## Editorial

Good Evening Rotarians,

The vocational service is the intergral part of Rotary's areas of focus. The control group of this area of focus encompasses persons of age 1day to known living age. Different age group has different need , adaptive capacity, and necessity to master vocational service in his or her life. The beginning is, of course, made at young age.

Our Club has been in the role of pioneer in this field through permanent project named "Shilpi Mondal Memorial Painting Competition" where large number of participants from numerous institutions take part ranging from UKG to Eighth standard. They are provided with drawing, painting materials and are well taken care of their appropriate tiffins to keep them energized through out the programme. Later the winners are honoured with prizes at our club to encourage and elevate their spirit. Today the 44th chapter of the prize award ceremony will take place in our club premises.

The engagement of children in art practices opens the real vista of overall development. When children draw, paint, sculpt, or create, they are not just making pretty pictures but they are actually developing crucial fine motor skills. The sensory experience of different colours, textures and materials stimulate their senses and helps them understand the world around them in a more tangible way. It's a safe space to explore emotions. Process experiences and even deal with stress. It boosts creativity and imagination, allowing them to think out of box and come up with unique solution, fostering innovation from very young age.

It helps them to see that there are many ways to approach a task and their individual contributions can create something amazing together, laying a foundation for collaborative efforts in the imminent future.

Proceedings of 3317th Regular Weekly Meeting of Rotary Club of Burdwan held on 05.02.2026 at 6.30 p.m. at Rotary Bhaban, Borehat, Burdwan.
