Issue No.09

Date: 02. 09. 2025

**Special Welcome to
Today's Honorable Chief Guest**

DR. M. JAYAKARA BHANDARY

M. Jayakara Bhandary holds M.Sc. (1992), M. Phil.(1996), and Ph.D. degrees from Mangalore University in the subject of Applied Botany. After an initial career in research as a Junior

Research Fellow (1992-94) and Senior Research Fellow (1994-96) of CSIR, DST, Government of India, he joined the Department of Collegiate Education, Government of Karnataka, as a Lecturer in Botany (1996). currently is serving as Professor of Botany & Principal at Dr. P. Dayananda Pai-P. Sathish Pai Government First Grade College, Carstreet, Mangalore. Earlier, he served as a faculty of botany at St. Aloysius College, Mangalore, and Government Arts and Science College, Karwar, an autonomous institution.

As an academic administrator, he has served as Examination Controller of Govt. College, Karwar, and Academic Special Officer, Office of Joint Director, DCE, Mangalore. As principal of Carstreet Govt. College, he has played a leading role in steering the institution to obtain A Grade accreditation by NAAC.

He has also authored books related to biology, botany, environmental studies, and communication skills, and translated a book on biodiversity written by the internationally known ecologist Prof. Madhav Gadgil. In addition, he has published more than 150 popular science articles and delivered about 60 invited talks on various topics related to biodiversity and environmental issues.

He has worked as the expert member of the Karnataka State Biodiversity Board (2016-19) and the Western Ghats Task Force, Government of Karnataka (2016-18). He is also a trained HRD facilitator and trainer.

Proceedings of the Handing-Over Ceremony of GYNEC-ONCO Surgical Instruments Lady Goschen Government Hospital, Mangalore - August 26, 2025

The Rotary Club of Mangalore North, in collaboration with the Rotary Club of Auburn Hills (RI District 6380), organized a handing-over ceremony for GYNEC-ONCO surgical instruments under Global Grant #2576053. The event took place at the Yoga Hall of Lady Goschen Government Hospital on August 26, 2025.

The ceremony was inaugurated by the chief guest, Captain Brijesh Chowta, Hon'ble Member of Parliament, Government of India. In his address, he commended the Rotary Club's efforts in securing the global grant worth US \$ 35994 and utilizing it for the noble cause of supporting patients at government hospitals. He emphasized that this initiative would enable underprivileged individuals to receive free treatment, which would otherwise cost lakhs in private hospitals. He congratulated both current and former club presidents and office bearers for their dedication in bringing this project to fruition. Distinguished guests of honor included

- Rtn. Vikram Datta, Immediate Past District Governor
- Rtn. PDG Ranganath Bhat M, District Rotary Foundation Chairman
- Rtn. PDG K. Krishna Shetty, Asst Regional Rotary Foundation Coordinator, RI Zone-2
- Rtn. CA Shantharam Shetty, Assistant Governor, Zone-2, RI District 3181

Also present were Dr. Durgaprasad, Medical Superintendent; Dr. Jagadeesh, RMO; and Dr. Shradda, Head of the Department of ONCO Surgery.

They expressed their appreciation for the club's efforts in securing the grant, highlighting its significance in easing the financial burden of patients seeking free treatment at government hospitals.

Rtn. Dr. Shivaprasad K, primary host contact for Global Grant #2576053, shared insights into the extensive efforts undertaken to bring the grant to the host club and realize the vision of equipping the hospital with GYNEC-ONCO surgical instruments for the benefit of the people of Mangalore.

Club President Rtn. Dr. M.S. Arun Kumar Shetty extended a warm welcome to the chief guest, guests of honor, hospital officials, special invitees, Rotarians, Anns, and Annets in attendance. Rtn. Mohan Nair, Immediate Past President, who initiated the proposal for the Global Grant during his tenure, was also present.

The program commenced with the Nadageethe. The vote of thanks was delivered by the staff of Lady Goschen Hospital.

The event was well-attended by members of various Rotary clubs, special invitees, Anns, and Annets.

