Swathi Homoeopathic Clinic
Alake, Mangaluru - 575003

Established in 1991

Rotary makes high-quality health care available to vulnerable mothers and children so they can live longer and grow stronger.

We expand access to quality care, so mothers and children everywhere can have the same opportunities for a healthy future. An estimated 5.9 million children under the age of five die each year because of malnutrition, inadequate health care, and poor sanitation - all of which can be prevented.

HOW ROTARY MAKES HELP HAPPEN

Rotary provides education, immunizations, birth kits, and mobile health clinics. Women are taught how to prevent mother-to-infant HIV transmission, how to breast-feed, and how to protect themselves and their children from disease.

OUR IMPACT ON THE LIVES OF MOTHERS AND CHILDREN

The Rotary Foundation reaches mothers and children in need by giving communities the help and training they need to take control of their own maternal and infant health care.

ROTARY MAKES AMAZING THINGS HAPPEN, like:

Haiti has the highest maternal and infant mortality rate of any country in the western hemisphere. Rotary provided a fully equipped medical Jeep to volunteers and midwives to reach mothers and children in remote areas.

Cancer screening

Rotarians provided a mobile cancer screening unit and awareness trainings around Chennai, India, where there is a high mortality rate of women with breast and cervical cancer due to late diagnosis.

Preventing injuries and deaths

Rotary members launched a \$3 million, five-year pilot to save lives of mothers and children during home deliveries in Nigeria. Since 2005, they've also repaired 1,500 obstetric fistulas - 500 more than their initial goal - restoring dignity and hope to vulnerable mothers.
