ROTARY INFORMATION

ROTARY PINS: WEAR THEM WITH PRIDE!

Our Rotary theme logos used as designs in our Rotary theme pins for each year symbolizes our Rotary Core Values in picture; of who we are and what we do as Rotarians. Let us wear our Rotary pins with pride. It is not only a product of the mind of our leaders in the year of their term of Rotary service, but also the heart for service that goes with it of the Rotarians both in friendship, fellowship and service that Rotary Connects together to Grow Rotary as they deliver the humanitarian services to the community where it is needed most.

PROGRAMMES OF SCALE GRANTS OF THE ROTARY FOUNDATION :

Programmes of scale grants are competitive grants that will benefit a large number of people in a significant geographic area using a sustainable, evidence-based intervention. They're designed to respond to a need that the community has identified and will have measurable outcomes and impact. Each grant will support, for three to five years, activities that align with one or more of Rotary's areas of focus. Cadre members will play an active role in this initiative and will help the Foundation evaluate the programmes.

The Rotary Foundation will award one grant each year in a process that requires a proposal and an application. Applicants will be asked to include a fully developed and highly sophisticated project design, as well as include baseline data and plans for monitoring and evaluation. The project should involve activities that have proved to be successful elsewhere. The clubs or districts with the strongest proposals will be invited to submit applications, which will include comprehensive details about the project.

The programme will launch this month and the Trustees will award the first grant in October or November 2020. Send your questions to grants@rotary.org. -- PP Reza Karim, TRF Cadre Advisor of Rotary International
