*Today's programme
Talk on "Artificial Intelligence - Rotary's Role in the New Era" By Mr. Mohar Mishra*

Happy Engineer's Day!

They tinker, they tool, they plan and they plot,
They'll fix your whole life—if Wi-Fi they've got.

From bridges to bots, from gadgets to gears,
Let's raise a toast—it's Engineers' Day, cheers!

With coffee as fuel and deadlines in sight,
They code through the day and debug through the night.
Equations they juggle with very straight faces,
While Google helps solve all the toughest of cases.

They measure, they model, they stress and they test,
Then claim it's "temporary" but it's their best.

Their laptops are sacred, their desks a war zone,
Their handwriting is cursed, no one's ever known.
They speak in acronyms, symbols, and slang,
And make weird machines that go "BOOM!" or just "clang."

They argue with logic, not feelings or flair,
Just show them the data—they're already there.
No small talk, no drama, just function and form,
And equations that keep your world safe and warm.

Got a leaky faucet or a satellite plan?
There's an engineer with a wrench—or a scan.
They'll build you a drone or a bridge in the bay,
And still forget what day it is today!

So here's to the brains behind every design,
The late-night inventors with no concept of time.
Whether civil or mechanical or software or chemical,
Today we remember to thank all of them.

Dear engineers, take a break from the grind,
Put down the multimeter—relax and unwind.
For all that you do and the weird things you say...
We salute you, genius—Happy Engineer's Day!

Guest Speaker

Mr. Mohar Mishra, Co-founder and CTO of Inovaare Corp (India), is an accomplished entrepreneur, data scientist, and product architect with over 23 years of experience in

product development and 15 years in building startups focused on analytics and cloud computing. With a Master's in Computer Applications from Utkal University and a Bachelor's in Physics from Ravenshaw College, Cuttack, he has over a decade of experience in IT multinationals like HP and Siebel, and another decade as CIO and co-founder of startups. Together with Pravat Rout (USA), he founded Inovaare to deliver cloud-based big data analytics for the US healthcare industry, targeting conditions like sepsis, stroke, and oncology. Under his leadership, Inovaare has deployed scalable solutions in critical care for a 16-hospital network in the US, built a 230+ member team in Bhubaneswar, and established compliance with US federal healthcare regulations. His expertise lies in solution architecture, data science, AI, big data, and product conceptualization. A rare Indian firm in Silicon Valley's healthcare IT space, Inovaare thrives on innovation. Outside work, Mohar is passionate about Hindustani classical music, healthcare and alternate medicines, yoga, and meditation.

Rotary Club of Cuttack - Weekly Meeting Report Meeting No. 3806, 9th September 2025, Cuttack Club Annexure - I

The weekly meeting of Rotary Club of Cuttack was called to order by Vice-

President Rtn. K. Krishna Prasad Subudhi at 7:00 PM. The meeting was conducted by Joint Secretary Rtn. Dr. Ivaturi Subhramanyam along with the celebration of Teachers' Day. The meeting began with the National Anthem followed by one minute of silence for world peace, brotherhood, and harmony. Minutes of the previous meeting were circulated among the members and were unanimously accepted.

Fellowship Announcement was made by Rtn. Dr. Arpita Priyadarshini.

Last week, Rtn. PP Sashi Sekhar Samal and Rtn. K. Krishna Prasad Subudhi attended the RLI - 2 Graduation Program.

Rtn. Sashi Sekhar Samal shared details of the training - a 2-day program with 6 sessions each day, covering 9 areas of service projects.

The sessions provided valuable learning, interaction with fellow Rotarians, and insights into Rotary's service avenues. Teachers from Rotary projects, Rotarians, and Rotaractors were felicitated on the occasion of Teachers' Day. The Chief Guest and Speaker of the day was Prof. Gopa Das, retired Principal and eminent

scholar of English Literature.

She addressed the gathering of Rotarians, Rotaractors, teachers, and guests on the theme of "Literacy and Education", in line with Rotary's Literacy Month.

Prof. Das, who had an early association with Interact and Rotary, shared inspiring thoughts on how education shapes society.

Vote of Thanks was proposed by Rtn. Dr. Swati Mallik.

Statistics of the meeting were presented by Rtn. Ajab Patel.

The meeting concluded with hi-tea, followed by a fellowship dinner,

*By Rtn. Dr. Ivaturi Subhramanyam
Joint Secretary*
