Basic Education and Literacy in India

The Role of Rotary

Basic education and literacy are fundamental rights that pave the way for sustainable development and social empowerment.

By taking up focused interventions, even small Rotary clubs can make a significant difference in empowering rural students by leveraging digital advancements to improve education in India's villages.

In rural India, the education system faces long-standing challenges, but significant progress has been made in recent years through government initiatives, non-profits, and organizations like Rotary. Access to education in rural India has improved considerably, with new technologies and digital resources becoming increasingly available.

State of Literacy in Rural India

According to the National Statistical Office (NSO) data from 2020, India's overall literacy rate is 77.7%, with rural literacy

lagging behind at 73.5%. Female literacy in rural areas is particularly low, standing at just 65.8%, compared to 81.5% for men.

Despite these challenges, technology is playing a major role in improving access to education in rural areas.

As part of the **Digital India** campaign, the government has introduced a variety of digital tools that rural children now access via mobile phones and the internet. This has contributed to an improved learning experience, bridging some of the previous gaps in educational infrastructure.

Digital Initiatives in Rural Education: A New Era of Learning

The government's efforts under the Digital India initiative, coupled with educational programs like Swayam and Atal Tinkering Labs, are transforming rural education. However, ground-level issues such as infrastructure, gender disparity, and socio-economic barriers still need to be addressed, and this is where Rotary clubs play a pivotal role.

In recent years, the Indian government has launched multiple initiatives aimed at democratizing access to quality education through digital platforms. Key among these are:

Swayam Portal

The Government of India's online learning platform, Swayam, offers a wide range of courses for students, free of cost. It has made higher education accessible to millions of students in rural areas, who can

The PM Shri School Scheme particularly focusses on providing access to quality education in rural and underserved areas.

now access quality courses from top institutions.

As of 2023, more than 2,500 courses were available on the Swayam platform, covering topics from engineering to humanities, with over 1.7 crore students enrolled across the country.

Digital Payment Systems

With the rise of online payment systems, even rural students can now pay for certification courses or advanced learning programs. The increasing penetration of internet banking and mobile wallets has enabled a seamless payment experience, allowing access to both government-sponsored and private educational resources.

Atal Tinkering Labs (ATLs)

The Atal Innovation Mission launched by the Government of India is bringing a hands-on learning approach to rural schools. Under the ATL initiative, labs equipped with science and technology tools are being set up in schools across the country, encouraging students to explore robotics, electronics, and 3D printing.

By 2023, over 10,000 Atal Tinkering Labs had been established in schools, 70% of which are in rural or semi-urban areas. This initiative aims to foster innovation and critical thinking among students.

**" I dream of India where
Knowledge is the Strength
and Empowers the People "**

Prime Minister Narendra Modi

PM Shri School Scheme

Launched in 2023, this scheme focuses on transforming 14,500 schools across India into model schools with upgraded infrastructure and modern teaching methodologies. The aim is to enhance the quality of education and ensure that students receive holistic development.

The PM Shri School Scheme is particularly focused on providing access to quality education in rural and underserved areas, addressing some of the systemic issues within the education sector.

Improved Internet Connectivity

The efforts under the **BharatNet** initiative, which aims to provide high-speed broadband to rural India, are helping bridge the digital divide. As of mid-2023, internet penetration in rural India reached around 37%, a significant jump from previous years. Children in villages are increasingly accessing online educational platforms, leading to better learning outcomes.

These initiatives have significantly improved digital access, transforming rural education by making resources more readily available. The rise in mobile phone ownership has further boosted this access, with over 65% of rural households having at least one

mobile phone by 2023.

PMGDISHA: Digital Literacy for All

One of the notable government initiatives to boost literacy in India is the Pradhan Mantri Gramin Digital Saksharta Abhiyan (PMGDISHA), aimed at making 60 million rural households digitally literate. The scheme focuses on providing digital literacy training to at least one person per household, especially targeting underserved rural areas. It covers areas such as operating computers, accessing the internet, handling digital transactions, and using online government services.

