

Cataract Surgeries

Background

- India shares one third of the world's blindness, which is approximately 12 million people. In 2020 the goal was to eradicate blindness from the society but due to Covid situation in last two years, Government Organisations were converted into Covid centres and CATARACT being elective surgery was been delayed and lead to increase in number of Blindness.
- Shree Jeevan Hospital being a Private Organization, led by 4th generation Ophthalmologist, Dr. Vijay Sabharwal with a rich experience of 40+ years & Dr. Ankita Sabharwal with 17 years of experience. They have been doing these surgeries since peak Covid-19 period to Save Sight.

Rotary's Involvement

- That, the surgeries will be done using Phacoemulsification - PHACO with IOL and putting foldable Intra ocular lens, FOLDABLE HYDROPHILIC ACRYLIC, UV ABSORBING OPTIC WITH SQUARE SHAPED EDGE lens.
- That, the subsidized Cost per Surgery including Pre-Post Operative Care will be Rs. 7500.00 for the needy and those who cannot afford it How to Get involved

We are looking for people to sponsor a patient you can mail us 93aayush@gmail.com
