## A Moment to Reflect

Dear Members, Rotarians, Donors, Supporters, and Friends,

It is with great humility and honor that I assumed the role as the 9th President of our esteemed club, with the vision to catalyze a transformative change through the enabling role of special education as my profession.

As I turned a new leaf in my journey and accepted the mantle of presidency, stepping into this leadership position filled me with an overwhelming sense of gratitude and joy, being aware of the responsibilities my club and many more have entrusted me.

As I reflect on the past seven months, the one thought that comes to my mind is, **“YOU HAVE NO IDEA WHAT YOU ARE CAPABLE OF UNTIL YOU TRY.”** I had a profound vision of establishing all our projects and services when I entered, not knowing its depth. I did this only hoping to accomplish at least a few things.

**My first vision** was to recognize our forefathers' foresight, who identified the crucial need to preserve our tradition and civilization. Our country is filled with the richness of culture and heritage. It was a deep dive into this and the pure intention of attempting to spread the importance of this. With the blessings of the Almighty and Acharyas, this transformed into seven series of **“NAMMA KALACHARAM”** showcasing the beauty of our art and culture.

**The second vision** was, being a special educator and having worked with children with special needs on their physical fitness, I have observed that physical fitness plays a vital role in their overall development. After being in this field of special education for the last nine years, it was also a profound observation that many associated special needs with physical, hearing, or visual impairment are easily associated unlike neurological disorders like autism and Down syndrome. It was a long-time desire to

unite all the children with special needs (autism, down syndrome, cerebral palsy, dyslexia, learning disabilities) on one platform to promote awareness on the importance of sports.

These thoughts culminated in curating the **ODI VILAIYADU - MEGA PARALYMPIC SPORTS MEET FOR CHILDREN AND ADULTS WITH SPECIAL NEEDS**. The scenes behind the event were challenging, but this taught me how to move forward despite all the energies that came across. This proved that numbers and challenges are just a myth and that things can be achieved only when we try to attempt.

These were just the ideas, but we needed many hands to make it happen. I want to express my wholehearted gratitude to all the souls and good Samaritans who have supported these initiatives in the best way possible.

We are constantly endeavoring to unlock the technology-driven value. Still, we must remember that the time spent with nature and moments spent with friends and family will create a platform for a healthy future.

Our commitment to progress is unwavering and deeply rooted in a **“healthy community”** ethos. We have been making many attempts to connect with Rotarians across the globe to exchange ideas and build a network.

**Our Rotary family is always committed to developing a healthy and peaceful society, and in the coming months, we wish to create hope among many more needy people.**

- Good morning, ma'am and all. The event was indeed good, and we enjoyed it. Yes, as everything is, there are opportunities for betterment. While certain inconveniences could have been there, the feeling of getting our kids to participate in such events, trying to get them to socialize with the larger community, and, in many cases, seeing them unleash their hidden potential was heartwarming, which certainly made the inconvenience inconsequential. We went back home with a feeling of fullness and accomplishment. Kudos to you and all organizers and volunteers, and will look forward to more events in the future.
- Good morning, Mam. A great applause to the entire team for successfully conducting this challenging event. This event paves the way for our children in sports to be on par with other children. It was happy & surprising to see them sitting patiently for hours, participating in the events with a spirit, socializing with others, and feeling pride in completing and receiving the certificate/prize. Thanks, Madam, for allowing us to improve their self-esteem and confidence... A special thanks to all the YMCA volunteers for their patience & energy in motivating our children and bringing this event to a great success... I am looking forward to more such events in cultural & fine arts, too ... Thanks again.
- Happy Morning to all...- Thanks to the Rotary Club and Jayashree Ma'am for organizing such a fantastic meeting. Everyone has enjoyed it a lot. This sports meet will encourage our children to participate in this inclusive society.
- A special mention of thanks and appreciation goes to the parents who made their kids participate in that event. Thank you
- Namaste mam- A first-ever organized sports meet for god's kids by a lovely team in Chennai is to be celebrated.