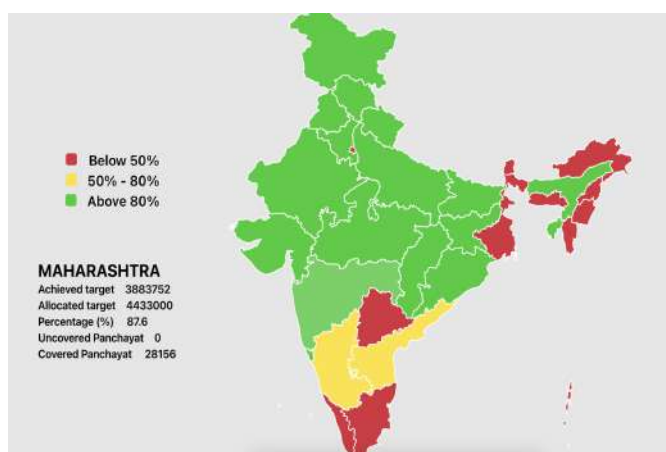

The PMGDISHA scheme is crucial in bridging the digital divide, especially in the post-pandemic world, where access to education, banking, and government services is increasingly digital.

This initiative aligns with the goals of Rotary International's focus on Basic Education and Literacy by empowering individuals with digital skills that are essential for modern education and economic participation.

Performance of Maharashtra in PMGDISHA

Maharashtra has been one of the better-performing states under the PMGDISHA scheme. As of recent reports, over 4.5 million individuals in the state have received digital literacy training, placing Maharashtra among the leading states in terms of outreach. The state's focus on digital infrastructure development and its widespread network of training centers have played a key role in its success.

Despite the progress, there are still many underserved communities in Maharashtra, particularly in rural and tribal areas, where digital literacy remains low. These regions continue to face challenges such as lack of digital infrastructure and access to the

Performance of Maharashtra in PMGDISHA

internet, highlighting the need for further efforts to ensure the scheme reaches the most vulnerable.

Ground-Level Pain Points in Rural Education

Despite these technological advancements, some fundamental issues persist in rural education:

Inadequate School Infrastructure

Many schools still lack essential facilities such as proper classrooms, toilets, and libraries, which affects student attendance and engagement.

Teacher Shortages

There is a critical shortage of trained teachers, particularly in rural areas. Without skilled educators, even the best digital resources cannot be effectively utilized.

Gender Disparity

Cultural norms and socio-economic conditions still prevent many girls from pursuing education, with high dropout rates among adolescent girls due to lack of menstrual hygiene facilities and early marriages.

Digital Literacy Gap

While more students have access to mobile phones and the internet, many still lack the digital literacy skills required to fully benefit from online resources like Swayam. Rural teachers also need better training to integrate digital tools into the classroom.

Rotary's Contribution to Rural Education and Literacy

Rotary clubs across India have been instrumental in improving the education landscape in rural areas, addressing both traditional challenges and new opportunities arising from digital advancements.

Infrastructure Development

Rotary clubs have built or renovated schools by adding new classrooms, installing sanitation facilities, and setting up libraries. This improves the overall learning environment and reduces dropout rates,

especially for girls. In line with Rotary's thrust areas, RC Vishrambag also has conducted various activities for enhancing literacy. In year 2023-24, it **donated benches** to Siddivinayak Primary School, Sangli.

Teacher Training Programs

Rotary's training initiatives aim to enhance teachers' digital literacy, enabling them to effectively use online resources and tools in their classrooms. This ensures that students can make the most of platforms like Swayam.

Supporting Atal Tinkering Labs:

Several Rotary clubs have partnered with schools to provide additional resources for Atal Tinkering Labs. They help organize science fairs and innovation challenges to foster creative thinking among students.

Scholarships for Online Courses

Rotary clubs are offering scholarships to rural students for certification programs on Swayam and other platforms. These scholarships cover the cost of exams and certifications, encouraging students to continue learning beyond their regular curriculum.

