RI president message

President 2025-26

April 2026

Not long ago, in a small health center in the village of Aaye in southwest Nigeria, a woman arrived in labor carrying twins. The facility was short-staffed. The nurse midwife in charge was not present.

A community health worker stepped forward. She had participated in Together for Healthy Families in Nigeria, a Rotary Foundation Programs of Scale initiative. And though she was not formally trained as a midwife, she was equipped with essential emergency obstetric skills.

Hours later, both babies had been delivered, one at the health center and the other at a general hospital, where the mother had been referred after complications were quickly identified. The newborns and their mother were alive and safe.

Women around the world face similar circumstances every day — moments when the difference between life and loss depends on well-trained medical staff and reliable systems and procedures.

Together for Healthy Families in Nigeria exists to increase the chances that those moments end in hope. By strengthening health systems and training frontline workers, this program helps communities protect mothers and children even when circumstances are difficult.

This work reflects the very heart of Rotary service. Service is not only what we do when conditions are ideal. It is what we do when systems are strained, resources are limited, and the need is urgent. It is the commitment to prepare people before a crisis arrives and to stand with communities when it does.

Maternal and child health is not an abstract goal. It is deeply personal. It is a mother who survives childbirth. It is a newborn who takes a first breath. It is a family that remains whole because someone was trained, ready, and cared enough to act. Rotary understands that service means investing in people and systems long before they are tested.

Programs like Together for Healthy Families in Nigeria show what is possible when Rotary brings together local knowledge, global partnerships, and sustainable solutions. By working alongside health professionals and local leaders, Rotary helps ensure that lifesaving care does not depend on luck or location.

The story of the mother and her twins is at its core a story of service. It is a reminder that Rotary's impact is measured in human moments when people step forward to help others in their most vulnerable hours.

When we Unite for Good, service becomes more than an ideal. It becomes a lifeline for families, a source of strength for communities, and a promise that Rotary will continue to go wherever help is needed most.

2025-26

Fellow Rotarians and friends,

April reminds us that the future of our world is cradled in the arms of mothers and in the hopeful eyes of children. As Rotary focuses this month on Maternal and Child Health, we are called to strengthen the most fundamental bond of all that of a healthy mother and a thriving child-so that every family can dream without fear and grow with dignity.

Around the world, Rotary has shown that simple, timely interventions save lives access to safe deliveries, essential nutrition, routine immunization, and education for caregivers. In our own district, I am proud of the quiet but powerful work Rotary has been doing from supporting antenatal check-up camps and anaemia screening, to providing newborn care kits, breastfeeding counselling, and ensuring children complete their vaccination schedules. Each intervention may seem small, but for one mother, one child, it can mean the difference between loss and life, between despair and hope. This month, urge every club to look again at the needs of mothers and children in their own neighborhoods.

Partner with local health centres, ASHA workers, paediatricians, gynaecologists, and NGOs. Strengthen government programmes through last-mile support. Adopt anganwadis and primary health centres to improve infrastructure, sanitation, and health education, Involve Rotaractors and Interactors as ambassadors of awareness, taking messages on nutrition, menstrual health, and hygiene into communities. Let us also remember that care goes beyond the first thousand days

Children need safe water, a clean environment, mental well-being, and opportunities to learn and play. When Rotary serves the mother, serve the entire family. When we protect the child, we protect our shared tomorrow

Together, let us make April a month where every project, every partnership, and every act of service moves us closer to a world where no mother is left alone and no child is left behind.

Rtn. Namrata

(District Governor 2025-26) Rotary International District 3250

### From President's Desk

Greetings to all fellow Rotarians,

I guess all of you observed the festival of colours Holi with your family and friends. According to the Hindi calendar, it also marked the beginning of the New Year. My best wishes to you and your family. Monthly theme for the month of April is Environment. We have plan two seminars at college & school & Water Harvesting system at School. Our permanent projects as Monthly Blood Donation camp & Monthly Distribution of Nutrition food packets to TB Patients at TB Centre at Sadar hospital running very successfully. As always the team work displayed in all programs was marvellous. I feel to be privileged to be part of the team of the RC Chaibasa. Special thanks to all my team members who always co-operated with me.

Thanks

President

Rtn. Vikash Dodrajka

From Editor Desk

Hello Friends

In the month of Environment, we will see this theme running through on the Page. Our Rotarians worked on projects related to the environment. As we invited an environmental speaker at club meeting. Supplier the environmental products, create awareness in the club meeting in environment topics. I would like to thanks secretary Rtn. Heena Thakker, who always co-operated with me. I always appreciate your feedback and suggestions. Every page of Bulletin designed according to the theme of the month. I hope you will enjoy & appreciate my efforts. I thank all members who read my bulletin patiently.

Thanks

Editor

# Secretary Report

Rtn. Heena Thakker

Meeting called to order by president minutes of last meeting read confirmed.

1, discussion on bus stand water project, house was briefed about the development.

House discussed about the participation in PELS SELS to be held at lucknow from 16 to 18 April 2026.

Discussion was held about TRF.

1 min silence was observed by the house on the demise of the father of Rtn Nilesh Dodrajka.

Rtn. Anil Sharma said that this time there should be a project on environment and it was decided that we will organize a seminar in Scott school on 11th.

The responsibility of conducting this seminar was given to Amit Poddar.

Rtn Shery Sao received a letter of appreciation for donating his book Chanakya to Xavier School. All the members congratulated him for his big achievements.

Rtn Anil Sharma and Rtn. Kavita Sharma will attend the PEI SEL at lacknow on 26th April

The president explained that a seminar on the environment was held recently at Scott School, with Anil Sharma as the speaker. It was very successful

The President said that a permission letter had to be submitted for the water project..

A proposal was made in the meeting that in every meeting, members can give a speech for 10 minutes on any subject and this was approved by all the members. Mahesh Khatri suggested that a seminar on Plastic Ben should be held.

The President said that we have to go to talk to Rtn. B. L Nevatia for the painting competition and this program has to be done by the end of April.

There was also discussion about installing A Rotary emblem in the meeting.

Fruit Distribution Program in Nutrition food packets Distribution Program is planned for next week.

Meeting adjourned with greetings to RI
