## December is the month of Disease Prevention and Treatment on the Rotary Calendar

December is Rotary International Family Month with a focus on **Disease Prevention and Treatment**. Globally, Rotary is recognized for its signature project, the eradication of **Polio** in the world. But despite this progress, there are many other problems that our planet is facing. One of the greatest causes of death and disability in developing countries today is from water borne diseases resulting from lack of adequate water supply and improper sanitation. Rotary in its Water, Sanitation and Health (WASH) program is committedly working along with other organizations in finding practical and sustainable solutions to these problems. Rotary celebrates many successes along this line but as Rotarians, we cannot rest on our laurels. There is still much to be done and Rotary Club of Geetanjali is dedicatedly working for disease prevention and treatment through various health camps and the **Ek Chamach Kam Char Kadam Aage'** campaign, as also through their regular **Polio Awareness** drives in and around the city.

There were 3 RWMs this month on 2<sup>nd</sup>, 16<sup>th</sup> and 30<sup>th</sup> respectively and 1 Assembly on 30<sup>th</sup>, before the RWM. IPP Rtn Ashoka Chatterjee was thanked for updating RCC Presidents to District. A New Rotaract Club sponsored by RCGK was chartered by RI, which is a big achievement indeed. An Assembly was called on 30<sup>th</sup> at 7.30 pm where among many other issues, the issue of members' default was also discussed. It was decided that President Ela Majumder would speak to the defaulters over phone to understand their problem and decide future course of action. Rtn Dr. Sudipta Chandra proposed a Cancer Awareness Seminar with special emphasis on Breast and Cervical Cancer on the occasion of the 10th Sunderban Mahila Mangal Utsav 2021. The proposed date was 24th January 2021 Sunday and the venue, Korakati, North 24 Parganas. The members approved it and agreed to participate.