How Small Rotary Clubs can Contribute

Small Rotary clubs can focus on targeted interventions to further improve rural education. Here are some specific programs which small Rotary Clubs can undertake:

Mobile Learning Hubs

Action Plan:

1. Convert a van or small bus into a mobile learning lab equipped with tablets and internet connectivity.
2. Visit villages on a rotating basis to provide children with access to digital courses and e-learning tools.
3. Partner with local teachers to conduct regular workshops, helping students navigate online resources like Swayam.

Impact:

Brings digital learning to students in remote areas who may not have consistent internet access or devices at home.

RC Vishrambag Donated Benches to SiddiVinayak Primary School, Sangli in 2023-2024.

Digital Literacy Workshops for Teachers and Students

Action Plan:

1. Organize workshops for teachers on how to integrate Swayam and other digital platforms into their teaching methods.
2. Offer digital literacy sessions for students, ensuring they can access and use online learning resources effectively.
3. Provide certificates for students completing the workshops to motivate continued learning.

Impact:

Ensures both students and teachers can leverage the growing digital infrastructure in rural India for better educational outcomes.

Support for Atal Tinkering Labs

Action Plan:

1. Adopt a school with an Atal Tinkering Lab and provide additional science kits, materials, and expertise to help run the lab efficiently.
2. Organize science exhibitions and innovation challenges for students.
3. Collaborate with local engineering colleges to mentor rural students in using ATL resources.

Impact:

Promotes a culture of innovation, problem-

solving, and creativity among rural students, equipping them for future careers in technology and science.

Rotary's Role in Supporting PMGDISHA

Rotary Clubs, with their strong community presence and commitment to service, are well-positioned to support the goals of PMGDISHA. Rotary can play a pivotal role in the following ways:

1. **Creating Awareness:**

Rotary can help raise awareness about the importance of digital literacy, particularly in rural and underprivileged communities. By organizing workshops and outreach programs, Rotarians can ensure that more individuals are aware of and enrolled in the PMGDISHA scheme.

2. **Establishing Digital Learning Centers:**

Rotary can collaborate with local governments and NGOs to set up digital learning centers in rural areas. These centers can serve as hubs for PMGDISHA training programs, providing computers, internet access, and trainers to help individuals become digitally literate.

3. **Volunteering as Trainers:**

Rotarians with digital skills can volunteer to train rural residents, especially women and older adults, who may be hesitant or unfamiliar with digital technology. By providing hands-

Students of SiddiVinayak Primary School, Sangli using the benches donated by RC Vishrambag

on assistance, Rotary members can help bridge the digital literacy gap.

4. Donating Digital Devices:

Many rural areas lack the resources to access digital tools. Rotary can organize donation drives to provide tablets, smartphones, or computers to students and adults who need them for their digital literacy training.

5. Supporting Women’s Digital Literacy:

Given that two-thirds of illiterate adults globally are women, Rotary can focus its efforts on women’s digital literacy programs. By empowering women with digital skills, Rotary can help increase women’s participation in education, employment, and social activities.

While challenges remain, Rotary clubs continue to play a crucial role in addressing the gaps, particularly in infrastructure and digital literacy.

By taking up focused interventions, even small Rotary clubs can make a significant difference in empowering rural students and ensuring that digital advancements are fully leveraged to improve education in India's villages.

Conclusion

Basic education and literacy are evolving rapidly in rural India, thanks to government initiatives such as Digital India, Swayam, and Atal Tinkering Labs. These programs have opened up new opportunities for rural students to access world-class educational resources.

Meeting 11: "सुरक्षित आनंदी बालपण" Safe and Happy Childhood (13 Sept)

सुरक्षित आनंदी बालपण

Jointly organized by

The 11th meeting was jointly organized by Rotary Club of Vishrambag and Rotary Community Corps, Haripur. The topic was "**Safe and Happy Childhood**". The chief guest and speaker was Adv. Trupti Patwardhan. The program started with lighting the lamp followed by introduction of the speaker by RCC President Mrs. Smita Kulkarni. The program was organized as an activity under the monthly theme, "Basic Education and Literacy".

