Today's programme

Talk on "The Rotary Foundation." By DGN Rtn. Anil Samal

EDITORIAL

Foundation gets funds from individuals, companies and the government. Preformation planning, formal incorporations, and obtaining tax exemption are needed to set up a foundation. It is created by investors or individuals with a common goal to raise funds. The raised funds assist the running of an organization. The raised funds can be invested to raise profits and can be offered as grants to nonprofit charitable organizations. It's the foundation duty to keep track of its funds and also look for the smooth allotment. Knowing where to find information about where a foundation is funding can help others to find the grant for the specific purpose.

Rotary foundation receives funds from different sources all over the world. Then disburses it by prioritising the needs and requirements. It divides the grants in different divisions. These array of grants help the district and clubs to provide education, improve the health and environment and alleviate the poor of the society.
