

THE MAGIC
OF ROTARY

E-SUHRITH

01st September 2024 VOL: 17 ISSUE: 04

E SUHRITH
Wishes you a happy Ganesha Chaturthi

.Dear Rotarians,

In this month, we would be celebrating our club Charter day, on 5th September. 34th Charter Day remembering how the club has evolved, and also reminiscing the sweet memories. The installation of various Interact & Rotaract clubs under our patronage will also pave the path for future Rotarians.

I request you all to implement some of the Rotary focus area initiatives like Rainwater harvesting, environmental friendly action like Solar roof top etc in your homes/place of work. This will increase our impact on the society. Also Rotary presents opportunity to be a part of Fellowship groups to follow your passion along with fellow Rotarians as well as be a part of Action Groups to work towards a cause. Explore more of Rotary by logging into www.myrotary.org So, let us immerse ourselves in the world of Rotary!

Sandeep Rao I.

E SUHRITH

Conveys our Special Greetings

to them on these special occasions.

Of the things we think, say or do

1. Is it the truth ?
2. Is it fair to all concerned ?
3. Will it build goodwill and better friendships ?
4. Will it be beneficial to all concerned ?

Rtn Vidya Aravind had the honor of concluding the session.

Rtn. Nithesh Kumar.
Secretary

The Story of TEACH

The Rotary movement in India has played a pivotal role in advancing education and literacy across the country. One of the most notable initiatives in this field is the TEACH program, a flagship project of Rotary India Literacy Mission (RILM). TEACH stands for **Teacher Support, E-learning, Adult Literacy, Child Development, and Happy Schools**, reflecting a comprehensive approach to tackling literacy and education challenges.

TEACH Program: A Holistic Approach

1. **Teacher Support:** Recognizing that the quality of education is directly linked to the effectiveness of teachers, the TEACH program places significant emphasis on enhancing teacher capabilities. It provides extensive training to educators, particularly in underprivileged and rural areas, equipping them with modern pedagogical skills and methodologies. This initiative ensures that teachers are well-prepared to deliver quality education, thereby improving student outcomes.

2. **E-learning:** To bridge the digital divide, the TEACH program has introduced e-learning modules and digital classrooms in schools across India. These efforts are aimed at familiarizing students with technology, enhancing their learning experiences, and preparing them for a future where digital literacy is essential. By integrating technology into education, Rotary is helping students gain access to a wider range of educational resources.

3. **Adult Literacy:** The adult literacy component of TEACH focuses on empowering illiterate adults, particularly women, with basic reading, writing, and arithmetic skills. This initiative not only improves their ability to function in daily life but also boosts their confidence and enables them to contribute more effectively to society and the economy.

4. **Child Development:** Through child development programs, TEACH addresses the needs of children in their early years, providing them with the foundation necessary for lifelong learning. This includes nutritional support, health check-ups, and creating a conducive learning environment, which are critical for the overall development of children.

Happy Schools: The Happy Schools initiative within the TEACH program aims to create a joyful and safe learning environment. This involves improving school infrastructure, ensuring clean and hygienic conditions, and providing necessary educational resources like books and uniforms. By making schools more inviting and supportive, this initiative helps increase student attendance and retention rates.

Impact of the TEACH Program

The TEACH program has made significant strides in improving literacy and education across India. By addressing multiple facets of the education system—teachers, students, adults, and infrastructure—TEACH has created a sustainable impact that is transforming lives. The program's holistic approach ensures that all aspects of education are covered, leading to a more literate and educated population.

In conclusion, Rotary's TEACH program exemplifies the organization's commitment to enhancing education and literacy in India. Through targeted interventions and comprehensive support, Rotary India is playing a crucial role in building a brighter future for millions of people across the country.

A Brief Report of the Interact Assembly

Event: INTERACT Fusion

Date: 11th August 2024

Time: 10:30 am. To 01:15pm.

District Interact Assembly (Zone 1 to 5) was held in SDPT Kateel High School. On reaching the venue we began by registering and then we were asked to assemble in the main hall for the formal function. The program started with a classical dance followed by group singing and group dance and also a marvelous skit about the ill effect of excess mobile usage which was presented by Interact students of SDPT Kateel.

After the cultural program the event started with the inaugural session where dignitaries present like Sri Sanathkumar, Sri Balakrishna Shetty, DGN Rtn. Sathish Bolar, and many more were honored for their esteemed presence.

All these people shared their experiences with us. The first speech was about leadership quality that we have to develop in our self. The next one told us about the life

after 18 years, profession to be chosen, success in life and the difficulties we have to face in our life. The next speech was about the life lessons. Madam Likhita R. Salian gave a marvelous speech about the environment. This was followed by Rtn. Sathish Bolar emphasizing about the importance of Mother of Mother, Teacher and Soldiers. This was followed by a speech on what INTERACT means.

Then the District Interact Chairman told us why education is called as institution service. And also he told us about the importance of Home and study.

Next session was taken by Sri Balakrishna Shetty. He told us that we should update our life and also our life experiences.

After tea break we all went to visit the science park that has been built by the College to inspire the students to think and work for a better world. After this brief visit we were called back to the main hall. The next trainer engaged us in a good game session and we enjoyed it very much. After the games there were individual sessions for President and Secretaries and also for teacher coordinators. After the sessions the event was concluded with the vote of thanks.

This event gave us a lot of information on things like how we can conduct a meeting, how to develop leadership qualities, then the importance of INTERACT CLUB and many more.

This was possible because of Yashomathi Madam and our Miss Keerthi madam, the coordinator of INTERACT CLUB, the proper guidance we received from them.

Ananya M. Holla

Secretary, Interact Club of SMEMS, Surathkal

Friends,

This is a new page introduced to add a little spice into these pages. These fun pages are intended to give a small jolt to your brain cells also. If you consider them as too silly or trivial now, don't worry it will change its structure as the days goes by depending on your responses.

Those of you who completes all the puzzles, can send your answers within next seven days to any of the editors and your name will be published in the next issue of the bulletin.

Until then have fun.

Editorial Team

Rotry quiz 1— Know your club:

You all know that Dr. B. S. Samaga was our charter president. But can you tell me who was our charter secretary?

(Sorry, no choices to choose from in this case)

Logic Puzzle:

You're at a fork in the road in which one direction leads to the City of Lies (where everyone always lies) and the other to the City of Truth (where everyone always tells the truth). There's a person at the fork who lives in one of the cities, but you're not sure which one. What question could you ask the person to find out which road leads to the City of Truth?

Sudoku

					5			9
6	9						2	8
3		1		2			4	
7	8	3	9	6			4	2
					8		6	3
9	4		2	5	3		1	7
	1						3	
			1	9				4
8		9	5		4			

Is it because.....

- Why did the coffee file a police report?
Because it got mugged!
- Why did the astronaut break up with his girlfriend?
Because he needed space!
- What do you call a fake noodle?
An impasta!
- Why did the scarecrow win an award?
Because he was outstanding in his field!
- Why don't eggs tell jokes?
They'd crack each other up!
- Why did the bicycle fall over?
Because it was two-tired!
- What do you call a can opener that doesn't work?
A can't opener!
- Why did the baker go to the bank?
He needed dough!
- Why did the mushroom go to the party?
Because he was a fun-gi!
- Why did the computer go to the doctor?
It had a virus!
