

District Governor's Message to District Website

My dear Dreaming Rotary Friends,

Fellow Rotarians, Rotaractors and Friends in Rotary, it gives me great honour and privilege to be able to lead District 3181 as the District Governor for the Rotary Year 2023-2024. I would like to record my appreciation to Club Presidents, Assistant Governors, Zonal Lieutenants and District Leaders and Officers.

District 3181 Website is being managed by Rtn. Praveen Udupa for the last couple of years and he has been doing a wonderful job in disseminating information about our district very systematically. Understanding his efficiency in managing the website we have again nominated him to the same post. He has compiled all information about the members of our district and also given training to Rotarians about uploading Projects in Rotary India website and My Rotary.

Rotary needs more good HEADS, HEARTS, and HANDS. So, I urge you to join me to deepen the growth of Rotary in our District during this Rotary year. Our elegant motto – SERVICE ABOVE SELF – sets apart the motive behind the work of the organization and its members over its more than one century of existence. We need to relish this Rotary ideal and leverage it to continue to make life better for people. In doing so, let us not dwell on counting the costs or returns, but on measuring the impact that what we give, makes on society. We are therefore encouraged to cast a new vision of Rotary in DIVERSITY, EQUITY & INCLUSION – with limitless possibilities – in member growth, engagement and retention, sustainable projects, growing the Rotary Foundation and building a strong public image.

I am very grateful to all Rotarians in the district, both old and new who have kept faith with the programs and projects of this organization of selfless persons united in the ideals of service to humanity. This year our International Presidential, Gordon R. McNally has asked us to CREATE HOPE in the WORLD and make our dreams of creating lasting positive changes in the world come true. We at the district have christened this annual commitment to serve.

All of our District leaders and their Committee members have been drawn from your Clubs because of the experience, expertise and energy they have in their particular areas and their willingness to learn and to be of service to other Clubs. I am humbled by the generosity of the many people who have agreed to take on roles in the District and thank them for agreeing to help support our Clubs and our District.

Check out our events calendar for more information about our upcoming sessions and events. For any needs that you or your club may have, our district team is here to support you. Our goal is to provide the resources and support needed to ensure your success. We wouldn't be here without you, so please reach out to us for any questions that you may have. I do have a token of appreciation for each of you that I will bring to your club when I visit.

Please visit our District Website periodically. You will get latest information, notifications and literature related to Rotary from our Website. You can also update about the growth membership and our contribution to The Rotary Foundation etc., from our Website.

I am thankful to Rtn. Praveen Udupa for taking up the responsibility maintain and managing the District Website. Welcome to the New Rotary Year!

1st July 2023

**Sincerely, Yours in Rotary
Rtn. H. R. Keshav**