During the session, **Adv. Trupti Patwardhan** explained the need of awareness about child harrasment and sexual abuse. She told about the possible incidences those can happen and how to protect us from it. She also informed the students about the POCSO act, how it is necessary to share important things with parents and also the importance of being alert from such incidents. She advised the students to avoid unnecessary intereactions with strangers. Nearly 120 students participated in this program.

President RC Vishrambag Rtn. Rahul Shah and Secretary Rtn. Dr. Minika Kullolli, shared their views and experiences. At the end, RCC Secretary Mrs. Sandya Bondre gave vote of thanks.

Community Service Project: Career Guidance Students (14 Sept)

The community service project, "Career Guidance for 10th Standard students" of "Podar International School" was taken up on 14th September 2024. The program involved a seminar to create awareness among students and parents about the need of enabling the students to identify their own inclination, through psychometric tests. Rotary Interact and RC Vishrambag jointly organized this activity.

The program started by welcoming the officers of RC Vishrambag and Introduction by Interact President, Mehek Gangavani. Principal Shri. G. B. Patil gave information about CBSE exam updates. It was followed by the session by Monika Baladawa on career guidance.

Meeting 12: Threats to businesses due to technology

In the 12th meeting of our club, a podcast on "मॉडर्न जगात कोणते बिझिनेस बंद पडतील?" was shown. In this podcast the guest speaker is Shri. Chakor Gandhi, who is a renowned business coach and advisor. He has conducted numerous workshops and written articles in leading magazines and newspapers.

The meeting started with National Anthem, followed by 4-way test. Rtn. Vidhyadhar Dharmadhikari briefed about the program.

The podcast was useful to answer the questions in the minds of businesspersons and entrepreneurs about the threat to our businesses due to AI and technological advancements.

Meeting 13: Importance of Emotional Literacy (27 Sept)

In the 13th meeting of our club, a lecture on "**Importance of Emotional Literacy**" was arranged. The guest speaker was Mr. Kapil Lalit, a Practicing Psychologist. The meeting started with National Anthem, followed by the 4-way test. The chief guest Mr. Kapil Lalit was escorted to the dias by Rtn. Atul Daftardar. He was felicitated by President Rtn. Rahul Shah. The president briefed about the program. The introduction of the speaker was given by Rtn. Dharmadhikari.

The speaker, Mr. Lalit, in his interactive and interesting session, unfolded the concept of Emotional Literacy, importance of identifying and accordingly reacting to the situation, effect of anger etc. He explained how, emotional literacy is necessary to be successful in life. The meeting ended with a delicious dinner and interaction of the Speaker, Mr. Lalit and the Rotarians.

आमचे आनंदी कुटुंब

रोटरी समाज दल, हरिपूर

आम्हा भगिनींचे ऐक्य, एकमेकांशी जुळलेले स्नेहबंध, कामासाठी लागणारी सांघिक भावना, सहिष्णुता, समभाव व सेवावृत्ती, यामुळे आम्ही एक कुटुंब म्हणून इथे एकत्र येऊन काम करतो.

मी १९९८ साली त्यावेळच्या रोटरी व्हिलेज कॉर्प (KVC) म्हणजेच आताचे रोटरी समाज दल (RCC) ची सभासद झाले. मधल्या काही वर्षात कौटुंबिक जबाबदाऱ्यांमुळे सभासदत्व स्थगित होते.त्यानंतर २०१० साली पुन्हा कार्यरत झाले, ते आजतागायत, आणि कायम कार्यकारिणीत राहिले. २०१६-१७ मध्ये मला अध्यक्ष पदाचा मानही मिळाला, व जोमाने काम करण्याची संधी प्राप्त झाली. वाचनाची आवड असल्याने, मोफत वाचनालयाची पुनःउभारणी करताना उत्साह व आनंद वाटलं. पुस्तक मैत्रीतून, गावातील विद्यार्थी व प्रौढ वाचक यांचेशी संबंध प्रस्थापित झाले.

