Very Good Evening Rotarians,

Rotary International's End Polio Campaign, launched through its Polio Plus Programme in 1985, has been a cornerstone of Global Health Efforts, aiming to eradicate polio worldwide.

Riding on supports of partners, the Bill & Melinda Gates Foundation, the World Health Organisation, UNICEF, and the US Centers for Disease Control and Prevention, Rotary has made significant strides in reducing polio cases by over 99.9% since 1988.

The partnership has resulted in active immunisation of over 2.5 billion children in 122 countries, bringing the world closure to achieving a polio free future. Despite challenges, including fund cuts and fragile health systems, Rotary remains committed to achieve goal of polio free world.

As the world observes World Polio Day on October 24, 2025, Rotarians and partners worldwide are urged to recommit to the promise of a polio free world, emphasizing the need for sustained efforts and funding to finally eradicate this debilitating disease.