Gynecologic oncology surgical instruments:

Gynecologic oncology surgical instruments are specialized tools for the diagnosis and treatment of cancers in the female reproductive system, including ovarian, cervical, and uterine cancers. These instruments are used in procedures like laparoscopy, hysteroscopy, and colposcopy to perform biopsies and removal of cancerous tumors. Key examples include scalpels for incisions, forceps for grasping and holding tissue, speculums for viewing the cervix, dilators to widen openings, and various specialized retractors for deep pelvis access and holding tissue. Modern advances include robotic-assisted surgery and minimally invasive instruments to enhance precision, minimize trauma, and promote faster patient recovery.

Common Gynecologic Oncology Instruments & Their Uses

- **Speculums and Dilators:** Used to access and visualize the cervix, allowing for examinations, biopsies, and dilation of the cervical canal for procedures like a dilation and curettage (D&C).
- **Forceps and Clamps:** Essential for grasping, stabilizing, and holding tissue and organs during surgery, such as the cervix during a procedure or to manipulate uterine or ovarian tissue.
- **Scalpels and Dissecting Instruments:** Used for making precise incisions in the skin, fascia, and other tissues.
- **Specialized Scissors:** Designed for cutting dense tissues and sutures during intricate procedures.
- **Tenacula:** Instruments for stabilizing the cervix during procedures.
- **Robotic and Laparoscopic Instruments:** These tools allow for minimally invasive approaches to remove tumors from organs like the uterus or ovaries, offering greater precision and smaller incisions than traditional open surgery.
- **Retractors:** Used to hold back layers of tissue and organs to provide a clear view and access to the surgical site, especially in the deep pelvis.
- **Specialized Systems:** Instrument systems like the Thompson GYN Oncology System are designed with features to hold retractors and position the patient effectively for deep pelvic procedures.

Key Applications

- **Cancer Diagnosis:** Instruments are used in colposcopy and biopsies to detect and diagnose cancers of the cervix, ovaries, and uterus.
- **Tumor Removal:** Procedures like hysterectomy (removal of the uterus) or oophorectomy (removal of ovaries) are performed to treat various gynecologic cancers.
- **Minimally Invasive Surgery:** Laparoscopic and robotic instruments are widely used to perform complex oncologic procedures with minimal trauma, reduced recovery time, and smaller scars.

Proceedings of the Rotary Club Weekly Meeting - August 19, 2025

Theme: Sustaining Vibrant Club Culture

Welcome: Club President Rtn. Dr. M.S. Arun Kumar Shetty warmly welcomed the chief guest, fellow Rotarians, Anns, Annets, guests, and invitees.

Presentation Summary: The chief guest, Rtn. PDG RanganathBhat, delivered a thought-provoking presentation on Sustaining Vibrant Club Culture. He emphasized the importance of attracting and retaining members by cultivating a strong club culture, offering meaningful experiences, and actively engaging members.

Key points included:

- Fostering a welcoming environment that encourages friendship and service.
- Ensuring members feel valued, heard, and connected.
- Providing opportunities for personal growth, leadership development, and community involvement.
- Recognizing member achievements and maintaining a positive, enjoyable atmosphere.
- Inviting potential members to meetings, service projects, and social events to experience Rotary firsthand.
- Supporting skill development and leadership growth among members.
- Conducting regular surveys to understand member needs and preferences, and adjusting programs accordingly.
- Using clear, concise language and effective visuals to communicate Rotary's mission.
- Conducting regular assessments to ensure relevance and engagement.

Rotary International is innovating through new club models, membership initiatives, and technology to attract younger and more diverse members, enhance engagement, and expand global reach. A Rotary Club President's action plan focuses on impact, reach, engagement, and adaptability-setting annual goals aligned with long-term plans and involving members in meaningful projects.

Benefits of Joining Rotary International:

- Opportunities for personal and professional growth.
- Leadership development and networking with diverse professionals.
- Platforms for community service and global initiatives.
- Skill enhancement in public speaking, event planning, and project management.
- Promotion of ethical conduct in personal and professional life.
