Rotary History

The first four Rotarians

On 23 February 1905, Paul P. Harris, Gustavus Loehr, Silvester Schiele, and Hiram E. Shorey gathered in Loehr's office for what would become known as the first Rotary club meeting.

Harris' desire for camaraderie among business associates brought together these four men and eventually led to an international organization of service and fellowship.

Each of the first four Rotarians, and Harry L. Ruggles, who is often called the "fifth Rotarian," brought different professional perspectives to the organization.

Rotary's founder, Harris, was born in Racine, Wisconsin, USA, on 19 April 1868. He was raised by his paternal grandparents in Vermont and attended the University of Vermont, Princeton, and the University of Iowa. Harris, a lawyer, was Rotary president from 1910 to 1912 and a member of the Rotary Club of Chicago until his death on 27 January 1947.

Loehr, a mining engineer, was born on 18 October 1864 in Carlinville, Illinois, USA. He was a Rotarian for only a few years, never holding office at the club or international level. But that first Rotary meeting was held in his office, Room 711 of the Unity Building in downtown Chicago. He died in Chicago on 23 May 1918.

Shorey, a merchant tailor, served as recording secretary during the club's first year. He was a Rotarian for only a few years, too. He was born in Maine, USA, in August 1862 and died in March 1944.

Schiele, a coal dealer, served as the Chicago club's first president in 1905 and Rotary International's treasurer from July to December 1945. Born in Terre Haute, Indiana, USA, in June 1870, Schiele attended Terre Haute Business College and served in the U.S. Army during the Spanish-American War. He was president of the Schiele Coal Company from 1902 until his retirement in 1939. He and Harris became lifelong friends and lived near each other on the South Side of Chicago. Schiele died on 17 December 1945 and is buried near Harris at Mount Hope Cemetery.

Originally from Michigan, Ruggles was a graduate of Northwestern University in Evanston, Illinois, and joined Rotary at its second meeting. He was treasurer of the Chicago club during its first year, club president from 1908 to 1910, and a Rotary director from 1912 to 1913. He is known for having introduced singing to Rotary club meetings. His printing company, H.L. Ruggles & Co., printed the first issue of The National Rotarian and the first Rotary songbook. He died on 23 October 1959, an honorary member of seven clubs in addition to his home club, the Rotary Club of Chicago.

THE UNIQUE STEP-BY-STEP PROCESS

PROCESS TO ACHIEVE DESIRED OUTCOMES THAT ARE ETHICAL, FAIR AND BENEFICIAL TO ALL

IS IT THE TRUTH?

- Clarity
- Transparency
- Fact checking
- Ethical behaviour

That we do our homework to collect information and to apply critical thinking by asking questions to know the difference between facts, beliefs, assumptions, and opinions as well as know what we don't know.

IS IT FAIR TO ALL CONCERNED?

- Inclusion
- Empathy
- Acceptance
- Belonging
- Accountability

That we use empathy to see other points-of-view in the context of the problems to be solved and the goals to be reached.

WILL IT BUILD GOODWILL AND BETTER FRIENDSHIPS?

- Trust
- Do good
- Feel good
- Have fun

That the process is civil, and there is a feeling of respect and openness to ask the "dumb" question, they can lead to creative and innovative answers. Also, people prefer to work with people they like, respect and trust.

WILL IT BE BENEFICIAL TO ALL CONCERNED?

- What if scenarios
- Trade-offs
- Being creative and innovative
- Better decision making

That these are the conflict transformative answers and decisions that can lead to mutually satisfying solutions, that are sustainable and scalable. This can be an iterative process as we learn more from doing and continuously improving with time.

On an initial stage we filtered Medical Equipment's like Air Bed, Water Bed, Toilet Chair, Walking Stand & Sticks, Medical Beds, ect. and approached many local donors to donate for this cause. The total amount of these equipment's was around 1.50 Lakhs INR. Fortunately in a very short period of time our Donors agreed to give a handsome amount for this project. Club members fulfilled the remaining part of the amount and the project we started. This project is now having a vast effect on society and benefiting more than 15,000 beneficiaries till date thus helping the club build a better Public Image in the society.

Miyawaki Forest

Club has developed 2 Miyawaki Forests of 100 Sq. Mtr. each at Deaf & Dumb School Amreli. This method used for tree plantation is in self a innovative way and by this method we can plant more trees in a small area compared to our traditional planting method. While in this Miyawaki Forest method approx 350 trees can be planted in 100 Sq. Mt. area besides approx 80-100 trees by traditional method thus helping Rotarys new area of focus Environment. Among this, the plantation will be self sustainable after a period of 12 to 18 months where its takes a lot of efforts, precious care and time consuming in other methods. In this method we can select trees and plants depending on surrounding environment thus helping in creating a better place to live for birds.
