## Editor's Desk

This is indeed the dawning of new era which will commence like all previous 64 years' performance of the club. In essence, the rising year will become effective provided the new members show little agility and dynamism to work under the leadership of President. Execution of good project is not possible if we meet, greet, eat and retreat. We all must have introspection to assess our strength and weakness. We have to have renewed sense of purpose to our service projects. All the club members feel involved and informed.

Editor : 2025 - 2026

## President's Corner

I pray to the almighty to shower His blessings on us and give us the wisdom and the will to initiate and complete some feasible projects beneficial to needy community around us.