समाजकार्याचे बाळकडू लहानपणापासून मिळाल्यामुळे, इथल्या संधीचा निरनिराळ्या उपक्रमात सहभागी होऊन आत्मिक समाधान व आनंद घेता येतो. अध्यक्षपदाच्या काळात नवीन उपक्रम व कल्पना मांडून त्यांची अंमलबजावणी करता आली. उदा. स्थानिक स्त्रियांच्या लोकगीत स्पर्धा, शाळेतील विद्यार्थ्यांसाठी भक्तीगीत व अभंग-गायन स्पर्धा. त्यातूनच गावातील मुलांना 'सरगम' कळावा म्हणून तज्ज्ञ गायकांकडून काही दिवसांचे शिबीर घेऊन, विनामूल्य गाणे शिकण्यासाठी संधीही उपलब्ध करून दिली.

परदेश प्रवास करून आल्यावर, आपल्या गावातील मुलांना, विमान प्रवास, परदेशातील काही प्रेक्षणीय

स्थळे, यांचे फोटो आणि व्हिडिओ द्वारे माहितीचा संवाद सांगत एक सीडी करून ती हायस्कूल मध्ये सर्व वर्गांना दाखवली. या शाळेतल्या बऱ्याच उपक्रमातून विद्यार्थ्यांचा सर्वांगीण विकास व प्रगती व्हावी हेच आमचे ध्येय आहे.

काही स्थानिक सामाजिक समस्यांसाठी, शासकीय कार्यालयात अर्ज करताना रोटरी समाज दलाचे 'कव्हरिंग पत्र' घेऊन गेल्यामुळे शासकीय अधिकारी तो प्रश्न प्राधान्याने सोडवीत असत व तसा रिपोर्ट पत्राद्वारे संस्थेला येई.

रोटरीचे काम त्यातल्या सभासदांच्या ऐक्यामुळे होत असते. आम्हा भगिनींचे ऐक्य, एकमेकांशी जुळलेले स्नेहबंध, कामासाठी लागणारी सांघिक भावना, सहिष्णुता, समभाव व सेवावृत्ती, यामुळे आम्ही एक कुटुंब म्हणून इथे एकत्र येऊन काम करतो. त्याचबरोबर प्रत्येकाच्या अंगभूत गुणांना चालना मिळते. आपण समाजात अनेक लोकांशी जोडले जातो.

आमच्या संस्थेविषयी आम्हाला सार्थ अभिमान वाटतो आणि असेच काम पुढे करण्यासाठी ऊर्जाही वाढीस लागते.

श्रीमती सुधा भोगले,
रोटरी समाज दल, हरिपूर

District Governor
RIY 2024-25

Join our Club

Rotary is more than 1.2 million passionate individuals in more than 45,000 clubs worldwide. We are both an international organization and a local community leader. Membership in a Rotary or Rotaract club is by invitation only.

○ You express interest

Let us know a little about yourself and what you're looking for in a club. We'll find the local clubs in your area and let them know you're interested.

○ Rotary matches you with a club

Based on your preferences and interests, Rotary leaders in your community will match you with the local club that fits you best.

○ A local club contacts you

A Rotary or Rotaract club member will contact you by email or phone to discuss your interest in Rotary. You'll be invited to get to know the club better by attending a club meeting, a social event, or even to join in on a service project as a volunteer.

○ The club invites you to join

Now that you and a local club have spent some time together and determined that you're a good fit for each other, you will be invited to join. Each club has its own ways of welcoming new members; they may hold a ceremony for you.

○ You're a member!

Enjoy getting involved in your new club as a Rotary member. Join a committee. Lead a service project. Organize a social event. Lead and contribute to your new club.
