## ROTARY CLUB OF ASANSOL GREATER

R I DISTRICT 3240, CLUB NO. 27640, ASANSOL (W.B.), INDIA

### October: Area of Focus: Economic and Community Development

#### EDITORIAL:

Month of October is a festive month and we celebrate most of our important festivals in this month.

I wish HAPPY BIJOYA, HAPPY DEEPABALI and HAPPY CHHAT to all our members and their families.

Rotary has rightly designated different months to help clubs Develop meeting agendas, projects, or plan their activities accordingly.

The Area of Focus for the month of October has been emphasized on Economic and Community Development by Rotary International.

We are Rotarians and we are committed to our society, to the underprivileged. Community Development is one of our main Aim and development of underprivileged is our Area of focus.

We promote economic and community development and reduce poverty in underprivileged communities through training, well-paying jobs, and access to financial management institutions.

The Rotary Foundation enables Rotarians to invest in people by creating sustainable, measurable and long-term economic improvements in their communities and livelihoods.

24th October was the World Polio Day. Our country has been declared Polio Free, but our efforts need to be continued to make the World Polio Free. We need to aware people of our aim.

By the combined efforts of we all, we are sure, one day, Polio will remain in History books only.

**President: Rtn Sachindra Nath Roy**

**Secretary: B.R Dasgupta**

# Economic and Community Development

Economic and community development is one of Rotary's Areas of Focus.

Unemployment, underemployment, lack of economic opportunity, lack of appropriate training, and the absence of social safety nets lie at the core of poverty. For the poor, labor is often the only asset available to improve well-being. Creating productive employment opportunities is essential for reducing poverty and achieving sustainable economic and social development, and for providing income security and empowerment especially for women, people with disabilities, youth, and the extremely poor.1 Like education and health strategies, generating income and creating opportunities for a productive workforce and entrepreneurship are essential for reducing poverty.
