## INITIATION OF PFD-HOSTED PODCASTING PODCAST "DISTRICT 101"

Initiation of District 101's first PFD-hosted podcast was a joint effort by Mrs. Chapman, Mr. L. E. H. (District 101) and Mrs. Chapman (District 101). Mrs. Chapman provided the necessary knowledge, resources, support, and encouragement from the beginning.

The presentation objectives for this first PFD-hosted podcast were to introduce District 101's PFD-Hosted Podcast to District 101 students and staff, discuss various District 101 areas of focus, express various topics, interests, concerns, and opportunities within the District 101 community.

Upon initiation of District 101's first PFD-hosted podcast, Mrs. Chapman, Mr. L. E. H. (District 101), and Mrs. Chapman (District 101) began to plan the first District 101 PFD-hosted podcast. The first District 101 PFD-hosted podcast was recorded on April 1, 2010, and was titled "District 101: A New Beginning". The first District 101 PFD-hosted podcast was recorded at the District 101 office in the District 101 office building.

The first District 101 PFD-hosted podcast on April 1, 2010, consisted of a series of questions and answers that were set up to facilitate discussion of various topics within the District 101 community.

During the first quarter and the first half of the school year, 2010-2011, District 101 students of more than 1000 school children had the opportunity to ask over 1000 questions within a 100-question graduation ceremony. The students' responses reflected the positive interest of a large number of students throughout the year. From the first PFD-hosted podcast to the most recent PFD-hosted podcast, there has been a significant increase in student participation. The District 101 PFD-hosted podcasts have been well received by students, parents, and staff members, making a strong positive impression on the District 101 community.

The purpose of District 101's acceptance of the District 101 PFD-hosted podcasts is to enhance the District 101 community. ## THE SUCCESSFUL PUPIL IN ACTION "MATERIAL" INFORMATION MATCH THROUGH SELF-DEVELOPMENT

In many ways a child's life is like a "P.I." (Information and Ideas) project in that it has a basic framework and there are many "variables" that can change over time. The teacher also is a variable whose influence cannot be denied, but for now let's focus on the student.

Most children have natural talents and a desire to learn. Some prefer reading while others excel in science, writing skills and more. In addition, the teacher, media may support some children more than others. This is where the teacher can make a difference.

Following the completion of another self-information project, I had the privilege of a "P.I. session" with Michael Tingle, 10-year-old son of my library media specialist, the lovely Linda.

Michael's first self-information project was on his life as a baseball player. He had a great deal of fun and learned a great deal about himself and his interests.

The following is a sample of the first page of Michael's "P.I." on his life as a baseball player. Note how he has organized his information and how he has used his imagination to make his project unique.
