## Editorial

Very Good Evening Rotarians,

This Rotary month stands dedicated to the object of “Economic and Community Development” which is also one of the Seven Areas of Focus.

The work of Rotary begins in the community and every community has its own unique needs and concerns. Desmond Tutu once said “Do your little bit of good where you are; it is those little bits of good put together that overwhelm the world”.

Festivals play a significant role in community development by fostering social bondings, promoting local culture, and encouraging civic pride. They bring people together, creating opportunities for social interactions, collaboration, and shared experiences that strengthen community bonds.

There is ample opportunity to provide a platform for local vendors to showcase their products along side the festive attractions to the tourists to boost the local businesses and create temporary jobs. The cultural understanding promotes diversity and inclusion, enhances mental well being, builds community spirit, spreads awareness about local history and heritage. It also promotes multi-cultural foods and arts, and showcasing of the local cultural talent extravaganza.

Its biggest gain is social cohesion, inclusivity, strengthening of community identity, fostering community engagement, and promoting cultural exchange. This Rotary October Month in India provides best platform for individuals too, to connect with others, celebrate cultural diversity and explore cultural and economic avenues as well.
