Distribution of Computers at ZP High School, Ayyavaaripalli

The Rotary Club of Hyderabad North visited ZPHS School in Ayyavaripalli to distribute computer systems as part of our community initiative. We successfully provided 5 computer systems along with additional equipment to the school.

We extend our heartfelt gratitude to our District Governor, Rtn. Dr. Raam Prasad, and DGN Rtn. M. Harihara Prasad for attending the event and supporting this project.

The Headmaster, faculty, and students of the school expressed their happiness and appreciation for this contribution. It was a proud moment for our club to support education and empower the students with digital learning tools.

Additionally, we collaborated with Peepal Consultant to promote a campaign against food wastage.

Visit to Ekwaipally Village

The RCHN team recently visited Ekwaipally village, a community grappling with significant challenges related to access to safe drinking water. The lack of a reliable and clean water source has left the villagers struggling to meet their daily hydration needs, which is crucial for their health and well-being.

During our visit, we met with the village Sarpanch, who expressed deep concerns about the ongoing water crisis. He highlighted the urgent need for a sustainable solution and requested assistance from the Rotary Club of Hyderabad North. Specifically, he proposed the installation of a reverse osmosis (RO) plant at the designated premises of the Gram Panchayat. This RO plant would serve as a vital resource, providing the villagers with free access to purified drinking water.

The installation of this facility would not only address the immediate water scarcity issues but also promote better health and hygiene practices within the community, ultimately improving the quality of life for all residents of Ekwaipally.
