid or no-Covid, the magic of Rotary continues to weave its web in our communities and the world. I compliment the torch bearer governors and their teams for their significant work in 2019-20. And I wish the trailblazer governors all the very best in this new, exciting leadership journey for 2020-21.

Rotary, to me, is two words - hope and opportunity. Hope that the community has from Rotary and the Opportunity that each one of us has to fulfil that hope through meaningful, lasting service. Remember, 'Happiness is a perfume you cannot pour on others, without getting a few drops on yourself. Dare to dream; touch lives and spread happiness.

Be the trailblazers as Rotary Opens Opportunities. Enjoy Rotary, enjoy yourself.

Dr Bharat Pandya
RI Director, 2019-21

Let's get set for the new year

Dear Rotarians,

*To get the best out of your lives,
face your past without regret,
Handle your resentment with confidence,
prepare for the future without fear.*

-Baghavat Gita

Come July 1, the Rotary Wheel turns; it is time for change of guards in each Rotary district and club and a new is being created, bringing with it new hues of colour, freshness, commitment, vigour and thought process.

It is the right time for the new team members to tighten their belts to re-dedicate themselves to serve the world. The needs in the world are greater and more diverse than ever before. Despite challenges we face making the world more equitable, more just, covering a broader range of human needs, and the work required amounts to a steep mountain climb. Yet the climbing must be done.

As Rotary opens doors, let us seize the opportunity to lead the way to carry out RI President Holger Knaack's programmes in the coming year, with service above self, making a difference to the lives of the less fortunate around us. For trouble shared is trouble halved!

In these trying times, it is important to be innovative, think out-of-the-box, find opportunities in the new normal to grow Rotary. Making it stronger, more adaptable, and even more aligned with our core values. As we evolve using our Strategic Plan, let us explore increasing our membership by forming more flexible clubs and inducting more women into Rotary.

We have elevated Rotaract, let us ensure they play an integral role by giving them leadership opportunities, thereby bringing energy and better solutions to our organisation.

Remember the secret of change is to focus all your energy not on fighting the old, but building the new.

With best wishes

Kamal Sanghvi
RI Director, 2019-21
