

Message from Club President 2025-26

Dear Fellow Rotarians,

As we step into the month of March, we are reminded of Rotary's vital focus on Water, Sanitation, and Hygiene—a cornerstone for building healthy and thriving communities.

Access to clean water is not just a necessity; it is a basic human right. Yet, millions across the world still struggle daily for safe drinking water and proper sanitation. This month calls upon us to reflect on our responsibility and renew our commitment to service. Through our collective efforts, Rotary continues to transform lives by bringing sustainable water solutions, improving hygiene practices, and restoring dignity to communities in need.

Let us use this month to:

- *Strengthen our ongoing service projects*
- *Initiate impactful water and sanitation drives*
- *Spread awareness about hygiene, especially among children*
- *Collaborate with partners to scale our outreach*

Every drop we help conserve, every hand we help educate, and every life we touch brings us closer to a healthier world.

Together, let us continue to live the spirit of Service Above Self and make a lasting difference.

Yours in Rotary Service,

Nabaneet Maitra

President, Rotary Club of Calcutta Endeavour

Message from Club Editor 2025-26

April as Environmental Month draws special significance from Earth Day, first celebrated on April 22, 1970. That moment sparked a powerful global movement, leading to major environmental legislation in the United States and inspiring nations worldwide to prioritize environmental protection.

Since then, Earth Day has become an annual reminder—not just of awareness, but of responsibility. It calls individuals, communities, and organizations to act decisively in preserving our planet.

Organizations like Rotary International have long been at the forefront of this effort.

Rotarians contribute meaningfully by:

Tackling climate change impacts that threaten ecosystems and food security

Combating pollution in air, water, and land

Promoting sustainable practices within communities

What sets Rotarians apart is their ability to connect—bringing together ideas, people, and resources to create practical, scalable solutions. Environmental stewardship isn't just a cause; it's a sustained commitment to safeguarding the future.

Yours in Rotary Service,

Rtn. PP Arkoprovo Ghose

Secretary Report February

- 1st March - essential goodies were distributed to the sex workers of Sonagachi as a part of Nabodisha project.

Aindri Mullick-Rotakid

Everywhere you turn, there's news about another record-breaking heatwave, melting ice caps, or entire forests just vanishing, and it feels like we're honestly just trashing our only home. It's super overwhelming, but I feel like my generation is finally waking up to the fact that we can't just sit around and wait for adults to fix it. To actually save the planet, we need to stop being so obsessed with "fast" everything—like fast fashion and single-use plastic—and start actually caring about where our stuff comes from and where it ends up. It's not just about one person going vegan or whatever; it's about pushing for actual systemic change, supporting brands that aren't toxic, and honestly just being loud enough that people in power have to listen. We have to start acting like there's no Plan B, because, well, there really isn't.

Rotakid Aindri Mullick speaks on environment on environmental month daughter of DGND Brotindro Mullick & Anne Sujata Mullick

Wedding Anniversary

22nd April - Samit & Maitrayee
27th April - Jayanta Kumar Mitra & Beauty Mitra

Birthday

10th April - Madhumita Sengupta
