*For last year's words belong to
last year's language and next
year's words await another
voice. And to make an end is to
make a beginning."*

— T.S. Eliot

Individuals are goal oriented. They set a goal and then they aim for the completion and try to reach the end successfully. After completion of the previous goal, it's time to start a new venture with different motives, focus and engage ourselves to achieve the goal.

The end of the year is like losing something or the end of a chapter which can bring out the emotions like stress, fatigue and emptiness. It is the time for reflection and contemplation. It is the time to ponder over the challenges and difficulties faced over the period and also the moments of happiness and pleasure. This is the time we have mixed feelings, gratitude and nostalgia for the last year and anticipation and anxiety for the coming one. We should prioritise our mental and emotional well-being. It is the end of the year, let's try to learn from the past mistakes and time to say 'Good-bye'. Prepare ourselves to welcome the new year and take resolutions to do better for society.

Let's welcome Christmas

and the new year with great enthusiasm.

THE ESSENCE OF CHRISTMAS

The essence of Christmas is the birth of Jesus Christ. It is a time to reflect on love, joy, family, and to remember the gift of hope, love which Christmas brings. True meaning of Christmas extends far beyond religious beliefs. It is time for family & friends to come together, to show gratitude and to spread kindness and generosity to others.
