

FROM THE

EDITOR DESK..

August was membership and club development month, a time to focus on and appreciate members, celebrate their devotion to the club and the impact they have made. It's also a time to think about developing strategies around growing your membership. At present membership strength of our club is 52. Couple of years back average age of our members was above 60. But with steady inflow of young members over the years the average of the members have been brought down appreciably. The club is now bubbling with energetic youthful members. Every club President should evolve ways and means to engage the members.

A January address to incoming district governors before the International Assembly, Jennifer Jones, then RI's president-elect, told the story of a 30-year Rotarian who fully understood what Rotary was all about only after participating in a project that delivered coats to children in his community. "Imagine," said Jones, "more than 1,500 club meetings before he finally got Rotary." "The fault, suggested Jones, wasn't entirely his. "We must engage our members," she insisted. Ask members what they want out of the experience and provide them meaningful responsibilities. "It's our offer of hands-on service, personal growth, leadership development, and lifelong friendships that create purpose and passion. These are our responsibilities. If we don't serve our members, we don't serve our communities. And if we don't provide comfort and care for our members, they may never truly get the power of Rotary."

Long Live Rotary
