## 50 Things Every Rotarian Should Know About Rotary

**12 - WORLD UNDERSTANDING MONTH** - The month of February is very special in the Rotary calendar since it is designated World Understanding Month. The month also includes the anniversary of the first meeting of Rotary held on February 23, 1905, now designated World Understanding and Peace Day. In designating World Understanding Month, the Rotary International board asks all Rotary clubs to plan programs for their weekly meeting and undertake special activities to emphasize "understanding and goodwill as essential for world peace." To observe this designated month, many clubs arrange international speakers, invite youth exchange students and international scholars from schools and universities to club meetings, plan programs featuring former Group Study Exchange team members, arrange discussions on international issues, present entertainment with an international cultural or artistic theme and schedule other programs with an international emphasis. Many clubs take the opportunity to launch an international community service activity or make contact with a Rotary club in another country. It is a good month to initiate a Rotary Fellowship Exchange, a 3-H project or encourage support for PolioPlus and other Rotary Foundation programs. World Understanding Month is a chance for every club to pause, plan and promote the Fourth Avenue of Service-Rotary's continued quest for goodwill, peace and understanding among people of the world.

## ❖ The “Magic” Corner ❖

### *Vasant Panchami*

*It is springtime once again. Or nearly so. A magical season when one can't exactly decide whether it is summer or winter and which can involve anything from deep blue skies and blazing sunshine to an overcast sky with biting wind, some reluctant rain or a freak dust storm—often all in the same day.*

*Vasant Panchami on the fifth day of spring is tomorrow and Saraswati, the goddess of learning, wisdom, knowledge, music, fine arts, refinement, science and technology will be among us. Pristine and pure, dressed in white, Saraswati will be alluring with a Veena and a Swan. Students— from nine to ninety- will offer Pushpanjali to attain enlightenment through knowledge and seek her blessings to rid themselves of lethargy, sluggishness and ignorance. Celebrants will wear yellow generally, perhaps related to the bloom of mustard flowers during this time.*

*Vasant or spring symbolises fertility and bounty, Mango trees laden with buds look beatific. It's the time of birds and bees. Love is in the air at such times. To the youth and students, love becomes a compulsory subject. Other subjects become optional. Nobody really minds if the Pushpanjali flowers change trajectory and lands on someone's hair instead of the goddess's feet. None disciplinary shackles are a little loose that day and the exact time to say what one always wanted to say to the person one fancied.*

*For the special students of S.D.S., Saraswati Puja won't just be worshipping the Devi with flowers and reciting Stotras. Little girls will wear Lipstick and Sarees – most often borrowed from their mothers – for the first time, and will try hard to look older than they are. The boys will strut about in the latest fashioned shirts with collars turned up for effect. All will be ecstatic with happiness, running, laughing and freely conversing with their friends. But all will be non-verbal, expressions would be through rapid movements of the hands and fingers and facial gestures.*

*We will see them and share a meal with them and realise that after all, it doesn't need much to be happy.*
