### District Program Held

Over 500 people die each year from diarrhea as a result of unsafe drinking-water, sanitation, and hand hygiene. Safe drinking-water, sanitation and hygiene are crucial to human health and well-being. Safe WASH is not only a prerequisite to health, but contributes to livelihoods, school attendance and dignity and helps to create resilient communities living in healthy environments. Drinking unsafe water impairs health through illnesses such as diarrhea, and untreated excreta contaminates ground waters and surface waters used for drinking-water, irrigation, bathing and household purposes. Chemical contamination of water continues to pose a health burden, whether natural in origin such as arsenic and fluoride, or anthropogenic such as nitrate. Safe and sufficient WASH plays a key role in preventing numerous NTDs such as trachoma, soil-transmitted helminths and schistosomiasis. Diarrheal deaths as a result of inadequate WASH were reduced by half during the Millennium Development Goal (MDG) period (1990-2015), with the significant progress on water and sanitation provision playing a key role

A car & Bike Rally was organized by 6 clubs of Northern part of City on NID of 3<sup>rd</sup> March'24 to make aware people to keep INDIA Polio free. DGND Tapas Bhattacharyya flagged off the Rally at Sinthee more and was present all along till Barrackpore Administrative building. 5 car & 2 bikes from our club along with PP Rtn.
