## R.I PRESIDENT'S MESSAGE:

**Rtn. Francesco Arezzo**

One of the most important things we can do to tell our Rotary stories in an effective, compelling way is to make sure we all use consistent and unified messaging. You can use the president's message for 2025-26, Unite for Good, to inspire members, participants, and the public with an idea that aligns with our Action Plan and calls on us to work together.

A good communicator and listener too, passionate about their work, open minded, positive minded, respect each other and good networking abilities, the team of such dedicated leaders who are ready to share the responsibility. The rotary presidency for one year is an opportunity that enriches us in many ways especially personal growth which no university will educate you. No one should miss this opportunity. Our club has 54 years of very rich legacy in ideals and principles of the Rotary. Whether it be Fellowship or service to less privileged and less fortunate class of people. We all have to take that legacy laid down by each and every past president, ahead jointly and take the club to greater height and newer level and keep the flag of our club flying higher and higher

## FROM THE PRESIDENT'S DESK:

**Ms. Chandraprabha Khona**

Greetings to all the friends and members of the Rotary club of Mumbai Downtown sealand. I am deeply touched and honoured for the trust and confidence placed in me by the members of the club to lead this club second time. With great pride and humility I have accepted the reigns of this prestigious club. After all what is leadership? The leadership is the ability to motivate, guide and align a team in a collective direction and enables them to work together and accomplish shared goals. But here I find all the directors are already motivated and we as a team are already working together and have accomplished 23 projects and activities in each avenue in such short span of 30 days. It is my great pleasure and privilege to lead this beautiful club as I find the qualities of a leader in each of director of board.

## EDITOR'S NOTE

*Serving Communities, Enriching Lives*

*As Rotarians, we are committed to making a positive impact in our communities. We recognize that service to others is not just a moral imperative, but also a strategic investment in our collective future. From empowering women and girls to caring for the aged and diseased, our initiatives aim to create opportunities for growth, support, and inclusivity. Our club aims to support various social causes, including women's empowerment through education and economic opportunities, care for the aged through geriatric support and palliative care, and healthcare services for the diseased and marginalized. By working together, we aim to build a stronger and more resilient society in which everyone gets the chance to thrive. Let's continue to prioritize initiatives that promote social welfare, support marginalized communities, and foster inclusivity.*

*Together, let us strive to create a more compassionate and equitable society.*

## THE JOURNEY IN ROTARY OF IPP ARUN SAWANT

*During all my childhood and walk of extensive academic life, till my superannuation as Professor in Elite Government Institution as Professor and scientist, I never even dreamt of to*

*be Rotarian. Taking late entry in Rotary was just by an accident. It happened by inspiration of*

*great family friend and academic colleague in the Mumbai University where I had my stint as Pro Vice Chancellor. As I was deep rooted researcher of Chemistry and Environmental Science,*

*the moment I entered Rotary club as late as 2022, I found the work domain very interesting,*

*challenging and close to my heart and overlapping to my passion of social work. During my*

*researching time I was deeply involved in transfer of technology for rural development for upliftment of underprivileged. My experiments had achieved success, be it extraction of medicine from plants, new materials in water*

*conservation, studies on impact of pollution of environment and human life, plantations of all types- gardening, horticulture etc., I found the objectives of Rotary Club very matching. It was interesting to know Rotary culture and discipline in the annals of Rotary Literature. What could be more interesting to me than principles of 4*

*Way Test. Avenues of getting several crores of funds, to be utilized for upliftment of [poor strata of society, I think there is no match to this philosophy of Rotary Organization.*

*Well, learning everything about rotary is not so simple, but great learned Officers of District and colleagues in club made it easy, and I am still learning. Exposure through District functions where I noticed epitome of excitement, appreciations, all leading to common cause for*

*providing better livelihood with full of spirit and competitiveness. Members with high*

*professional walk of life were found so dedicated in talking of execution of projects in service*

*to mankind. Rotary Internationals Polio Plus mission impressed me most. The scope for*

*stewardship program is tremendous where sky is the limit. I have given lot of time, since my*

*schooldays for in providing maximum social service and help to needy. As I believe in doing*

*things differently with different modes, it was not difficult to mould into Rotary culture.*

*However, some lapses not taken seriously, did bother me. At the same time there is*

*appreciation for good work. Choosing the better path, I started giving dedicated service to our*

*club. To mold myself form experience of coveted post of Vice Chancellor, it took some time.*

*That difficulty was not important against the mission of Rotary and so I came out of university*

*gown quite easily as my work matched with the mission and objectives of Rotary.*

*Now I am more as Rotarian than my academic and environmental services across the Globe. I*

*feel spending good time for Rotary is giving satisfaction as it benefits underprivileged. India*

*needs Rotary as helping hand. Government of developing country cannot reach out to every*

*downtrodden needy person. Contribution of Rotary is much needed for this mission. .When I*

*look must at the landscape of human population alone of India, I wish several million Indians*

*opt to be Rotarian to serve the nation by joining Rotary Organization.*

*Looking forward to be seasoned Rotarian to serve better.*
