## PRESIDENTIAL MUSINGS

Dear Fellow Rotarians and family members,

As we bid farewell to September, I'm thrilled to reflect on a month filled with achievements.

Together, we've successfully executed numerous community and education projects.

I'm delighted to congratulate our team on securing the runners-up

position at the recently concluded Zonal Cultural event.

Your dedication and teamwork are truly commendable!

Regarding our Rotaract Club formation, we've encountered a brief delay due to necessary formalities. However, I'm confident that we'll complete these requirements in October and launch our first-ever Rotaract Club soon.

In September, we had a productive month with four meetings, including: a business meeting, family dinner meet, speaker meet and a board meeting.

Looking ahead, we've charted an ambitious course with several projects across various Rotary avenues. I'm confident that, together, we'll achieve our goals and continue to make a meaningful difference in our community.

Thank you for your enduring support and commitment.

Best regards,

**Rtn PHF Sathyajith Rao, President**

# ROTARY INFORMATION

## ROTARY LIMITS THE TERMS OF ITS LEADERS

Rotary limits the terms of its leaders to one year for several key reasons.

This policy encourages renewal and innovation by ensuring a regular rotation of leaders, bringing fresh ideas and perspectives.

It promotes leadership development, offering more members the opportunity to gain and exercise leadership skills, thus enhancing the overall leadership capacity of the club.

Limiting terms also ensures equity and inclusivity, preventing power and responsibilities from becoming concentrated in a few individuals' hands and allowing broader member participation.

Additionally, one-year terms foster accountability and dynamism, motivating leaders to work efficiently and focus on their goals within a limited timeframe.

This approach also helps prevent burnout, as leadership roles can be demanding, and shorter terms help maintain high levels of motivation and engagement.

These principles enable Rotary to remain a dynamic, inclusive, and innovative organization, capable of adapting to change and effectively serving its members and communities.

## OCTOBER- COMMUNITY ECONOMIC DEVELOPMENT MONTH

The work of Rotary begins in the community, and every community has its own unique needs and concerns. While we serve in countless ways, we've focused our efforts in seven key areas to maximize our impact. These areas encompass some of the world's most critical and widespread humanitarian needs. Rotary members planning new service projects are encouraged to consider these areas and the many opportunities for innovative projects within them. Rotary International and **The Rotary Foundation** have adopted **seven areas of focus** as organizational priorities and Economic and Community development is one among them.

Rotary Clubs all over the world help communities and people in other countries with projects that aim to provide sustainable ongoing development and help, not just immediate charity.

The Rotary Foundation also enables Rotarians to invest in people by creating sustainable, measurable and long term economic improvements in their communities and livelihoods by :

- Building the capacity of entrepreneurs, community leaders, local organizations, and community networks to support economic development in impoverished communities;
- Developing opportunities for productive work;
- Reducing poverty in under-served communities; and
- Supporting studies for career-minded professionals related to economic and community development.

## **STARTING PAY PACKAGE**

Reaching the end of a job interview, the Human Resources Officer asks a young engineer fresh out of the Engineering college,

"And what starting salary are you looking for?"

The engineer replies, "In the region of Rs.1,00,00,000/- a year, depending on the benefits package."

The interviewer inquires, "Well, what would you say to a package of five weeks vacation, 14 paid holidays, full medical and dental, company matching retirement fund to 50% of salary, and a company car leased every two years, say, a Mercedes Benz?"

The engineer sits up straight and says, "Wow! Are you kidding?"

The interviewer replies, "Yeah, but you started it."
