## Why the Rotary year begins 1 July

Ever wonder why 1 July is the beginning of the Rotary year? Initially, our conventions played a key role in determining the start date of our fiscal and administrative year.

Rotary's first fiscal year began the day after the first convention ended, on 18 August 1910. The 1911-12 fiscal year also related to the convention, beginning with the first day of the 1911 convention on 21 August.

The next August, the Board of Directors ordered an audit of the International Association of Rotary Clubs' finances. The auditors recommended that the organization end its fiscal year on 30 June to give the secretary and treasurer time to prepare a financial statement for the convention and board, and to determine the proper number of club delegates to the convention.

The executive committee agreed and, in April 1913, designated 30 June as the end of the fiscal year. This also allowed for changes to the schedule for reporting club membership and payments. Even The Rotarian changed its volume numbering system to correspond to the fiscal year (beginning with Volume 5, No. 1, in July 1914).

Rotary continued to hold its annual conventions in July or August until 1917. Delegates to the 1916 event in Cincinnati, Ohio, USA, approved a resolution to hold future conventions in June, mainly because of the heat in cities where most of them occurred. The next one was held 17-21 June in Atlanta, Georgia.

The term "Rotary year" has been used to signify Rotary's annual administrative period since at least 1913. An article in The Rotarian that July noted, "The Rotary year that is rapidly drawing to a close has been signalized by several highly successful joint meetings of Clubs that are so situated as to assemble together easily and conveniently."

**Since the executive committee's decision in 1913, the end of the Rotary year has remained 30 June.**

Attendees at Rotary's first convention in Chicago in 1910. Rotary's first fiscal year began the day after the convention ended.

## TOGETHER, WE EMPOWER

Transforming Kenya's future through education

### ROTARY AND THE GLOBAL PARTNERSHIP FOR EDUCATION

A strategic alliance for lasting change  
in and through education

Rotary International and the Global Partnership for Education (GPE) are working together to ensure that children everywhere have equal access to quality education. This strategic alliance will launch its efforts in the Turkana region of Kenya. Turkana was selected based on its rural location, lack of resources, and need for greater engagement by all key participants in the education system. By strengthening Turkana's ability to provide this quality education to all its children, the partnership aims to encourage the country's progress toward economic and social development, as well as the achievement of Sustainable Development Goal 4: Quality Education.

# 51%

**of children living in rural areas are less likely than children living in urban areas to complete lower secondary education.**

## **BUILDING MOMENTUM**

### **Supporting Kenya's progress**

GPE has supported Kenya's impressive progress toward getting all children into school and learning. That progress, in turn, has advanced the country's overall economic and social development. Between 2005 and 2008, GPE helped Kenya's efforts to plan and implement measures that increased primary school enrollment from 72 percent in 2003, when Kenya made primary education free, to 88 percent in 2012. Over that period, girls and boys reached near parity in education. GPE's ongoing support also engages international donors and domestic stakeholders. As a result, Kenya's education sector plan is broadly owned, and interventions are more successful. Over the past 15 years, GPE has provided grants totaling close to \$220 million to Kenya's Ministry of Education in support of its education strategy.

# 70%

**of GPE's partner countries have more than 40 pupils per trained teacher.**

## **UNDERSTANDING THE CHALLENGE**

### **Improving the overall quality of education and the success of schools in Turkana**

Despite the progress made so far, GPE's evaluations indicate that children from Kenya's remote regions and disadvantaged backgrounds are less likely to go to or complete primary school than others. Kenya's capacity to maintain and improve the quality of education has also not kept up with the growing numbers of children going to school, contributing to low student performance in early grade mathematics and reading.

Remote areas like Turkana struggle to provide children with a high-quality education. Some of the factors that have led to this disparity include poverty, lack of resources, geographic location, barriers to girl's education, and the low ratio of trained teachers to students.

