## **AN APPEAL**

To have a healthy ecosystem we are dependent on various natural resources, and one of the things we can do is to protect Mother Earth by planting trees. They give us **Oxygen**, hold the **Soil**, and give **Life to the Wildlife**.

An appeal from the Green City Committee is to request each member to contribute in twos or multiples of twos (**Rs 500/- for each tree**) for plantation at various places in our city, to increase our tree cover. As we are laying stress on protecting the trees, than just planting, for which we need tree guards too. Kindly do contribute on **Birthdays, Anniversaries, or When You Are Happy**.

## BASIC EDUCATION & LITERACY

Basic education and literacy is one of The Rotary Foundation's six areas of focus. We know that basic education and literacy are essential for reducing poverty, improving health, encouraging community and economic development, and promoting peace.

Consider these facts:

- If all women completed primary education, there would be 66% fewer maternal deaths.
- A child born to a mother who can read is 50% more likely to survive past the age of five.
- If all students in low-income countries left school with basic reading skills, 171 million people could be lifted out of poverty, which would be equivalent to a 12% cut in world poverty.

The world is making good progress in this area. According to a 2014 United Nations Millennium Development Goals progress report, literacy rates among adults and youths are on the rise and the gender gap in literacy is narrowing. But pressing global needs remain:

- 58 million children worldwide are out of school.
- Even after four years of primary schooling, as many as 250 million children cannot read and write.
- 781 million adults are illiterate.

Rotary supports activities and training to improve education for all children and literacy for children and adults.

Area of Focus Statement of Purpose and Goals:

The Rotary Foundation enables Rotarians to ensure that all people have sustainable access to basic education and literacy by:

- Involving the community to support programs that strengthen the capacity of communities to provide basic education and literacy to all;
- Increasing adult literacy in communities;
- Working to reduce gender disparity in education;
- Supporting studies for career-minded professionals related to basic education and literacy.
