EDITORIAL

Dear Friend in Rotary,

Happy Rotary greetings to all of you.

Friends, our club has decided to publish one hard copy issue of KONARK in every month for which writing an

editorial has become mandatory. Few years before our club had a unique distinction of publishing club bulletin every week. I personally observed members were waiting for the club bulletin KONARK to arrive in the club during every weekly meeting. Unfortunately, those members who could not attend due to their busy preoccupied schedule, the bulletin were sent to their house with the remark "We missed your fellowship on (date), please attend the next club meeting on such and such date". This message was not an ordinary message but it was touching to the heart of absentee Rotarians and during those days the attendance in weekly club meetings were not that poor as it is seen now-a-days. Has any old member or present existing member thought over it. Where we are lacking? Is it poor leadership / lack of fellow feeling / lack of attractive programmes or improper selection of club members just to increase membership growth rate? Number of continuing past presidents in our club is more than the total membership of many Rotary clubs of our district. The past president committee of the club never meets and very rarely think over on club affairs. Since last few years this past president committee is on pen and paper shake

only. Past President Committee and club advisors should also guide the club leaders properly with innovative ideas. One important thing is that the club leadership and their way of approach attracts members for participation in programmes and meetings.

The best leaders want to know how to improve. They seek out feedback - from their teams and from others around them. The reason that they improve is because they want to improve. And they improve through being open to, seeking out and listening to feedback. The best leaders are accountable. They are accountable to the club and also to themselves. They should realize that for everything that happens, they have some influence on it. And they should ask themselves and think about what they need to do to make this better, what part of this belongs to them. They help others be accountable too of course, but it all starts with them.

Now, let us introspect ourselves. It is always said in Rotary, all members are leaders in their respective field. My appeal to each and every member to prove their leadership here too. Then we can proudly say that we are member of a premiere club of the district.

With this I conclude my column today. Meet you again with a new topic in the next month. Till then Good Bye.

PP Rtn. Prof (Dr) S. K. Das

FROM PRESIDENT'S DESK

Dear Fellow Rotarians

August marked a special time for us as it was celebrated as Rotary Membership Month-a time to reflect on

the essence of being a part of this incredible organization. Rotary membership is about being part of a network of dedicated members who share a common passion for making a difference. Through our regular meetings and events, we discuss our community's needs and develop innovative solutions to address them. Moreover, they are an excellent opportunity to build friendships.

Rotary offers various opportunities for fellowship and service. It allows members to collaborate on impactful projects at the club and even at the district levels. As a club member, we encourage you to take an active role in our initiatives. This involves attending meetings and events, paying club dues, and more importantly, using your commitment towards working for the society to make a difference. Our strength lies in our members and in our membership. Each member brings a unique perspective, skill set, and energy to our club, helping us achieve our shared goal of Service Above Self.

In light of August being Membership Month, we took the opportunity to celebrate our Rotary club, our members, and the good work we do both in our community and around the world. As part of this celebration, we were honoured to have our District Membership Chair, PDG Debasish

Mishra, join us for a workshop on membership. His insights and guidance provided a remarkable experience for all attendees, and it was evident that our members left feeling motivated and inspired to further engage in Rotary's avenues of service.

Our objective remains steadfast: to retain our valuable members and to invite new members who are eager to join us in our mission to serve people. Engaging new Rotarians in the various avenues of service will continue to be our focus as we move forward. Together, we can ensure that Rotary remains a vibrant and impactful organization that continues to make a difference, one member and one project at a time.

Let us take this momentum forward and continue to build our Rotary family. I encourage each of you to reach out to potential members who would thrive in our community of service and fellowship. Let's grow together, serve together, and make this world a better place!

Yours in Rotary,

Rtn. Jnana Ranjan Rath

In a lighter vein

I Once a sardarji received a love letter from his beloved. Being an illiterate he could not read the letter. So kept that letter with him for weeks, months and years and he thought how to read the letter. He thought and thought and thought and this sardarji being a little intelligent fellow finally he got an idea that he can go with that letter to his friend and ask his friend to read that letter for him. So he made all the plans to reach his friend. Finally he reached his friend's house on one fine morning and he explains all the story, but still he does not want his friend to know what that letter contains (the letter being very personal and meant for only to the sardarji), so again he thought and thought and thought for one week and finally he got an idea.....So this was the situation what our GREAT FRIEND SARDARJI did.....Can you just guess what he did with his final idea....?????

(Ans): He just closed his friend's EARS while his friend was reading the letter so that his friend cannot hear what he was reading.....
