Editorial

Very Good Evening Rotarians,

We observed “World Disability Day” on 03rd December, 2025. Global theme for “World Disability Day” was “Fostering Disability inclusive Societies for Advancing Social Progress”, which aimed to reaffirm the commitment to create more just, inclusive, equitable, and sustainable world for all.

People with disabilities often face significant barriers in accessing healthcare, education, and employment opportunities, which can exacerbate their disability and limit their participation in community life. Remedial concerns for their rehabilitation within the community include providing accessible infrastructures, healthcare services, and social support. This can involve modifying homes, public spaces, and transportation systems to make them easy accessibility, as well as providing assistive devices and technologies to enable individuals with disabilities to participate fully in community life.

Community-based rehabilitation (CBR) programmes can play a crucial role in addressing the remedial concerns of people with disabilities. CBR programmes play crucial role in addressing remedial concerns of persons with disabilities. These programmes involve training community members to provide support and services to individuals with disabilities, promoting inclusion and participation in community activities. These programmes can help to identify and address the specific needs of the individuals with disabilities, providing targeted support and services to enable them to reach their full potential. By empowering individuals with disabilities and promoting their participation in community life their inclusion can be achieved.

Rtn. Dr. Sujan Sarkar
Secretary 2025-26

Effective rehabilitation within community also requires a multi-disciplinary approach, involving healthcare professionals, social workers, educators and community leaders. This can involve providing medical treatment and therapy, as well as social and emotional support to individuals with disabilities and their families. By working together, community members and service providers can help individuals with disabilities to overcome the barriers they face and achieve their goals, promoting greater independence, participation and inclusion in community life.

Proceedings of 3307th Regular Weekly Meeting of Rotary Club of Burdwan held on 27.11.2025 at 6.30 p.m. at Rotary Bhaban, Borehat, Burdwan.
