BARABATI

Editorial...

It is an innovative idea of bringing together all the Presidents and Secretaries of Rotary Clubs of Cuttack and Choudwar to a single platform and felicitating them every year. It was introduced by our club with a noble Objective. All the elected presidents have their set goals. Each President sets his goals to reach the ultimate objective of serving in furtherance to the Rotary ideologies. It is in fact nice and interesting to note that different independent ideas flow from the elected Presidents to formulate modalities to work and serve the mankind through their respective clubs. In fact, the efforts of each deserve recognition and appreciation. Rotary Club of Cuttack makes an endeavor to support the cause.

Desire to work together with the like-minded people gives job satisfaction, encouragement and adds to the togetherness. The association with the like-minded people establishes a strong society. Simple ideas to create interest among the citizens to eradicate irregularities are sufficient to help society. Locating the problems, finding the solutions and removing the hurdles coming on the way for a prosperous society. Today, in the Club we have all the Presidents, the decision makers, Secretaries, who would implement the same and above all the District Governor, the leader. Barabati extends a hearty welcome to all of them.

Priorities...

Rtn. PP S. Sudhakar Rao, PHF

One would always feel happy to be in the front line. The happiness doubles when such privilege is

conferred without efforts. The feeling of pleasure is because one gets Priority over others of same class. This is just crossing the queue, because of someone who pulls you to the top. Such placement in a better position adds pride and gives a lot of self-satisfaction besides adding self-confidence. On an analysis it is not exactly avoiding the queue but placement in a better position in the line, for which importance is felt. This is more so one tends to believe a success over others. All these feelings are when the individual feels that he is prioritized. One often forgets that key for progress in life and betterment of the society is not to prioritize on ones schedule but by prioritizing schedules. It is known that without ethics man has no future. Ethics in fact determine the choices. Whether we like it or not the world evolves, priorities change and so do each one in the society. In a group who gets priority, rules. He is named leader. Tested these theories whether with reference to all stages of life such as during childhood in the family some dominate because of the privilege of getting priority, during schooling and college career the same is the situation, in politics and even in voluntary organizations this is the situation. Some choose to become leaders and others are made so for the requirement. This is the time one should realize that he needs to focus on the right priorities. True it is one can do anything, but it is equally true that one cannot do everything. It is therefore high time, that those who are chosen as leaders to lead need to set priorities and to decide for what one stand for. In other words set the goals and work on the same. Priorities will be visible and get appreciations. Mahatma

Gandhi rightly pointed out that 'Action expresses priorities'.

D.G. & First Lady of RID 3262...

Manoj Kumar Tripathy hails from a very affluent family Puri. Having been taught by the cream of Indian academics he holds multiple degrees like B. Sc, L.L.B. and MBA. In addition to that, he is a Faculty of RLI.

Rtn. Manoj says, "Rotary should take great efforts to spread the acceleration of good deeds it is doing all over the globe so that human generations queue up to join hands with Rotary clubs."

Global Tiger Day...

Global Tiger Day, celebrated on July 29 each year, raises awareness about tiger conservation and the urgent need to protect their natural habitats. Established in 2010 during the Saint Petersburg Tiger Summit, this day highlights the alarming decline in tiger populations due to

poaching, habitat loss, and human-wildlife conflict. It also serves as a call to action for governments, wildlife organizations, and individuals to work together to ensure the survival of this iconic species. Global Tiger Day reminds us that saving tigers means preserving entire ecosystems for future generations.
