Talk on Teacher's role in Na-
tion- building" By Dr. Pritam
Pal*

The Nation Builders Award in Rotary is a prestigious recognition given to teachers and educators who play a pivotal role in shaping the future of the nation through their dedication and service. This award highlights the importance of education and honors individuals who go beyond academics to inspire, mentor, and nurture students. By acknowledging the vital contributions of teachers, Rotary fosters respect for the teaching profession and promotes the value of quality education. The award also strengthens community ties by encouraging Rotary clubs to actively engage with schools and educational initiatives. Ultimately, the Nation Builders Award reflects Rotary's commitment to service above self and underscores the belief that empowered educators are essential to building a strong, progressive, and ethical society.
