Very Good Evening Rotarians,

September is the Rotary's Basic Education and Literacy Month, which inspires us to promote literacy, support education and empower communities to achieve success. Rotary's initiatives in this area aim to improve Adult Literacy, ensure children receive education, and support communities by providing resources, books, digital supports in education and other essentials to achieve the goal.

The programmes in this month are designed to strengthen communities' abilities to support and maintain basic education and literacy projects. The endeavour is taken to reduce gender disparity by helping girls and women to equal access to learning opportunities.

The members of community who have grown adult and somehow have fallen behind and have missed the opportunity to be educated, are covered under the programme of Adult Literacy. This part of community service is designed to help adult illiterates enter into the main stream of the active and advance life so that they can take up the course of keeping pace with the modern strides in all spheres of active life.

The Programmes in this month are inclusive in nature. Initiatives are taken to involve fund raising, volunteering, and synchronising expertises to support projects developed by other Clubs. The aim is to reduce poverty, improve health, encourage economic growth, impart skills to achieve success in personal and professional lives. AND ultimately foster community development towards a more peaceful world.
