President's Desk

Rtn. Narendra Srisrimal

Dear RCMT Family,

March was a momentous month for our club, marked by the District Conference—a grand celebration of Rotary's spirit and service. I take immense pride in sharing that RCMT achieved a remarkable feat with 100% registration for the conference, setting a new benchmark.

At the conference, history was made once again! As your President, I have personally contributed over \$100,000, attaining Major Donor Level 4—a first in RCMT's legacy. Furthermore, I have pledged to become an Arch Klumph Society (AKS) member, yet another milestone for our club.

Our commitment to giving was further reinforced by:

- Rtn. Vijay Seth and Rtn. Ravi Venkatraman achieving Major Donor Level 2.
- Rtn. Pankaj Davey, Rtn. Rajesh Bhansali, Rtn. Manisha Chordia, Rtn. Dilip Chandan, Rtn. Suresh Sancheti, and Rtn. Jayanthilal Challani attaining Major Donor Level 1.

Notably, five of these distinguished contributors are also Green Rotarians, strengthening our club's vision of sustainable service.

March also witnessed the resounding success of the RCMT Olympiad, where all seven streams saw enthusiastic participation, culminating in a grand valedictory function that celebrated excellence and camaraderie.

Adding to the vibrancy of the month, we commemorated Women's Day in style. The presence of Bollywood celebrity and fitness icon Ms. Shilpa Shetty as our Guest Speaker elevated the occasion, as she shared invaluable insights on wellness and fitness.

None of these milestones would have been possible without the unwavering dedication of my Board and the active participation of our incredible members. Your passion and commitment continue to define the essence of RCMT.

As Helen Keller once said, "Alone, we can do so little; together, we can do so much." Let's continue this incredible journey of service and impact, creating a legacy that inspires generations to come.

Yours in Rotary,

Rtn. Narendra Srisrimal

President, RCMT

Dear Friends,

March: Water, Sanitation, and Hygiene Month

Over 750 million people worldwide lack access to safe drinking water, and more than 2.5 billion people live without adequate sanitation facilities. Every day, at least 3,000 children die from diarrheal diseases caused by unsafe water. In many rural areas, access to clean drinking water remains a significant challenge.

It is crucial to educate our children about the importance of natural resources, especially water, and encourage them to use it responsibly. This month, our PP Rtn. Kavitha Shankar shared her insights on this pressing issue and highlighted how our club has taken steps to address it.

Warm regards,

Rtn. Shanthala Sathya

A Memorable and Inspiring Evening with Shilpa Shetty

March
11th

The Women's Day celebration on March 11th was truly extraordinary, graced by the presence of the renowned Bollywood star and fitness icon, Shilpa Shetty, as our esteemed guest speaker. Shilpa captivated the audience with her insightful discourse on wellness and mindful eating, emphasizing that good health is in our hands. She stressed the importance of making conscious food choices, highlighting the nutritional richness of traditional Indian cuisine from past generations, which contributed to strength and vitality.

In contrast, she cautioned against the growing dependence on processed foods, aerated drinks, and Western fast food, identifying them as major contributors to modern health issues like obesity. Her advice was simple yet profound: “Eat early, eat mindfully, and allow your body the time it needs to digest.” With her signature grace and authenticity, Shilpa shared wisdom from her multifaceted life as an actor, entrepreneur, mother, and yoga enthusiast, leaving the audience spellbound. Her insights resonated deeply, inspiring everyone present.

The event was a resounding success, drawing an enthusiastic crowd not only from the RCMT family but also from several Presidents of other Rotary clubs, all of whom were equally inspired by her words. As Shilpa aptly put it, “Health is a state of body, wellness is a state of being.” This celebration served as a powerful reminder that true wellness stems from the daily choices we make. The evening, held at GRT Grand Hotel, concluded with an engaging interactive session, followed by a warm fellowship and dinner. Special appreciation goes to President Rtn. Narendra Srisimal, Club Service Director Rtn. Pp Meenakshi Pk, Club Secretary Rtn. Dr. Poornima Karthik, and whose dedication and efforts made this event even more vibrant and memorable.

WATER, SANITATION & HYGIENE

One of the most important Focus areas of Rotary International is providing clean water, sanitation and hygiene (WASH) and the Month of March is designated for the same. Rotary aims to improve the public health through sustainable projects that address these critical needs. Water sanitation projects are essential for Public health, economic growth and environmental sustainability. By providing access to clean water and proper sanitation facilities, these projects prevent waterborne diseases like cholera and typhoid which disproportionately affect vulnerable populations, especially children. The Rotary clubs take on various initiatives across communities to provide access to clean drinking water. RO plants are installed and maintained at various Govt. schools, colleges and hospitals and communities which lack these facilities. To provide adequate sanitation facilities, toilet blocks are built in schools for the students with sufficient water resources which is very important to maintain the children's health and also acts as a reason to improve the attendance. Improved sanitation improves overall health and leads to the development of the children. To inculcate the Hygiene aspect among children, Wash stations are being set up at schools and colleges. Various awareness programs are being conducted by the clubs highlighting the importance of handwashing to prevent the spread of waterborne diseases.

Adhering to the Focus area and understanding that access to clean water and sanitation is a basic human right, through the years RCMT in its own way has initiated several sustainable WASH projects. Under their leadership of different Presidents, alongside other Projects, they have also installed RO water plants and built Toilet blocks and creating awareness among students regarding WASH in different schools. We hope to carry forward these important projects with every passing year, more effectively and efficiently.

PP Rtn. Kavitha Shankar
