Message from Past District Governor

Dear Rotary Friends,

Rotary is entering its 116th year; a long and successful journey! Rotary has transformed the ideology of its members and has drawn up programmes based on the needs of the community from time to time. But Rotary has never compromised their values and ethics. We the members are observing the high ethical values of Rotary in our day to day life and demonstrate the behavior of the Rotarians in the community. This is the public image of Rotary. We are proud of this world-wide time-tested organization.

COVID-19 pandemic has temporarily changed the Rotary culture. We are meeting virtually with social distancing. However, the Rotarians have not changed their compassion and are engaged in doing good deeds to support the world and lending their service above self. Rotary Foundation has promoted their generosity resulting in maximum COVID-19 pandemic Global Grants within no time limit. I have observed that the Rotary Foundation has approved more than USD 180,000 grant from our district within 48 hours. Therefore there is a further need to strengthen our Foundation through whole hearted donations.

Friends, Rotary has opened the door for immense opportunities. If you close your eyes and think of doing good for the community, as soon as you open your eyes, you will immediately get the opportunity to implement your thoughts within a few seconds in the Rotary. Once you start to work on your ideas, the whole life will be insufficient to fulfill your dreams.

Rotary promotes collective efforts. You or I, alone cannot fulfill our dreams but, collectively we can. Therefore, our dedicated efforts require inviting maximum members to the Rotary. We are happy with our organization and hence it is our humble duty to invite our friends to become members of this great organization. My humble request to all my Rotary friends is that they may invite at least one new member from their business or friends circle to join the Rotary.

Friends, I have witnessed that IPP Ashish has worked intensively to revive this club and the Rotary Club of Dahej is now on the express path. The Club has now permanent projects. President Bhavesh Rami has great enthusiasm and has planned several activities for the whole year. My humble request to all the members is to actively involve themselves in the various club projects and enjoy the Rotary.

I take this opportunity to convey my heartiest congratulations to IPP Ashish Desai and his team for the successful year and best wishes to the incoming team.

Yours sincerely,

First of all I would like to thank you for giving me opportunity to serve Dahej Club as President for the year 2020-21. In this pandemic condition it is very difficult to meet people since last almost 5 months and all the communications, meetings are happening on virtual platform. As a Rotarian we are committed for service to society and in this condition also rotary is doing its excellent work for service to community.

Rotary Club of Dahej is established before five years and have carried out many service projects for the community development in past years. With this aim, this year we have planned many projects, which are the need of this area and will increase the Image in the Industries of Dahej, which in turn will help us to increase the members from Industries.

To improve the communication with Dahej Industries, club members and with District 3060, we are launching our In-house e-Bulletin "Setu" from August 2020. I am sure that the e-Bulletin will help us to increase Public Image of the Club.
