## MESSAGE FROM THE PRESIDENT

*Dear Fellow Rotarians,*

*As we step into the final month of this Rotary year — my last as President — I find myself reflecting deeply on this incredible journey we've shared. It's been a year filled with purpose, passion, and perseverance, and I carry with me a quiet pride in the work we've done and the values we've upheld together.*

*This past month offered a beautiful reminder of what our club truly stands for. Our visit to the Peepul Exemplary MCD School was not just a community outreach — it was a moment of connection, of empathy, and of inspiring the spirit of giving in our children. The donations we made will support a brighter environment for those young learners, but it was their smiles that gave us the greatest return.*

*Our Thanksgiving Night on 16th May was another special milestone — an evening of gratitude, laughter, and shared memories. As we watched our year unfold through the video, I felt immensely moved by how far we've come — not just in events delivered, but in the relationships we've nurtured.*

*It was truly heartening to see our club being recognised with two significant awards — one for our growth in membership and community outreach, and another for our sponsorship of the Abhividdhi Membership Seminar. These honors belong to each one of you — a testament to what we can achieve when we lead with conviction and collaborate with heart.*

*As we approach the close of this year, I remain committed to making this final month count — to giving one last meaningful push in honour of the vision we set out with: to build an equal tomorrow through service, fellowship, and lasting impact.*

*Thank you for your unwavering support, your belief in the journey, and for making this year so memorable.*

*Warm regards,*

**Suhel Goel**

*President, Rotary Club of Delhi Southend Next*

The visit was a heartwarming experience, offering a firsthand look at the incredible work being done to uplift education and infrastructure in underserved communities. Our club was proud to support the school's mission by making in-kind donations aimed at improving their infrastructure. From educational supplies to essential resources, every contribution was made with the vision of creating a better learning environment for the students. It was especially meaningful to have our members' children join the visit – fostering a spirit of community service and compassion across generations.