## TAKING ACTION

Mobilizing Kenyan Rotary clubs and participants to make a sustainable impact

Kenya is the first country where Rotary and GPE will work together to make a difference. Kenyan Rotary clubs and participants can get involved by:

- Working closely with the Ministry of Education and other GPE partners to support their work to improve education
- Identifying schools in which your club can invest time, energy, and resources to create sustainable results and build students' success
- Developing innovative ways to use technology to improve planning and accountability
- Providing high-quality textbooks to more children
- Identifying ways to attract and retain qualified teachers

**1.3x

## Our Ongoing Projects

### Audiology & Speech Therapy Center

Club is running an Audiology & Speech Therapy at Deaf & Dumb School. This center is done under the Global Grant of Rotary Foundation & was supported by Rotary Club of Emory Durid Hills (Dist. 6900, USA) & RI Dist. 3060. The aim of this center is to provide diagnosis & treatment related to Deaf & Dumb community of nearby areas.

### Bal Vatsalya Kendra

Our club has started a Bal Vatsalya Kendra in Amreli. Basically its a child development & educational training center for rural & slum area children.. We arraigned a care taker for this childrens and started this center on 22nd of Feb 2021. We are glad to see that on the very 1st day of this center, nearly 35 childrens were present and this figure is now increasing day by day. As of now there are 109 childrens coming to this center. Care taker trains these childrens on how to Brush teeth, taking Bath, Combing their Hair & Dressing, etc. This center is open daily from 8:30 to 11:30 in morning and a healthy meal is giving to all children which attract them for coming here. Our aim is to educate maximum children of slum areas. Recurring cost of around Rs.20000-25000/- is barred by club members and SBI-RSETI. By this project club is gaining public image in the lower class of the society.

### Oxygen Bank

Club had started Oxygen Bank during the 2nd wave of Covid-19 for the needy patients at refundable deposit basis. Club has total of 66 jumbo oxygen cylinders & 4 Oxygen Concentrator Machines. This was all gathered with help of local donors, who were impressed by our clubs activities and public image. As of now there are many patients in the city who requires an oxygen cylinder of their regular treatment. This project is now gaining faith & trustworthiness of the club and building a good public image in the society.

## Our Ongoing Projects

### Project Aadhar - Medical Equipment

Project Aadhar is a project in which our club provides Medical Equipment's to patients on a refundable deposit basis. This project was started on the Charter Installation of Club as a thought to serve the society from the very 1st day of the club. On an initial stage we filtered Medical Equipment's like Air Bed, Water Bed, Toilet Chair, Walking Stand & Sticks, Medical Beds, ect. and approached many local donors to donate for this cause. The total amount of these equipment's was around 1.50 Lakhs INR. Fortunately in a very short period of time our Donors agreed to give a handsome amount for this project. Club members fulfilled the remaining part of the amount and the project we started. This project is now having a vast effect on society and benefiting more than 15,000 beneficiaries till date thus helping the club build a better Public Image in the society.

### Miyawaki Forest

Club has developed 2 Miyawaki Forests of 100 Sq. Mtr. each at Deaf & Dumb School Amreli. This method used for tree plantation is in self a innovative way and by this method we can plant more trees in a small area compared to our traditional planting method. While in this Miyawaki Forest method approx 350 trees can be planted in 100 Sq. Mt. area besides approx 80-100 trees by traditional method thus helping Rotarys new area of focus Environment. Among this, the plantation will be self sustainable after a period of 12 to 18 months where its takes a lot of efforts, precious care and time consuming in other methods. In this method we can select trees and plants depending on surrounding environment thus helping in creating a better place to live for birds.

### Rotary Library at Anandgram Village Devaliya

Rotary Amreli Gir is running a Rotary Library at Anandgram Village Devaliya. This library is open for all at no cost for the students, children as well adults of the entire village who wish to expand their knowledge. This library contains more than 350 books. This project has helped the club in growing the public image of the Rotary.
