## FROM PRESIDENTS DESK:

**RTN. CHANDRAPRABHA KHONA**

Greetings from president to all the dear fellow Rotarians and friends.

The new year 2026 has started with bang. Our flagship project in focus area WATER is taking shape.

On 26 th January, the republic day saw the much awaited projects of helping tribals, farmers and villagers when five of us visited Chary village. This village is adopted by our club. We inaugurated the solar pump and witnessed the pressure in flow of water reaching the farms and fields where drip irrigation is done. It was a pleasant scene to see the standing crops of seasonal vegetables. The extra water is stored in farm lake. The second Solar pump will be inaugurated next month at Pimpleshpet. I urge the members .that we should adopt more villages and install solar panel based pumps near perennial water bodies and supply water through pipelines to all the

farms of a village. By this gesture we provide irrigation to farmers helping them to grow more crops after monsoon thereby improving their economic well being and preventing their migration.

Friends I urge all of you to donate funds for this project.
